The following table lists the intersections that will have stop and go systems implemented. These systems will be implemented the same time as the roads are closed. They will be managed by traffic services personnel on the ground.

### **Stop and Go Systems**

A Stop and go system will be placed at the following intersections:

- |   |                  |
|---|------------------|
| ➤ Buitengracht Street and Wale Street     | All vehicles     |
| ➤ Tennant Street and Keizersgracht Street | All Vehicles     |
| ➤ Buitenkant Street and Darling Street    | All vehicles     |
| ➤ Long Street and Wale Street             | Public Transport |
| ➤ Loop Street and Wale Street             | Public Transport |

These systems will be managed by traffic services and be implemented the same time as the road closures.

Street	IntersecGon	FF&E
