Annexure B: List of all rateable properties within the CID 55

Annexure C: Urban Management Survey report103

Annexure D: Business Plan Comments.....121

A. Motivation Report

a) Introduction

i. Nature & Function of the City Improvement District (CID)

It is proposed that a City Improvement District (CID) be established covering an area in Newlands, in the Southern Suburbs of Cape Town, within the City of Cape Town (The City).

A CID is a community-driven venture, allowing the local community, property owners and local businesses to organise and fund improvements of specific areas within the City. Once established by the City, a non-profit company (the “CID Company”), carries out the improvements and upgrades proposed in its business plan, funded by an additional rate levied on rateable property located within the CID. Provided in the business plan is the motivation, implementation plan and term budget.

In the case of the proposed CID, it is envisaged that both non-residential and residential property owners will contribute to the improvements and upgrades. The CID is established for an initial period of five years with an option to apply for another term if the property owners agree.

ii. Name of the CID

Newlands Community Improvement District, abbreviated to Newlands CID.

iii. Applicant Name & Contact Details

The applicant is the Chairperson of the Newlands CID Steering Committee:

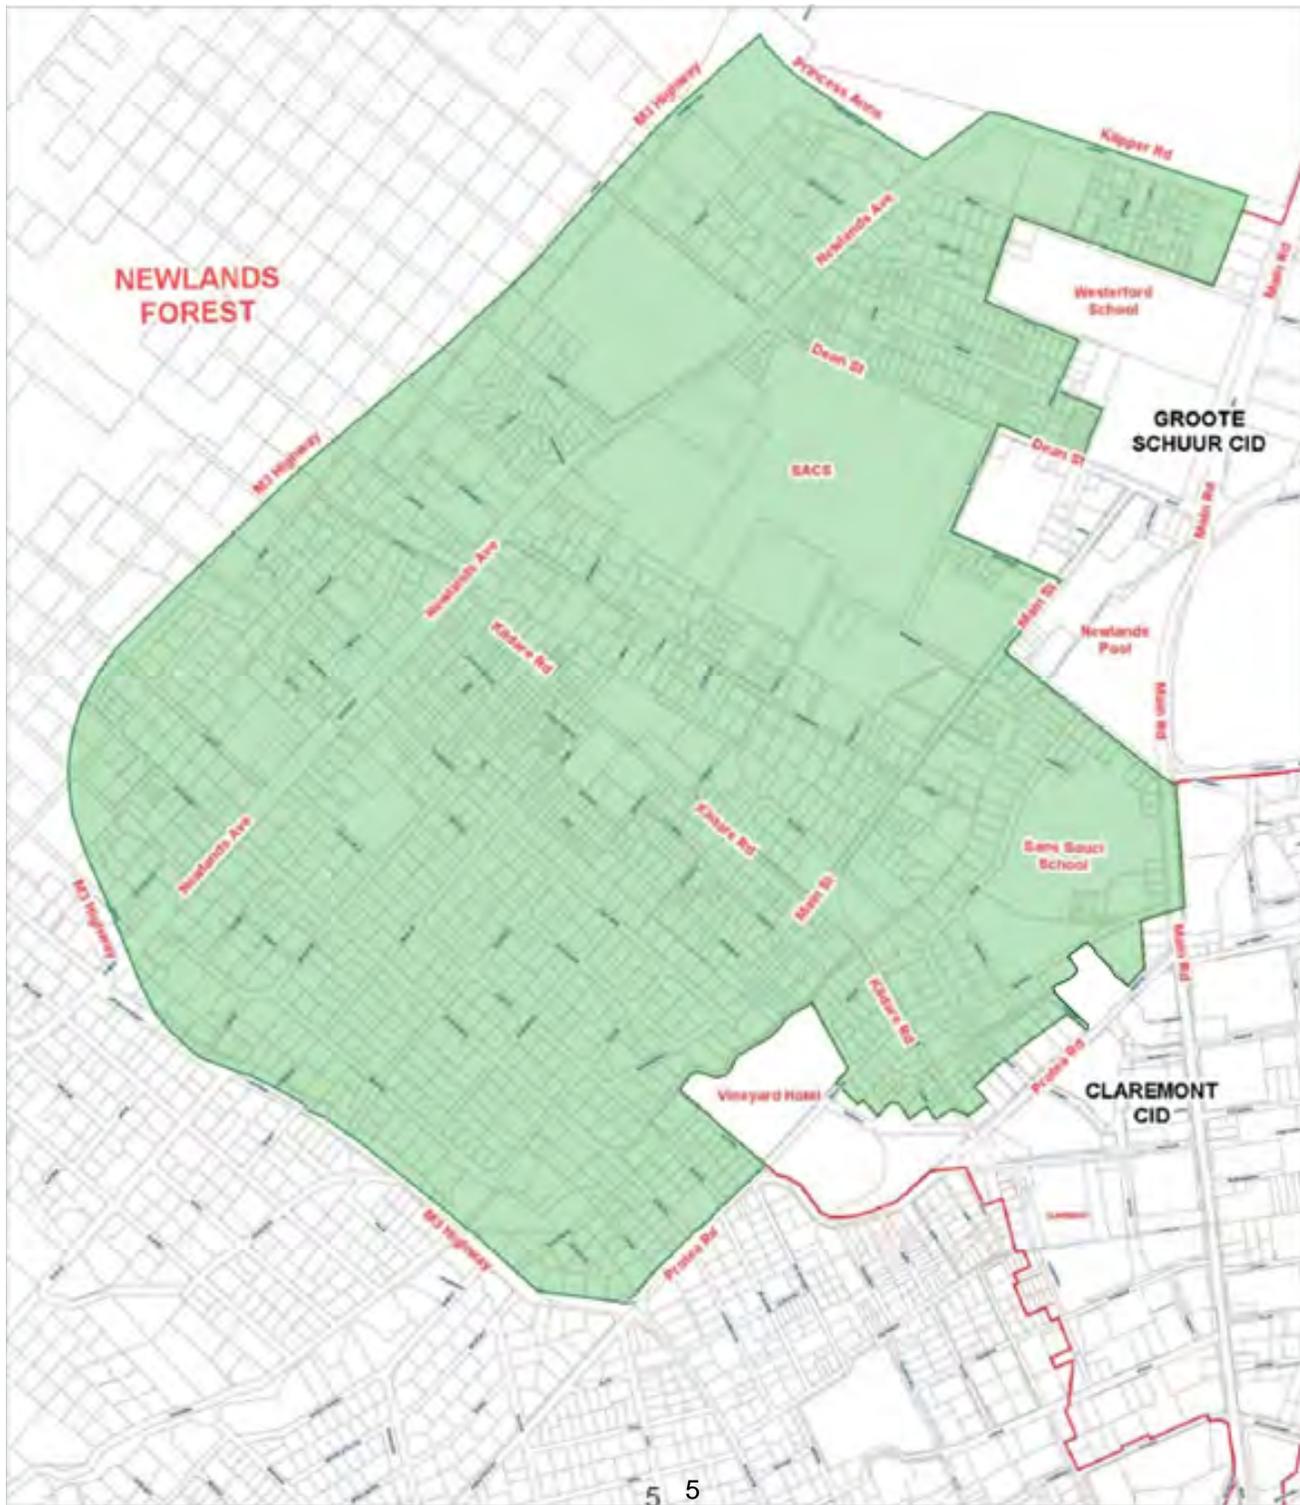

Name: March Turnbull
Address: 8 Cannon Street, Newlands, 7700
Email: march.mapa@gmail.com

Steering Committee	
Richard Curnick	richard@tridentsa.co.za
Sean Duggan	Sean.Duggan@zstar.co.za
Hannchen Louw	Hannchen@navigator.co.za
Chris Reynolds	pavilioncc@gmail.com
March Turnbull	march.mapa@gmail.com
Christian Vaatz	cvaatz@gmail.com

iv. Geographical Area

The geographical area of the proposed CID covers the historical heart of Newlands, Cape Town. It includes some streets which technically fall within the suburb of Rondebosch but whose residents consider themselves part of Newlands through strong spatial and historical links.

- To the north it is bordered by the Groote Schuur governmental estate.
- To the west and south-west it is bordered by the M3 highway and Table Mountain National Park.
- To the north-east, along Main Road, the area is aligned with Groote Schuur Community Improvement District and Claremont Improvement District Company.

v. Core Values:

Transparency & Accountability: Transparency & Accountability are the values of the Newlands CID. They will be achieved through submission of annual reports to the local community, encouragement of local community participation in board meetings and members' meetings of the CID company, and publication of relevant documentation online.

vi. Planning for Success

1. **Vision:** To create a positive Newlands identity with a strong sense of community. Newlands will be a cleaner, safer and more desirable place to live where residents recognise the value of contributing to life in Newlands.
2. **Mission:** To deliver supplementary municipal services that will reduce crime, increase the cleanliness of our public spaces and retain the unique environmental character of Newlands.- To support community-building initiatives and encourage resident participation in common objectives.
3. **Strategy:** Establish a CID - which will develop and implement an affordable, measurable, range of services.
4. **Goals & Objectives**
 - a. To improve Public Safety in the Newlands CID by adding to, and improving the management of, community-driven crime prevention programmes.
 - i. Objective 1: Appoint a public safety service provider to deliver mobile and static PSIRA registered officers qualified to deliver the specified supplementary services.
 - ii. Objective 2: To collaborate with existing community structures to deliver AI-enabled CCT alerts to the CID, with 24/7 monitoring.
 - iii. Objective 3: To establish an LPR network by transferring the existing community LPR network into the CID, and implement 24/7 maintenance and monitoring agreements.
 - iv. Objective 4: To establish communication channels and collaborate with NHW.
 - b. To significantly expand existing community-driven Litter and Cleansing projects to make the area cleaner and more desirable.
 - i. Objective 1: Contract with service providers to implement the proposed area cleaning activities.
 - ii. Objective 2: Establish a formal relationship with Friends of the Liesbeek to support area cleaning strategy in our main waterways.
 - c. To protect and enhance the parks, waterways and natural open spaces of the CID by adding supplementary services to support and extend the City's service delivery.

- i. Objective 1: Contract with partners to support the proposed park warden activities.
 - ii. Objective 2: Collaborate with the Dept. of Recreation & Parks and existing community organisations to create an agreed open spaces maintenance plan where the CID can support the City with supplementary services.
 - iii. Objective 3: Contract with a service provider to implement the proposed supplementary services.
- d. To initiate community-driven social responsibility programmes.
 - i. Objective 1: Contract a part-time social worker with experience in engaging with, and supporting, homeless persons in the southern suburbs of Cape Town.
- e. To implement a system of sustained community feedback to the City.
 - i. Objective 1: Use the City's online Service Request facility to identify, report and monitor infrastructure defects as reported to the CID by residents.
 - ii. Objective 2: Build community awareness of the City online Service Request facility and encourage residents to use it independently of the CID, for the benefit of the City and the community.

b) Proposed Supplementary Services & Projects

i. Why Newlands needs a CID

Newlands has for many years supported public safety, litter and environmental programmes through volunteer activities. These are no longer sufficient to maintain a clean and safe environment for residents and businesses.

The changing nature and threat of crime, massively increased social issues (driven largely by homelessness) and Newlands' unique number of public open spaces require new and more sustainable supplementary service delivery.

ii. Urban Management Survey

Prior to developing the business plan, the Steering Committee surveyed a representative sample of property owners, as per City of Cape Town procedures. The original Urban Management Survey form, the final report and the report synopsis can be found here: <https://www.newlandscid.org/residents-survey/survey-responses>

The findings of the Urban Management Survey played an important part in the development of the proposed supplementary services that the Newlands CID is seeking a mandate to deliver. The Steering Committee also drew on the work of the Sub-Council and existing community organisations' activities and experience.

iii. Overview of proposed supplementary Services

The area is centred around historic Newlands Village which dates from about the 1860s, although a number of local buildings pre-date this. The area includes a City of Cape Town proposed Heritage Protection Overlay Zone. Churches, old residential and industrial buildings, and some streetscapes, enjoy heritage protection as recognised by Heritage Western Cape. The rivers, streams and watercourses of Newlands are also recognised as heritage assets.

The area is primarily residential and includes a mix of flats, townhouses and approximately 1,250 free standing homes. There is also a relatively small number of commercial buildings. There are three high schools, a junior school and a pre-school. The northern edge of the area is bounded by the Groote Schuur Presidential estate and there are several government owned properties within the area.

The major trading hub is centred on 'Kildare circle' and includes several restaurants, coffee shops and local services. The Montebello Design centre is on Newlands Avenue, as is, Foresters Arms pub and Restaurant and a service station. There is a second service station on Paradise Road.

One thing which sets Newlands apart from most other areas is the very high number of public open spaces, dense urban vegetation and long boundary with Newlands Forest.

Apart from the four recognised parks, there are (in aggregate) even larger open spaces which are maintained by local residents, in collaboration with the Dept. of Recreation & Parks. These spaces are highly valued by the residents but while they add significantly in amenity value, they also carry a significant risk to public safety and maintenance cost.

The proposed CID closely mirrors the geographical area supported by the Newlands Residents Association for over 20 years. This membership association is recognised by the City as a commenting body for planning and heritage purposes.

There is some sort of Newlands event almost every month. These are arranged in collaboration with the Friends of Paradise Park, the Newlands Business Forum and others. Environment projects draw in different partners, and Litter projects likewise. The Newlands CID is envisaged to become an active partner in these initiatives.

This community ethic, built over many years, has created a strong Newlands identity.

For example, when the residents association asked community members to support the installation of a community-wide LPR camera network, the existing goodwill, communication channels and financial infrastructure enabled them to raise the required donations within time and budget.

Supplementary service to be provided by the CID cover four broad areas:

- **Public Safety:** the essence of this portfolio is to prevent crime and threats to public safety. The backbone of public safety will be PSIRA registered officers who are able to respond to threats 24/7.

Threat identification will be via a network of patrollers, camera networks, CPF involvement and from the local community. Public safety was the primary concern of respondents to the Urban Management Survey.

- **Maintenance and Cleansing:** Newlands currently has a strong volunteer 'litter-picking' project. However, this is struggling to keep up with changing needs. Of specific concern is the prevalence of abandoned 'camps' which cannot easily be cleaned up by volunteers with bin bags.

Cleanliness of public spaces is a key objective of the CID and success of the CIDs cleaning portfolio will be critical to the CID's perceived effectiveness.

Overflowing City 'green bins' present an ongoing problem in the area. Consultation with the City over frequency and ineffectiveness of green bin clearing, via repeated submissions and responses at Ward Committee level, have not resolved this problem. Various issues, including inappropriate use of the bins for household rubbish, make the current level of service inadequate and this will be addressed by the new CID.

A permanent team of cleaners will be appointed by the CID. They will be supported by a part-time transport contractor making it possible to remove larger loads.

These activities will support the strategic objective of significantly expanding existing community-driven Litter and Cleansing projects, to make the area cleaner and more desirable.

- **Environmental Development:** Newlands is unique in the number of parks, open spaces, and waterways that are accessible to the public. It is fundamental to the identity of the area, and the enjoyment and safety of residents. These natural assets must be protected, maintained and improved.

There are four formal parks, extensive 'green edge' bordering the M3 and Newlands Forest, a dense urban tree-scape and several waterways which not only provided significant amenity value but are also recognised as Heritage assets.

Existing volunteer organisations already have close relationships with the Dept. of Recreation & Parks which has an office in the area. This will continue and strengthen.

Newlands CID, the Recreation and Parks Department, and the many existing volunteers will collaborate on a joint horticultural plan and a part-time maintenance team will implement that plan for the benefit of users and the ecology. They will be supported by a small team of Park Wardens.

- **Social Development:** There have always been homeless people in the Newlands area but since Covid, the number of homeless people has multiplied, leading to increased social challenges.

Historically, individual residents supported specific homeless individuals who are long-term residents of the area. This has typically been via temporary employment or material support. However, with the recent influx of street people to all residential areas, there is an increasing reluctance to engage in this way. CIDs will support homeless persons through accredited organisations.

To date there have been no community or City led efforts to manage the homeless situation in this area.

Neighbouring Groote Schuur Community Improvement District and Claremont Improvement District both have social responsibility programmes and, through Ward Committee representation and the sub-Council Manager, this area is involved with ongoing discussions re managements of homeless persons and encampments.

Through the proposed Newlands CID, there will be opportunities to engage with service providers and NGOs in the area and meet these challenges in a structured and compassionate way.

These broad categories of supplementary services all support the primary strategic objective 'to make Newlands a cleaner, safer and more desirable place to live'.

The proposed supplementary services to deliver on these goals are outlined below.

1. Public Safety

Securing public spaces requires a multi-layered approach, dependent on the threat analysis for the area.

The supplementary services below have been carefully considered and chosen in the context of existing community security programmes, the experience of community safety volunteers, including the NRA Neighbourhood Watch and adjacent Neighbourhood Watches, and in consultation with Claremont and Rondebosch SAPS.

Consistency with the City's Integrated Development Plan July 2022 – June 2027:

The IDP includes three top-tier priorities and three secondary priorities. Safety is a top-tier priority because of its social and economic effects. The supplementary service delivery below will advance the City's objective of 'collective action at scale, where government, the private sector and residents work together to make communities safer.' Specifically, the programmes will advance Objective 5, 'Effective law enforcement to make communities safer, and Objective 6, 'Strengthen partnerships for safer communities'.

Background: Our area is currently served by a number of community security programmes, including professional and civilian patrols, an LPR Camera Network, a CCTV network, SAPS, LE and City liaison. Although they are highly effective, they are managed on a volunteer basis and funded in an *ad hoc* manner. This is not sustainable in the medium term and the CID will expand all the security programmes and assets.

The area falls across two SAPS precincts with about $\frac{3}{4}$ falling into Claremont and $\frac{1}{4}$ falling into Rondebosch. The existing community security structures have strong and productive relationships with both precincts, including CPF membership of both.

The area falls wholly into Ward 59 and the Newlands Residents' Association has a representative on the Ward Committee. Many Wards have a dedicated local Law Enforcement officer. Ward 59 does not.

The NRA Neighbourhood Watch is closely aligned to the area of the proposed CID and it will collaborate with the CID.

Proposed supplementary Public Safety services:

The proposed public safety services listed below have been carefully considered in the light of existing available National and City resources, and based on considerable local experience of existing community-based organisations.

a. 24/7 Mobile Public Safety Officers

Description of the supplementary service: The CID will contract a PSIRA registered public safety officer. Control room is provided by the public safety service providers, operating will work 24/7.

This typically requires three full shifts of three officers working in rotation. There are two shift changes per day, with management ensuring that there is no time where the area is left unmanned.

These public safety officers will be the primary responders in the CID.

When not responding to control room alerts, these vehicles will each patrol a demarcated area. During the daytime this will be primarily for visibility to both residents and wrongdoers. During the night the vehicles will primarily be responding to AI-enabled CCTV alerts. This will position them optimally for both assisting and observing pedestrians during darkness.

These public safety officers will be in direct contact with the static officers, their control room and the CID communications channels.

Need for the Supplementary Service:

- Law enforcement agency multiplier. SAPS Claremont has an average of three shift cars available at any time for all complaints in the whole precinct. Our area is only a small fraction of the precinct and there is unlikely to be a SAPS van in our area at any one time. By introducing three dedicated public safety vehicles to the area the CID will massively increasing the public safety presence and simultaneously be supporting SAPS.
- City of Cape Town Law Enforcement. There is no dedicated Law Enforcement presence in the area.
- Over ninety percent (90%) of UMS respondents want to see increased Community Patrols. Eight two percent (82%) of respondents believe it is essential to improve the response to crime incidents in our area.
- The most prevalent crimes in our area are predominantly property crimes such as burglary, theft from motor vehicles and theft of motor vehicles. There is also a history of robbery which is strongly associated with specific hot-spots in the area.

- There is an existing, more limited, Community Patrol programme in our area and it regularly prevents crime, and detains suspects before handing them over to SAPS. This is very effective working model.

b. Public Safety Officers on foot

Description of the supplementary service: Public Safety Officers will frequent identified hotspots in the area. These hotspots have been determined by local experience and collaboration with SAPS, and will be regularly reviewed.

In places where the threat is 24hr, the officers will have two shifts (Sans Souci bridge, Kildare Circle, Cypress Road underpass), in other places there will be one 12hr shift (Buchan-Thibault bridge, Upper Newlands green belt).

The primary responsibilities of these public safety officers are to create a visible presence, to deter general illegal activity and to engender a sense of confidence in residents.

They will be in direct contact with the mobile officers, their control room and the CID communications channels.

Five locations have been identified and these will be re-assessed on an on-going basis:

- Buchan Bridge 06.00 – 18.00 (single shift). The particular vulnerability here are staff walking to and from work in the morning and afternoon.
- Green Belt 06.00 – 18.00 (single shift). This officer will patrol along the extent of the green belt and report to Law Enforcement of the CCT By-laws.
- Cypress Road (underpass) 06.00 – 18.00 (single shift). This is high-traffic path for residents accessing Newlands Forest on foot.
- Sans Souci Rd (Liesbeek). 24hr (double shift). The specific threat is the access to the path behind Newlands Swimming Pool. It is the border with Groote Schuur CID.
- Kildare Circle 24hr (double shift). This is the heart of the business district.

Need for the Supplementary Service:

- Robbery hotspots have been identified from CPF crime reports and local experience. Mobile officers cannot stand down at individual locations for long enough to maintain a permanent deterrent so static officers are preferable.
- Local experience and pilot projects (e.g. Buchan-Thibault bridge & Newlands Forest car park) demonstrate the efficacy of visible static security initiatives.

- UMS: 75% of respondents requested dedicated public safety measures at two specific locations (which are included in this plan) and the long-form comments identified other crime hotspots which deserve dedicated public safety measures (also included).

c. CCTV Network

Description of the supplementary service:

Management of security threats at night requires interventions to be intelligence led. AI-enabled CCTV is an extremely effective tool for this. Alerts are generated automatically by the local Neighbourhood Watch. These alerts will be shared contemporaneously with the CID public safety team so that they can respond quickly and accurately.

There is an existing AI-enabled CCTV network operated by the NRA Neighbourhood Watch and the local residents' association. The alerts from this network will be shared in real time with the CID. The Neighbourhood Watch currently has approximately 25 cameras reporting on the network, and this is expected to be significantly extended by the Neighbourhood Watch before July 2024. The location of these cameras is chosen based on a number of factors including access routes to the area, proximity to crime hotspots, oversight of important junctions, etc. Provision has been made in the CID budget for 24/7 monitoring of this network and for extending it in the future if required.

Need for the Supplementary Service:

- Prevention of crime. By receiving intelligence of suspicious behaviour at night, Public Safety officers are able to deter criminal activity by being in the right place at the right time. This is the primary purpose of the CCTV network
- Detection of crime. By receiving intelligence of suspicious behaviour at night, public safety officers are able to locate unexpected activity which might be either criminal or a precursor to criminal activity
- Investigation of crime. CCTV is also used to assist SAPS Investigating Officers with footage in the subsequent investigation of crime.
- 82% of UMS respondents indicated that they considered it essential to improve the monitoring and detection of crime.

d. LPR Network.

Description of the supplementary service:

Management of threats from known suspicious vehicles is an essential part of protecting our community. Licence Plate Recognition cameras, linked to a wider area LPR network can automatically transmit alerts to a Control Room and public safety officers, who can react quickly and accurately.

There is an existing LPR network operated by the NRA Neighbourhood Watch and the local residents' association. This will be donated at no cost to the CID and redeployed for use by the CID. It requires monitoring and maintenance. It will be valued in the books of the CID and depreciated accordingly. There are ten LPR cameras on the network which is sufficient for the area's need and budget.

Provision has been made in the budget for monitoring and maintenance of this network, and for camera upgrading over time.

Need for the Supplementary Service:

- Prevention of crime. By receiving intelligence of suspicious vehicles entering the area, the CID security team are able to deter criminal activity by being in the right place and at the right time. This is the primary purpose of the LPR network.
- Investigation of crime. LPR is used to provide SAPS Investigating Officers with footage to assist in the subsequent investigation of crime.
- 82% of UMS respondents indicated that they considered it essential to improve the monitoring and detection of crime.

e. Public Safety Communications

Description of the supplementary service:

This refers specifically to public safety communications and not the more diverse CID communications channels.

- Highly localised WhatsApp security groups, with Community Patrol response. Fifteen to twenty of these groups exist, moderated by community members on a voluntary basis. There is currently no certainty that a responder is actively watching them. Where the administrators of these groups agree, the CID will monitor them for greater effectiveness. This will amplify the reach and effectiveness of the CID.
- Wide -area WhatsApp group, across the whole Newlands CID area, with Community Patrol response. This group already exists through the NRA Neighbourhood Watch. It is moderated by community members on voluntary basis. With the CID, it will be monitored 24/7 by the Public Safety provider Control Room.

Need for the Supplementary Service:

- Prevention, detection and investigation of crime require speedy and informed intervention. Communication via cell-phone is the quickest way for residents to transmit and receive information.
- The UMS demonstrated clearly that a large majority of residents want both of these service

f. Strengthen Partnerships with other law enforcement bodies

Description of the supplementary service:

Participate in the activities of the Community Police Forums for Claremont and Rondebosch precincts. This includes weekly meetings (Sector sub-forum meetings), monthly meeting (full CPF meetings) and participation in similar public safety and crime prevention forums.

Need for the supplementary service:

The criminal justice system requires prevention, arrest, investigation and prosecution to operate to maximum efficiency. As per Objective 6 of the IDP, the CID is one link in the chain of this partnership.

Cost Estimate of Public Safety Supplementary Services

DESCRIPTION	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	TOTAL
PUBLIC SAFETY	R 4,619,300	R 4,895,258	R 5,187,773	R 5,482,840	R 5,826,510	R 26,552,843

2. Maintenance and Cleaning

The outcome of the urban management survey indicated that Litter and Cleanliness are a major concern to residents. A clean and desirable place to live is fundamental to the identity of residents of this area.

The objectives for litter management and cleansing are to provide supplementary services to those provided by the City, and to ensure that Newlands CID is a clean, attractive and well-maintained area we can all be proud of.

The CID aims to achieve this by collaborating with residents and other organisations in Newlands which provide public services or initiatives in this space. These include the Friends of Paradise Park, Friends of Alfred Road Park, Friends of Kent Road Park, the Newlands Residents Association and individual residents.

Of great importance is that we align our activities and collaborate with the various departments in the City.

Overflowing bins, illegal dumping and mess hidden in undergrowth by vagrants are contrary to the expectations of residents and the objectives of the proposed Newlands CID.

The CID is proposing five different services to meet its objective of a clean neighbourhood.

Cleaning and City of Cape Town's Integrated Development Plan July 2022 – June 2027:

In the context of its top-tier priority 'Basic Services', the IDP requires programmes that deliver positive outcomes for public spaces, the environment and amenities (IDP Objectives 9, 10 & 11). The Newlands CID's supplementary services to manage Litter & Cleansing are supportive of this priority.

Existing Litter & Cleansing Provision:

The local residents' association currently employs a 'litter picker' one day a week to clear litter from streets. Other volunteer projects work in Papenboom Meadow and the Newlands green belt. Each of these projects also clear green bins as required. The residents' association is required to collect all bags within hours to avoid them being split and scattered by vagrants.

Abandoned homeless sites which include rotten food and human excrement are currently cleared by volunteers on an *ad hoc* basis but volunteer provision for these activities is unsustainable.

Proposed CID supplementary Litter & Cleansing activities:

a. Area Cleaning

Description of the supplementary service:

2 x cleaners, working two days a week (i.e. 4 man days per week).

Uniformed cleaners working to a programme set by the CID. Their job will be to keep the streets clear of litter and to supplement the City green bin clearing programme.

There are approximately 100 roads in the area and the cleaners will maintain these, and the accessible waterways on a rotational basis. It is expected that all areas will be covered at least weekly.

They will work according to a regular programme formulated and monitored by the CID, with *ad hoc* tasking according to need.

Need for the Supplementary Service:

There is a consistent background level of litter in the CID area which the City's services do not reach. As per consultation with the sub-Council and Ward, there is no dedicated service for the area beyond normal household collections. There is no plan for further regular services in the area.

The City's IDP requires programmes that deliver positive outcomes for public spaces, the environment and amenities (IDP Objectives 9, 10 & 11). The NewlandsCID supplementary services to manage Cleansing are supportive of this priority.

b. Waste removal service

Description of the supplementary service:

A waste removal contractor is contracted to collect all filled bags on 'litter-picking' days. We have experience of doing this and in practice it means following digital pins dropped by the cleansing team (above) wherever they drop a full bag.

Need for the Supplementary Service:

As for area cleansing above. Our experience shows that to fulfil an effective cleansing function, filled bags need to be removed within hours of being set aside for collection. Otherwise the contents are split and scattered by vagrants.

c. Cleansing of public litter bins.

Description of the supplementary service:

Using the cleaning team to empty overflowing green bins. They will bag up rubbish around the base of overflowing bins, and the contents of the bins.

Contractor and driver: Those bags will be collected 2 days per week to coincide with the cleansing team.

Need for the Supplementary Service:

Multiple freeform responses in the UMS referred to overflowing green bins.

It is not widely appreciated that some of these problems stem from residents illegally dumping household waste in green bins.

The ultimate cause is that the City does not /cannot clear green bins often enough.

d. Clearing abandoned homeless 'nests'

Description of the supplementary service:

All currently-occupied homeless 'nests' are referred to Law Enforcement, via the City Service Request facility, as soon as they are discovered. However, the homeless move camp regularly because their campsites get soiled with food and human waste.

In Newlands we have many hidden corners and patches of undergrowth which encourage these encampments. Where a camp has clearly been abandoned, and has neither shelter materials, bedding, nor personal possessions, the litter is gathered up and removed.

Each can generate several bags of waste which needs to be disposed of quickly with a vehicle.

- Cleaners will be tasked to handle these sites on an *ad hoc* basis as they are identified. If further support is required from resident volunteers or Law Enforcement that will be provided.
- Cutting back of undergrowth, ground cover and low hanging trees in public spaces. See Environment > Garden Services below.
- Waste material to be removed by waste removal contractor and driver (as provided for above).

Need for the Supplementary Service:

This task is mentioned only once in all the freeform comments in the UMS because it is an unpleasant job that even most volunteers do not know about. There is an intermittent need to remove abandoned campsites which comprise rotting food, soiled cardboard, assorted litter and often human waste. We propose that part of the CID supplementary cleansing services is to deal with these as they arise.

e. Waterways litter management:

Waterways management is a specific priority of the COCT's IDP (Objective 10) and this programme is supportive of that.

Description of the supplementary service:

Using CID cleaners to manage these areas where practically possible. The proposed cleaning resources (as above) are sufficient to cover the publicly accessible locations on our waterways. This includes most stretches of the waterways.

At locations which are inaccessible without specialist skills and equipment, expert support will be brought in. The community already have a strong relationship with *Friends of the Liesbeek* who have a team dedicated to cleaning the Liesbeek River. This passes through the CID area for approx. 1.5km.

That relationship will be strengthened via a financial commitment to support. This will both manage the litter issue and support a valuable local NPO. It is proposed that this arrangement will initially be facilitated via a regular donation to the FoL which is their preference. The arrangement will be reviewed regularly by CID management to confirm the value of it to both parties.

Managing these areas with public safety resources to discourage homelessness, public washing, etc.

Need for the Supplementary Service:

62% of respondents visit a Newlands waterways either daily, weekly or monthly. Almost everyone (90%) visited one of our rivers a few times a year.

f. Cost Estimate of Cleansing Supplementary Services

DESCRIPTION	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	TOTAL
CLEANSING & LITTER	R 136,400	R 144,584	R 153,259	R 162,455	R 172,202	R 768,900

3. Environment

Newlands and its community identity are overwhelmingly linked to green and natural spaces.

52% of UMS respondents visit one of our parks daily and 42% visit Paradise Park alone, at some time during the month. These are heavily used and much valued assets.

The three most popular open spaces are also the largest; Paradise Park, Papenboom Meadow and the Green Belt. In the UMS, respondents suggested that in each of these there should be added public safety measures.

The UMS also showed an overwhelming commitment of residents to prevent illegal homeless in our public spaces.

City of Cape Town Integrated Development Plan July 2022 – June 2027:

In the context of its top-tier priority 'Basic Services', the IDP requires programmes that deliver positive outcomes for public spaces, the environment and amenities (IDP Objectives 9, 10 & 11). The Newlands CID supplementary services to manage the local environment are supportive of this priority.

Existing Environmental Provision:

The Newlands Residents' Association has an active Environment portfolio, dealing with parks and open spaces. Treekeepers NGO is also active in the area, specifically working with trees in streetscapes.

The community has a strong existing collaboration with the Dept. of Recreation & Parks which has an office within the area. This relationship is highly productive and occurs on several levels: Newlands Residents Association, Friends of Paradise Park, Treekeepers, Friends of Kent Park, Friends of Alfred Road Park, and others.

A typical example is that the Residents Association's Green Team works weekly on the Green Belt and Newlands Avenue to clear undergrowth, clear fallen timber etc. By prior arrangement, Recreation and Parks Department cart away the refuse – a competence that we don't have. This has been going on for many years, freeing up Recreation and Parks Department for other duties. In the same way requests for support with new plantings are channelled directly to the nursery with support from Recreation and Parks management and the councillor for Ward 59, Mikhail Manuel. This perfectly aligns with Objective 11 of the IDP's Public Space, Environment and Amenities priority.

Proposed CID supplementary Environmental services:

a. Park Wardens

Description of the supplementary service:

3 x Park Wardens, 7 days a week. These uniformed individuals will be responsible for ensuring that by-laws are observed (eyes-and-ears) and that the open space is clear of litter. In the event that they are not able to handle a situation, they will liaise with the Public Safety Officers.

The community have repeatedly tried to access the City's Park Buddies programme. The City's mandate for its park buddies is to "make a difference at parks across the city by ensuring that they are kept clean, improve access control and reporting incidents or defect equipment."

Those approaches have not met with success so the CID will take on this service using the City's definition above to create the role of Park Warden.

The CID would prefer to use this programme to offer employment opportunities to a small contractor. It will not be possible to confirm this arrangement formally until the CID has authority to do so but this is how the pilot project is running – three persons sharing a single job to give cover 7 days a week.

Accordingly the budget reflects a sub-contracted amount and this is not part of the Staff budget. Communication will be via cell phone, as per the pilot project, linking with the CIDs Public Safety officers WhatsApp group.

This project was successfully piloted in Paradise Park between December 2022 and May 2023. The park has been cleaner and safer in that time, as reported by residents.

Collaboration with the NHW Community Patrollers has been straightforward and productive.

The following parks will have wardens:

- Paradise Park
- Papenboom Meadow
- Palmboom Park. This park is a particularly sensitive location, as a daily gathering place for parents and childminders with very young children.

Need for the Supplementary Service:

There is a strong need to prevent deterioration of our public spaces due to rapidly evolving social challenges.

The direct effect of these is damage to park plantings and infrastructure by vagrants. There are also indirect effects such as inhibition of other park visitors' use of the recreational facilities (due to anti-social behaviour, breaches of by-laws and concerns for public safety).

The UMS includes multiple references to these issues.

b. Garden Services (supplementary mowing, pruning, planting)

Description of the supplementary service:

Tasking Newlands CID to standardise the management of plantings and existing vegetation, to discourage homeless. Of course, this can only be done in collaboration with Recreation & Parks Department and other affected parties, but there is precedent for this collaboration in the area. This would need to include regular supplementary clearing of

undergrowth and hidden corners. There are literally several linear kilometres of park edges and 'urban edge' in Newlands that need this level of management.

Consultation and collaboration with the Department of Recreation and Parks is already happening regularly in our area as outlined above.

Tasking Newlands CID with identification and planning of routine maintenance sufficient to fulfil the above needs.

Tasking the CID to collaborate with Recreation and Parks Department to optimise the service delivery necessary to achieve these aims for residents.

Tasking Newlands CID to collaborate with and support the well-established volunteer groups (Friends of Paradise Park, etc.) which currently play a key role in maintaining our open spaces. These groups are all aware of the proposed CID (including representation on the Steering Committee) and welcome the opportunity to take this programme forward.

Appointment of a part-time garden services contractor to work under the direction of the CID and in accordance with a programme jointly developed by all stakeholders, including the Department of Recreation and Parks.

Appointment of a transport contractor to support the garden services team in collection of plants and materials on an *ad hoc* basis. This would be the same team that has been fully budgeted for in cleansing services above.

Need for the Supplementary Service:

Local experience, including from parks support groups, resident reports, the Neighbourhood Watch, the Residents Association, SAPS, Law enforcement and others demonstrate that the use of our open spaces by vagrants, to sleep and conceal criminal activity, is facilitated by hidden corners and overgrown vegetation.

The UMS further showed an overwhelming commitment of residents to prevent illegal homelessness in our public spaces. This cannot be managed effectively without regular clearing of undergrowth, overhanging trees and shrubs, and opening up of overgrown corners.

The City's current grass cutting services in the boundary area is not sufficient. The CID is willing to assist with supplementary grass cutting service by contracting with services to fit the need,

c. Cost Estimate of Cleansing Supplementary Services

DESCRIPTION	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	TOTAL
ENVIRONMENT	R657,450	R696,897	R738,711	R783,033	R830,015	R 3,706,106

4. Social Responsibility

The social challenges in our area are similar to those throughout the southern suburbs. They centre on the rising number of people living on the streets. These men and women often present with substance abuse or mental health issues, and frequently both. They are typically living in public open spaces and making a living from the local community.

City of Cape Town Integrated Development Plan July 2022 – June 2027:

The City's IPD addresses homelessness in Objective 15 'A more spatially integrated and inclusive city.' This provides for partnerships in social development assistance, access to safe spaces and shelters and other development opportunities. The programmes proposed in this section support this initiative.

Existing Social Responsibility Provision:

There is no existing Social Responsibility provision focussed on social challenges within our area. Both Groote Schuur Community Improvement District and Claremont Improvement District (immediately adjacent CIDs) do have such programmes. The provision of alternative accommodation in 'safe spaces' is part of the legal framework for prohibiting informal encampments and there is a currently pending proposal for an expanded safe space at the U-Turn facility in Claremont Boulevard, just a few streets beyond our border. Both the NRA Neighbourhood Watch and the Residents Association Ward Committee representative are part of the consultative process for this.

Proposed CID Social Responsibility safety activities:

a. Social Upliftment Programme

Description of the supplementary service:

Engagement with a professional social worker and collaboration with the City's established social upliftment programmes.

Need for the Supplementary Service:

It is one of the hardest and most desperate issues facing greater Cape Town today. It has no short-term fixes, and is highly specialised work. Homelessness impacts on all the core functions of the CID; Public Safety, Cleansing, Environment and Social Responsibility.

The UMS focussed on homelessness. Two strong themes emerged:

- There is almost unanimous opposition to homeless individuals camping in public spaces (either individually or *en masse*).
- There is almost unanimous support for programmes and organisations that assist homeless people and support addiction treatment programmes, skills training, ongoing support etc.

b. Cost Estimate of Cleansing Supplementary Services

DESCRIPTION	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	TOTAL
SOCIAL RESPONSIBILITY	R84,000	R89,040	R94,382	R100,045	R106,049	R 473,516

5. Roads & Infrastructure

The CID will be limited in its ability to introduce supplementary services for Roads & Infrastructure. Most of these functions cannot fall into Newlands CID's responsibilities.

However, we know from the UMS that residents do have concerns in this area.

City of Cape Town Integrated Development Plan July 2022 – June 2027:

Objective 13 of the IDP is to have 'safe and quality roads for pedestrians, cyclists and vehicles'.

Apart from the road network, there is an extensive network of cycle paths, footpaths, footbridges. There are also traffic signals, traffic calming measures and bus stops that fall into IDP Objective 13.

Existing Roads & infrastructure Provision:

Over 60% of the UMS respondents reported that they have interacted with the City using the online Service Request website ('C3s'). These issues vary widely, with a primary focus on poor vehicular traffic flow and failing infrastructure (potholes, overhanging vegetation, illegible signage, etc.).

Proposed CID Social Responsibility safety activities:

a. C3 reports:

Encourage more residents to use this service. The uptake is already good. This reflects individuals taking responsibility for reporting and this must be promoted.

b. CID C3 Policy:

The CID must have a policy / mechanism for actively logging, recording and monitoring C3 reports.

c. City / CID relationships:

The CID must develop strong individual relationships with City departments to communicate infrastructure issues and residents' concerns.

Need for the Supplementary Services:

- Promotion of the City's IDP initiatives
- Ensuring that the CID makes the City's timeously aware of infrastructure shortcomings or failures, for the benefit of residents, other road users and the City.

c) Financial Impact of the CID

The Newlands budget will be funded by the property owners within the CID boundaries through an additional property rate levied on the municipal valuation of all eligible properties. Additional rates attract VAT at 15%.

i. Who will fund the CID?

Newlands CID will operate via a statutory non-profit company (NPC) funded by additional property rates from property owners. The additional rates are collected by the City on behalf of the CID.

The City pays the CID one-twelfth of the CID's approved annual budget monthly, retaining 3% as a rolling bad debt reserve. This rolling bad debt reserve is reconciled at the end of the financial year.

As a non-profit company, the CID has 'Members' instead of shareholders. Just like shareholders, Members can attend and vote at Annual General Meetings.

Every registered property owner can apply for membership and is encouraged to do so.

Certain properties are **exempt** from the additional rates. The CID policy requires that all properties except (a) municipal properties predominantly used for municipal purposes or (b) properties exempted from paying property rates or receiving partial rates relief will form part of the property database of the proposed special rating area (referred to as a CID). Any property owner who resides within the defined area that receives any form of property rates relief from the City will be exempt from paying the additional rate. It is however incumbent on the property owner to seek such relief from the City under the City's Rates.

ii. **How much will it cost in the first year?**

The amount of the additional rate is calculated by the City of Cape Town, based on the budget contained in the business plan to cover the anticipated expenditure of the CID. Specific rates for (a) residential and (b) non-residential properties are set with a view towards ensuring that the additional rates are distributed across the community on a fair and equitable basis.

The **calculation of the additional rate** in respect of the first year of the CID term is based on the expected expenditure in that year. Additional rates per property are based on a percentage of the property value. So, e.g., a property with twice the value of another property will attract twice the additional rates.

The additional rate is expressed as a 'rate-in-the-rand' and is calculated by dividing the Newlands CID budget total for that year with the total municipal valuation of all the eligible properties in the Newlands CID area. The additional rate remains constant for the financial year commencing 1st of July, and will be recalculated annually by the City during the City's budget process.

The individual CID contribution for residential and non-residential properties is calculated as follows, where R.0.XXXXXX represents the additional rate 'rate-in-the-rand':

- Property municipal valuation x R 0.XXXXXX = Annual CID contribution (VAT exclusive)
- Annual CID contribution (VAT exclusive) ÷ 12 = Average monthly CID contribution (VAT exclusive)
- Average monthly CID contribution (VAT exclusive) x 1.15 = Average monthly CID contribution (VAT inclusive).

For example, the monthly CID contribution for a residential property with municipal valuation R 6 000 000, assuming a 'rate-in-the-rand' of 0.000640 would be calculated as follows:

$$R\ 6\ 000\ 000 \times R\ 0.000640 = R\ 3\ 840.00 \div 12 = R\ 320.00 \times 1.15 = R\ 368.00$$

For example, the monthly CID contribution for a non-residential property with municipal valuation R 7 500 000, assuming a 'rate-in-the-rand' of 0.001539 would be calculated as follows:

$$R\ 7\ 500\ 000 \times R\ 0.001539 = R\ 11\ 542.50 \div 12 = R\ 961.88 \times 1.15 = R\ 1\ 106.16$$

iii. What will the costs be in subsequent years?

There is a **possibility of year-on-year increases or decreases** in the additional rate during the second to fifth years of the CID term. This may result from:

- a. Variations in the municipal rates base of the district pursuant to municipal valuations;
- b. Inflation;
- c. Increases expressly provided for in the term budget, as well as additional developments in the district.

It is expected that the additional rates will change in line with inflation to maintain a consistent level of service delivery as mandated by residents.

Any member may propose a change to the budget and this will be considered by the Board of Directors during the budgeting process.

In this initial budgeting exercise, the Steering Committee have drafted a five year plan. This includes annual estimated inflation-rated cost escalations of between 4.5% - 6%.

Cost Estimates	July 2024/ June 2025	July 2025/ June 2026	July 2026/ June 2027	July 2027/ June 2028	July 2028/ June 2029
CID Total Expenditure (nearest '000)	R7,002,318	R7,314,000	R7,754,000	R8,244,000	R8,706,000
Annual Budgeted Increase		4.4%	6%	6.3%	5.6%

d) Proposed Management Structure

i. Non-profit company

For financial management and prudence, a non-profit company (NPC) is registered under the Companies Act. A twelfth (1/12) of the allocated annual budget is paid over to the CID as per the approved business plan per month less 3% for a rolling bad debt reserve to provide the additional services to improve and upgrade the area.

The non-profit company is managed by a board of directors elected by other property owners in the area. The board of directors are responsible for the implementation of the Business Plan. The activities of the NPC are strictly monitored by the municipality to ensure conformance to the legislation and the approved business plan.

ii. Membership of the CID Company

Any registered property owner is eligible to be a member of the NPC, on application to the board – there are no costs involved nor risk of liability. The entire community is allowed to participate at meetings but only contributing members of the NPC are eligible to vote at members meetings of the NPC. Proxies are allowed.

iii. Composition and election of Directors

An inaugural board consisting of the members of the steering committee will manage the NPC for the initial period of six months, after which a Members Meeting will be held to elect Board members for the Newlands CID.

- The Executive Mayor will appoint a councillor as observer and an alternate observer to the Board in accordance with sections 11(4) and 11(5) of the CID By-law.
- The Board is mandated to implement the business plan.
- Each Board director will be dedicated to a specific portfolio (programme).
- Directors will not be remunerated for their services.
- Any deviation from the agreed Business Plan needs to be supported by a formal board resolution at a Newlands CID members meeting with the agreed quorum of attendance (as defined in the MOI guidelines).

iv. Newlands CID is expected to have two full-time employees.

1. General Manager
2. Administrative Assistant

- v. All operational staff will be sub-contracted.** These service providers will be appointed by the Board following a competitive process. Competitive quotations will be obtained for evaluation, scoring and decision by the Board. Contractor selection decisions will be recorded in the minutes of the meetings.

These appointments will include, but are not be limited to:

1. Public Safety contractor for provision of Community Patrollers (mobile and static)
2. Camera Network monitoring and maintenance teams
3. Part-time cleaning team
4. Part-time Garden Services team, working with own transport and tools
5. Contractor with own transport to support Litter / cleansing / garden services teams on a part-time basis
6. Service Provider for Park Wardens
7. Independent social work professionals

e) Permissible Amendments

If, at any time, it were decided that the geographical boundaries of Newlands needed to change, then such change would need to go through a formal process as required in terms of section 26 of the CID By-law.

If additional services are required, stemming from collaboration with City departments, which are not specified in the motivation report but deemed supplementary municipal services, the business plan can be amended without further consent by submitting a request to the City in terms of section 25 of the CID By-law as long as it is not material

*** **Explanatory note:** This template serves as a guide for steering committees when compiling their proposed public participation plan for approval by the Executive Director as contemplated in section 6(2) of the CID By-law. The template provides examples of a wide range of notification and consultation methods that may be employed. The steering committee should identify methods that would be both meaningful and cost-effective, taking into account the particular characteristics of the local community of the proposed CID. Where the proposed methodology deviates from any mandatory requirements in terms of the By-law, the steering committee must motivate such deviation in Annexure [x] to the program.

*** **Explanatory Note 2: “local community”** in relation to a CID-

means the body of persons comprising individuals falling under one or more of the following categories –

- (a) property owners in the district, irrespective of whether or not they will be liable for paying the additional rate;
- (b) residents of the district;
- (c) tenants and body corporates in the district;
- (d) any civic organisations and non-governmental, private sector or labour organisations or bodies which are involved in local affairs in the district affected by the proposed improvement or upgrading of the district.

PUBLIC PARTICIPATION PLAN (required under s. 6(2) of CID By-law)					
A. Proposed Methods of Notification (requirement under s. 6(7))					
Notification Medium	Details	Targeted Interested & Affected Party (“I&AP”)	By-law	Policy	Deviation sought?
Internet	Steering Committee’s Website at https://www.newlandscid.org/	Local community & proposed Additional Rate Payers (ARPs)		Clause 9.4.3	N
Email notification	Email documents & notices to email addresses of proposed ARPs- (a) contained in the City’s records; ¹ and/or (b) listed in the steering committee’s register of members of the local community (clause 9.3).	Proposed ARPs	s. 6(7)(a)(i)	Clause 9.4.1	N
	Email documents & notices to email addresses of- (a) local community members listed in the steering committee’s register of members of the local community (clause 9.3); and (b) NGOs and other community organisations carrying on activities in the proposed Newlands CID. ²	Local Community	s. 6(7)(a)(ii)	Clause 9.4.1	N

¹ The City will provide the steering committee with those contact details, which ratepayers have provided to the City.

² The steering committee should identify NGOs and community organisations (such as churches, clubs and social welfare organisations) carrying out activities in the proposed district and list their names and contact details in the steering committee’s register of members of the local community.

Notification Medium	Details	Targeted Interested & Affected Party (“I&AP”)	By-law	Policy	Deviation sought?
Registered Mail	Post Relevant documents or notice to: (a) The ARPs for whom the steering committee does not have email addresses; and (b) Members of the local community contemplated who have not provided email addresses for purposes of the written notice.	Proposed ARPs & Local Community	s. 6(7)(b) read with s.1 definition of “written notice”.	Clause 9.4.1	Y This method will not be used as it is unreliable and prohibitively expensive
Newspapers	Newspaper advertisements ³ in: (a) <i>The Cape Times</i> ; and (b) <i>Die Burger</i> .	Proposed ARPs & Local Community	s. 6(7)(b)	Clause 9.4.4	N
Public Notices	Public notices to be affixed at the following locations : (i) Libraries at RONDEBOSCH & CLAREMONT; (ii) Notice boards at the following shopping complexes: (a) Pick n Pay Rondebosch Shop 1, 89 Main Road, Rondebosch (iii) Street lamps at the locations identified in the map attached as Annexure “1”.⁴	Proposed ARPs & Local Community	Not a legal requirement	Not a legal requirement	N PicknPay Claremont no longer has a community Noticeboard
Other means	Distribution of fliers & Broadcasts via social media channels and messaging apps i.e. Facebook and WhatsApp Groups	Proposed ARPs & Local Community		Clause 9.4.5	

³ If a local community consists of a large population whose first language is not English or Afrikaans, the steering committee may need to place their notices in a local community newspaper which is published in that language.

⁴ The table should be accompanied by Annexure 1, which must list the proposed location of public notices.

B. REGISTER OF THE LOCAL COMMUNITY					
Proposed Date	Proposed Action	Content of Register	By-law	Policy	Deviation sought?
1 August 2023	<p>Open and maintain a register of member of the local community.</p> <p>“<u>local community</u>” in relation to a CID- means the body of persons comprising individuals falling under one or more of the following categories –</p> <p>(a) property owners in the district, irrespective of whether or not they will be liable for paying the additional rate;</p> <p>(b) residents of the district;</p> <p>(c) tenants and body corporates in the district;</p> <p>(d) any civic organisations and non-governmental, private sector or labour organisations or bodies which are involved in local affairs in the district affected by the proposed improvement or upgrading of the district.</p>	Names, contact details & addresses of persons .	s. 6(8)	Clause 9.3	N
C. OBTAIN INPUT FROM INTERESTED & AFFECTED PARTIES					
1. Focus Groups					
Proposed Date	Proposed Action	Targeted Interested & Affected Party (“I&AP”)	By-law	Policy	Deviation sought?
August – October 2023	<p>Convene focus groups consisting of the following groups of people:</p> <p>(i) Newlands Residents Association</p> <p>(ii) NRA Neighbourhood Watch</p> <p>(iii) Claremont & Rondebosch CPF Members’ representatives Meeting</p> <p>(iv) Friends of Paradise Park</p> <p>(v) Friends of Kent Road Park</p> <p>(vi) Friends of Alfred Road Park</p> <p>(vii) Hiddingh Residents</p>	Local Community & Proposed ARPs		Clause 9.8	N

2. First Public Meeting					
(a) Notice of First Public Meeting					
Date	Notification Mediums	Content of Notice	By-law	Policy	Deviation sought?
03 August 2023	(i) Website; (ii) Email; (iii) Public notices; (iv) Newspaper advertisement; and (v) If reasonably required, any further mediums, e.g. radio announcements. (vi) Broadcasts via social media channels and messaging apps i.e. Facebook and Whatsapp Groups	<p>PLEASE TAKE NOTICE THAT:</p> <ol style="list-style-type: none"> March Turnbull, the registered owner of Erf no. 97577 8 Ohlsson Way, Newlands, Cape Town, intends to apply for the establishment of a City Improvement District in terms of the City of Cape Town: City Improvement District By-Law, 20[xy] (the "<i>By-law</i>"), read with the City of Cape Town's: City Improvement District Policy, 20[xy]. The proposed Newlands CID (the "<i>Newlands CID</i>") will include all properties in the area within the boundaries depicted on the map in the Business Plan. The purpose of the upcoming public meeting is to discuss the draft final business plan and proposed application for establishment of the CID, and to elicit comments for purposes of preparing the final business plan. <p>DATE: 17th August 2023 TIME: 18.00 VENUE: 3rd Claremont Scout Group Hall ADDRESS: Greenford Road, Newlands</p> <p>ALL PROPERTY OWNERS AND LOCAL COMMUNITY MEMBERS IN THE PROPOSED CID ARE KINDLY REQUESTED TO ATTEND THE MEETING.</p>	s. 6(6) s. 6(7)(a) s. 6(7)(b) s. 6(7)(c)	Clause 9.4.1	Y There will be no notification by post as this is unreliable and prohibitively expensive

PLEASE TAKE FURTHER NOTICE THAT:

1. All property owners are automatically entered in the Interested Parties Register for the CID establishment in terms of section 6(8) of the By-law (the “*register*”). Other members of the local community who wish to register as interested persons must contact the applicant at tel.: **076 915 5423** or email: **info@newlandscid.org**
2. The draft business plan is available for download at **<https://www.newlandscid.org/business-plan>** and available for inspection at **Claremont Library, Wilderness Road, Claremont & Rondebosch Library, Hall Road, Rondebosch.**
3. Any written comments on the draft business plan and proposed application must be submitted to the applicant as appears in para 1 above by 16 September 2023
4. If you are not the registered owner of the affected property, kindly forward this notice to the registered owners immediately. Alternatively, kindly inform **March Turnbull** of the registered owner’s contact details, so that he may relay the contents of this notice.

(b) Convene First Public Meeting

Date	Venue	Details of Chairperson	By-law	Policy	Deviation sought?
17 August 2023	DATE: 17 August 2023 TIME: 18.00 VENUE: 3rd Claremont Scout Group Hall ADDRESS: Greenford Road, Newlands Capacity: < 100 persons	March Turnbull Phone: 0769155423 Email: info@newlandscid.org Role in Public Participation and/or CIDs: Chair, Newlands Residents Association Chair, NRA Neighbourhood Watch Vice-Chair, Claremont CPF Member Representative, Rondebosch CPF	s. 6(5)		Y/N

Introduction: Survey Questionnaire & Methodology

This Urban Management Survey was undertaken to gain insight, from property owners, into four key areas of local service delivery; community safety, litter, the natural environment and social responsibility.

Respondents were also given an opportunity to list and expand on any other concerns that they have.

A draft survey was created by the Steering Committee and refined in conjunction with the City's CID team. Approval for the final version of the survey was given by the City on 9 December 2022.

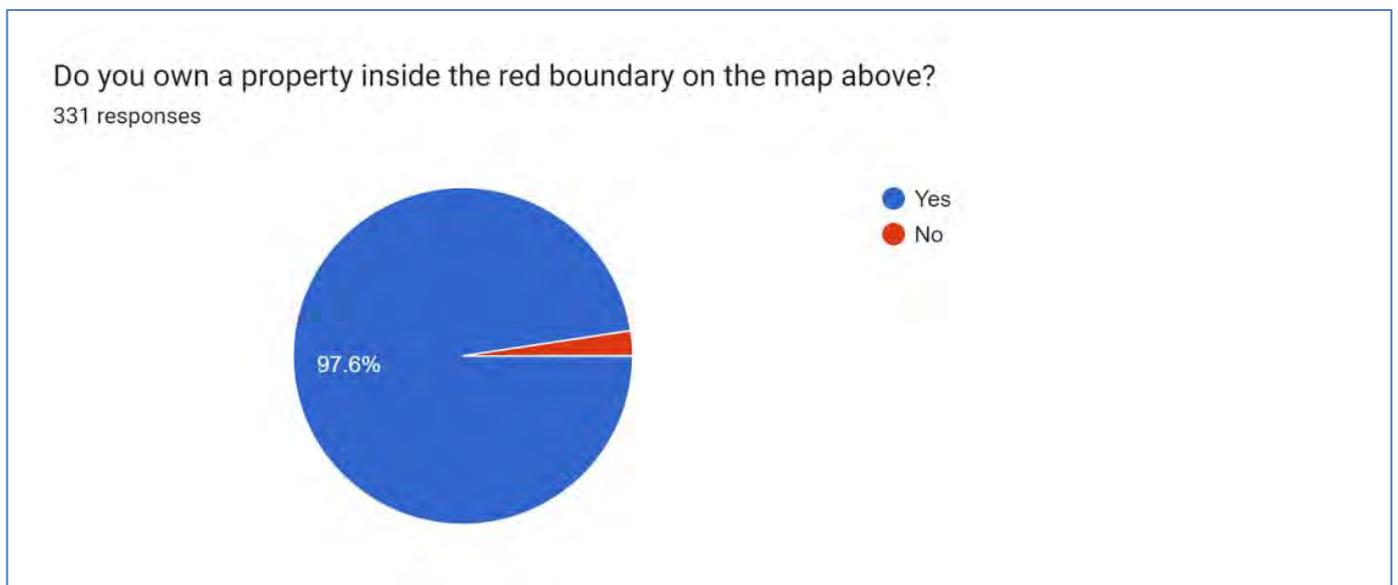

- The survey was developed on Google Forms and distributed by email.
- Both the survey and the covering email each included note explaining the purpose of the survey and that it was specifically aimed at property owners.
- Respondents were given the option of completing the survey online, or by submitting a scanned hard copy, or by having a hard copy collected from them.
- The email list included all email addresses held by the City on the rates-payers database for the relevant properties.
- Approximately 1,750 surveys were sent out in the second week of December. A second mailing was done in the first week of January to all those who had not yet responded.
- The Steering Committee was required to collect responses from at least 311 property owners, representing 20% of the available property 'votes' (adjusted for anomalies such as publicly owned properties, etc.).
- The target number of responses was achieved by 12 January 2023

The results and analysis of the survey responses are presented below. More detail on individual responses to the freeform questions can be found here <https://www.newlandscid.org/residents-survey/survey-responses>.

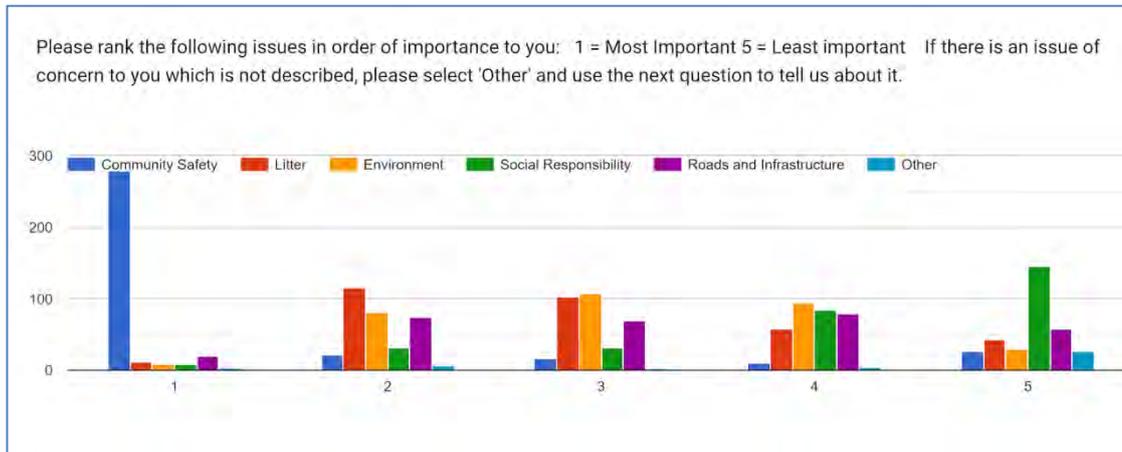

Responder Profile

The survey was directed at property owners as required by the City CID team.

By 12 January 2023, 331 responses had been submitted of which 323 were property owners.

Prioritising Key Service Delivery Issues

Key findings:

1. 284 respondents (86%) ranked Community Safety as their **most** pressing issue. A further 23 (7%) ranked it as their second greatest concern. It is the overwhelming concern of the neighbourhood.
2. Only 52 respondents (14%) ranked an issue other than Community Safety as their priority concern.
3. Litter was the most pressing issue after Community Safety
4. Social Responsibility was ranked, on average, as the **least** pressing issue

If you answered 'Other' in the question above, please describe the issue that concerns you.

39 responses

39 respondents commented. Several issues were raised by multiple respondents and they are listed below.

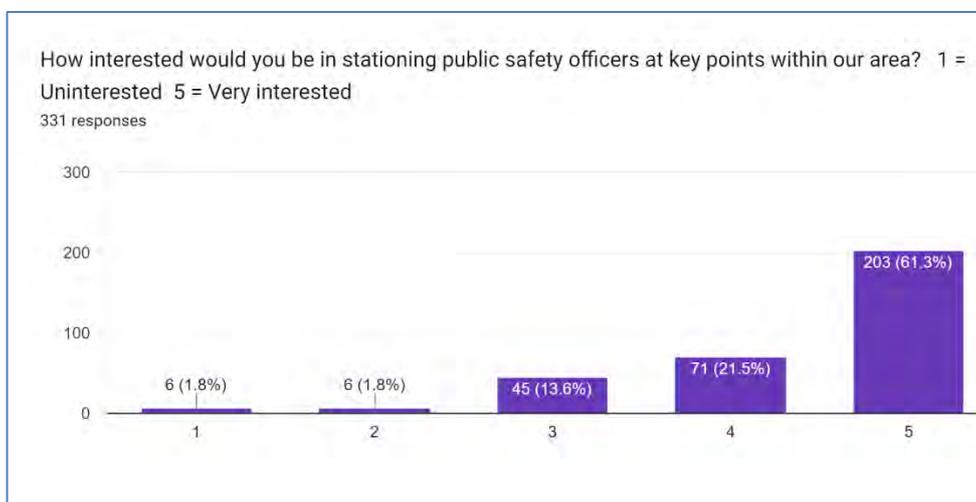

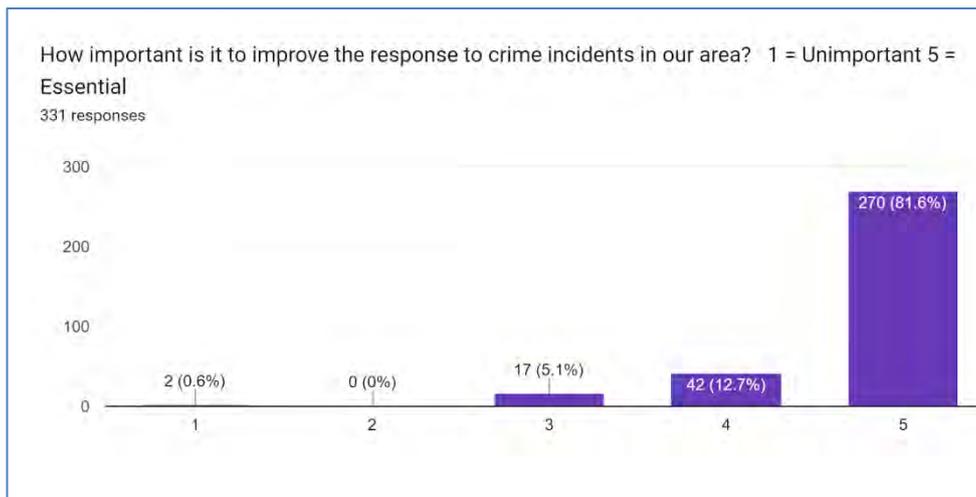

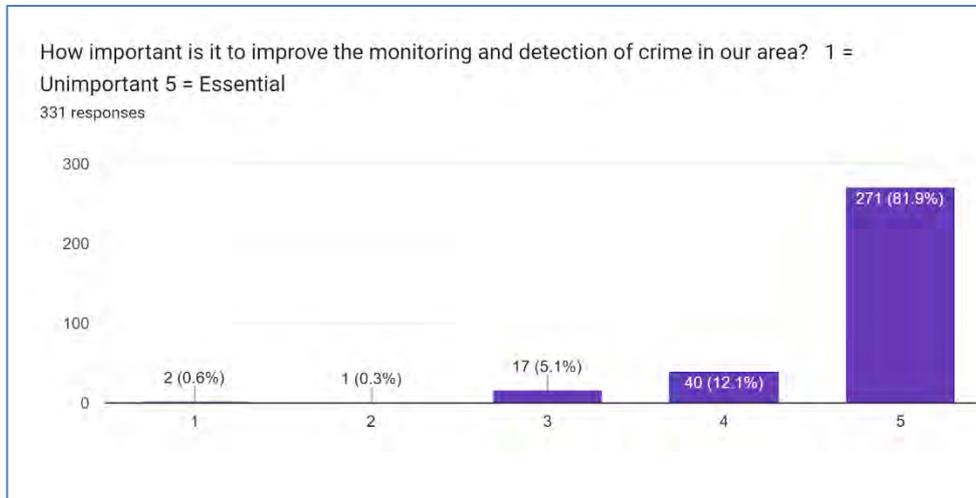

1. Vagrancy and associated problems – this is included in the Community Safety section of the survey but was repeatedly mentioned here too.
2. Over-development.
3. 'Sense of community'.
4. Recycling, and specifically the lack of a City provided recycling service.

More detail on all the individual responses to the freeform questions can be found here <https://www.newlandscid.org/residents-survey/survey-responses>.

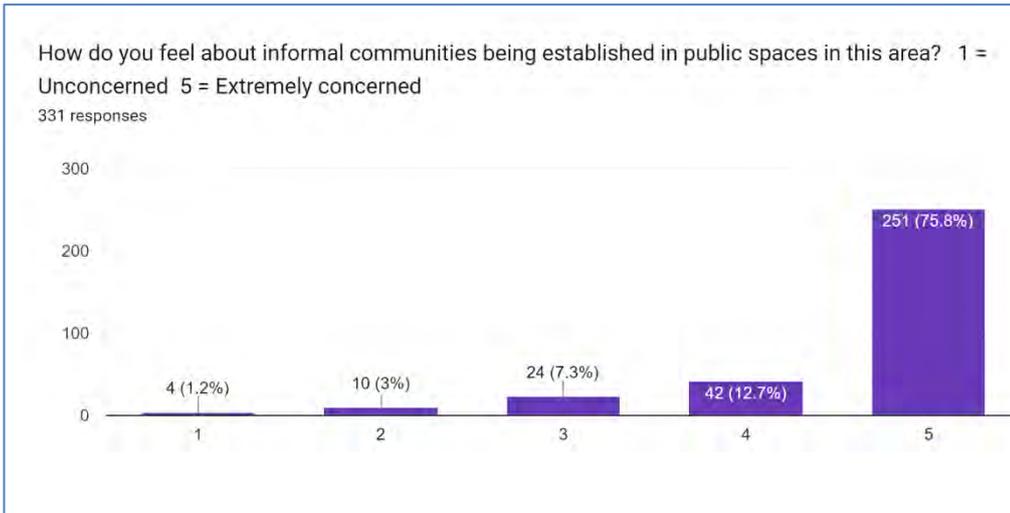

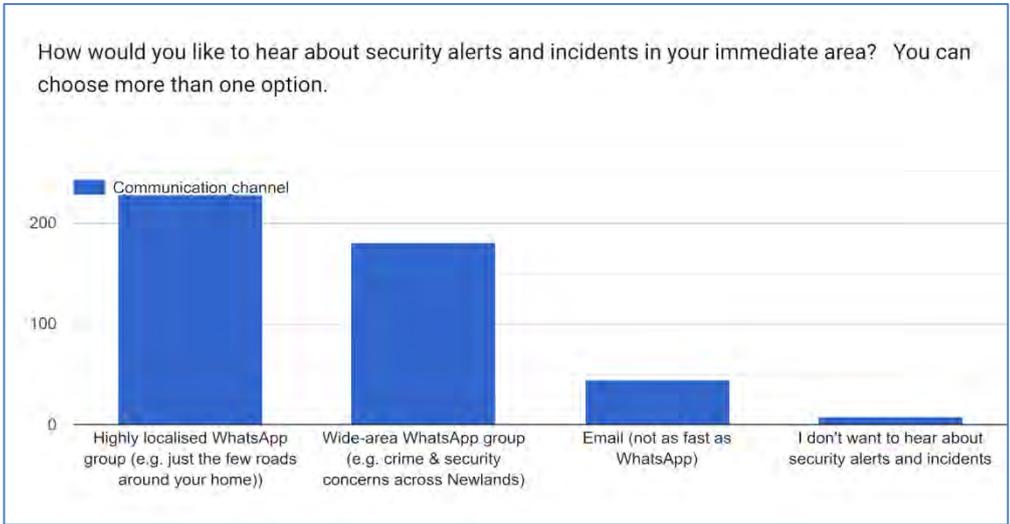

Community Safety

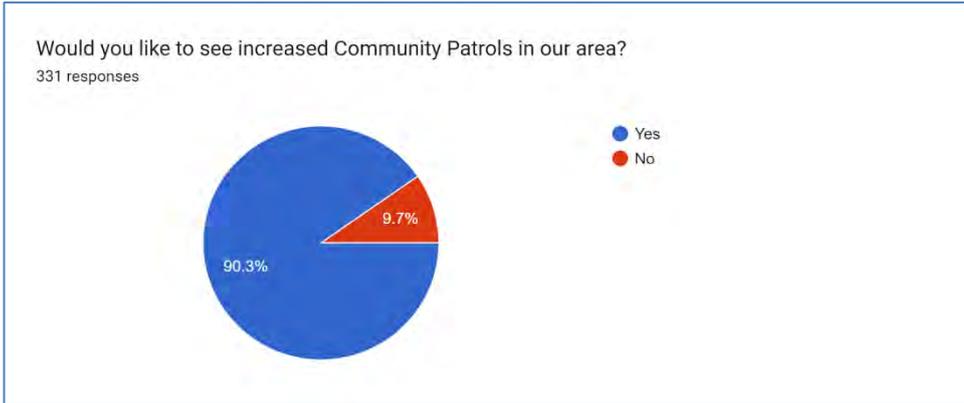

Eleven questions were asked in this section. Each quantitative question is analysed below using a graph. Qualitative questions are summarised, with full detailed responses available online.

<https://www.newlandscid.org/residents-survey/survey-responses>

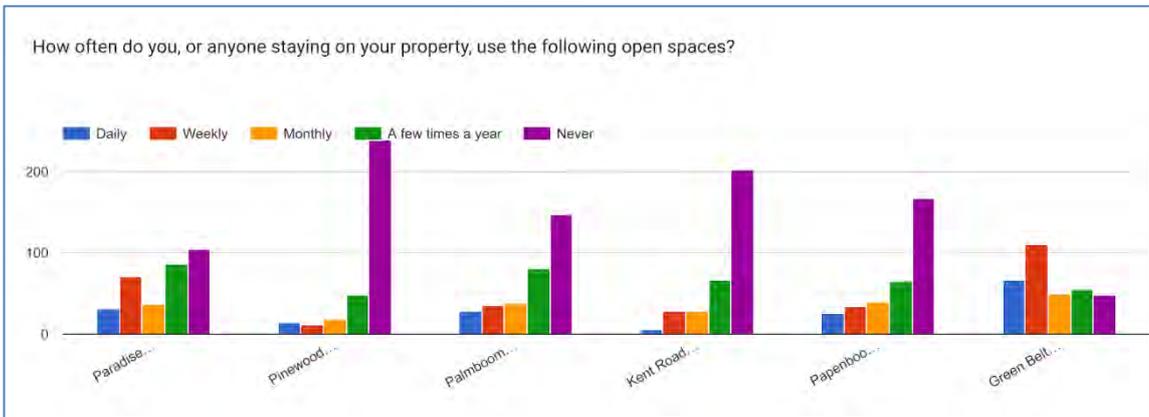

Proposed Newlands CID: Urban Management Survey Report, January 2023

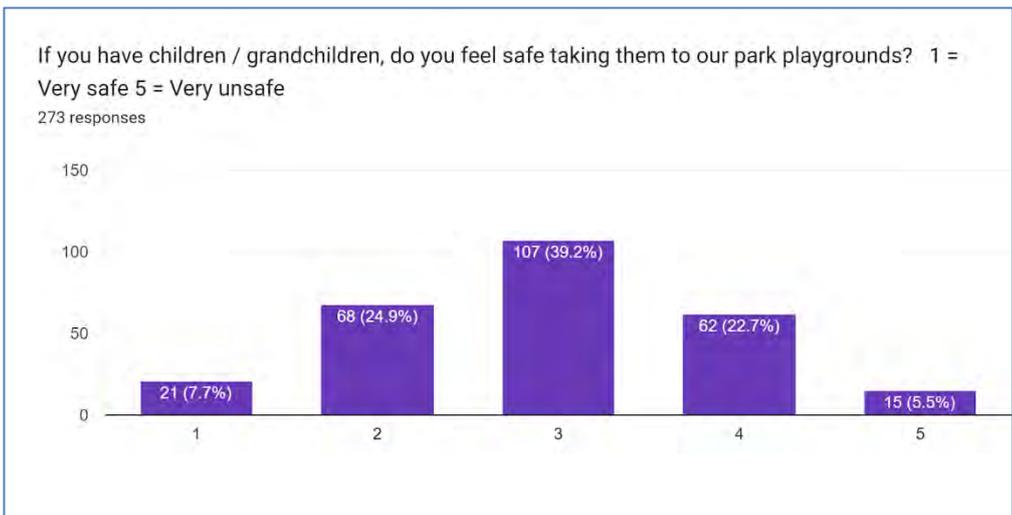

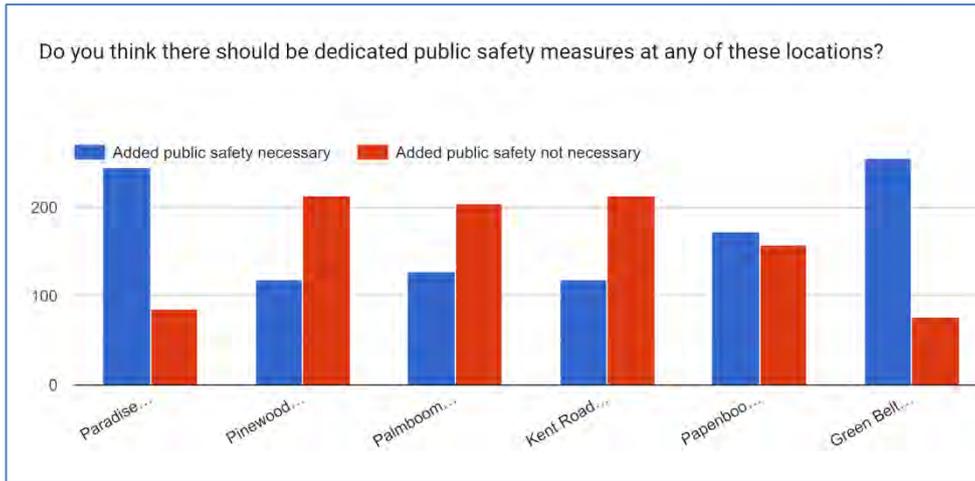

Community Patrols are mobile security officers patrolling a defined area of Newlands, 24/7.

This tells us which of our open spaces and parks are the most heavily frequented. Of particular note is the high number of persons using the Green Belt at least weekly (>50% of respondents) as this is an access to Newlands Forest via the M3 underpass – a current crime concern.

Proposed Newlands CID: Urban Management Survey Report, January 2023

75% of respondents would like added security at Paradise Park and on the Green Belt.

Are there any other public spaces in our area which you think require dedicated public safety measures?

271 responses

271 respondents commented. Several issues were included by multiple respondents and they are listed below.

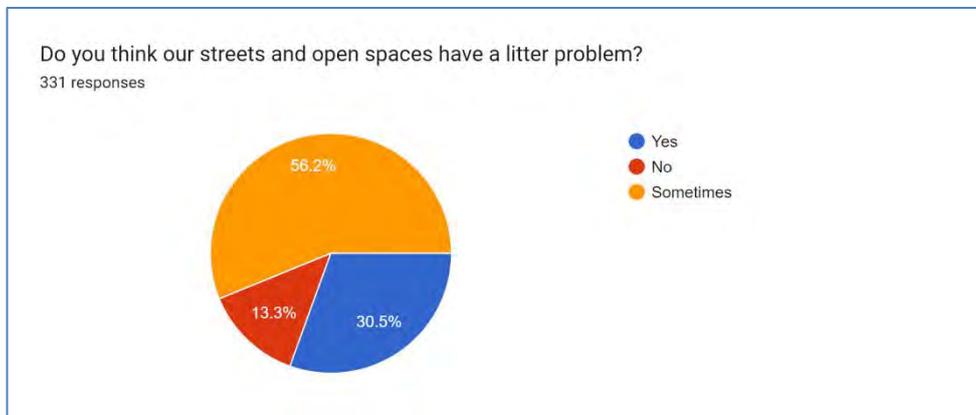

1. M3 underpass at the top of Cypress Road.
2. River walk behind the Newlands Pool / Newlands Spring. This officially falls into the GSCID area. If this CID application is successful, there will need to be joint operations here.
3. Thibault / Buchan footbridge.
4. Newlands Forest – this is outside the proposed CID area but almost certainly reflects the high number of residents walking from the Green Belt into Newlands Forest via the M3 underpass.
5. Lady Anne footpath
6. Dean Street subway

More detail on all the individual responses to the freeform questions can be found here <https://www.newlandscid.org/residents-survey/survey-responses>.

Litter & Rubbish in Public Spaces

Six questions were asked in this section. Each quantitative question is analysed below using a graph. Qualitative questions are summarised, with full detailed responses available online.

<https://www.newlandscid.org/residents-survey/survey-responses>

More than half of residents surveyed did not have strong feelings about litter. This may reflect that there are a number of voluntary litter-picking projects currently in place. However of those who did express an opinion, two-thirds believe there is a litter problem.

If you answered 'Yes' to the question above, what do you think is the main cause of the litter problem - and can you think of any solutions?

148 responses

148 respondents commented. Several issues were included by multiple respondents and they are listed below.

1. Homeless people / bin-pickers scattering rubbish from bins
2. Green bins should be emptied more often

More detail on all the individual responses to the freeform questions can be found here

<https://www.newlandscid.org/residents-survey/survey-responses>.

Are there any specific places which you consider to have a litter problem?

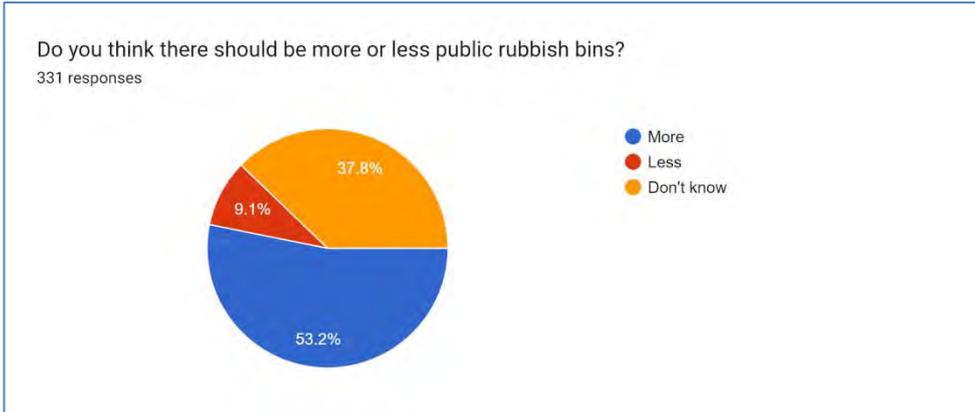

331 responses

All respondents commented. Several issues were included by multiple respondents and they are listed below.

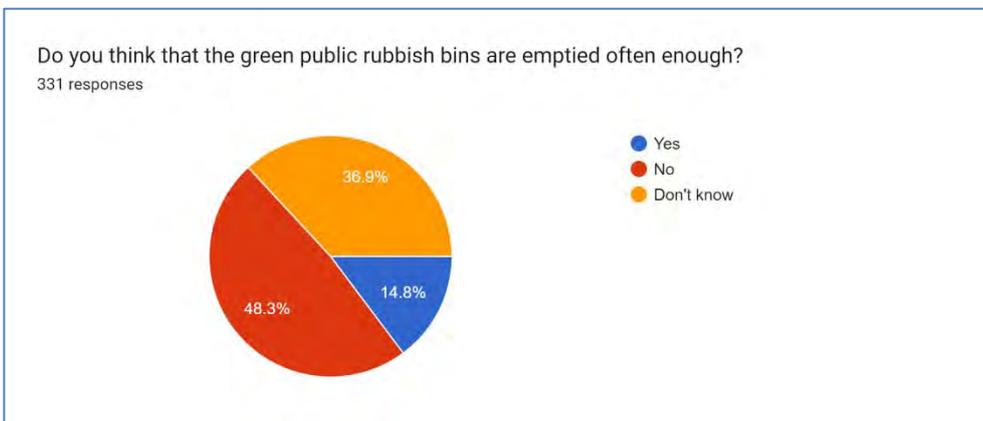

1. Along M3
2. The streams / rivers / watercourses
3. Lower Dean Street
4. Kildare Circle
5. Newlands Ave near Foresters / BP

More detail on all the individual responses to the freeform questions can be found here

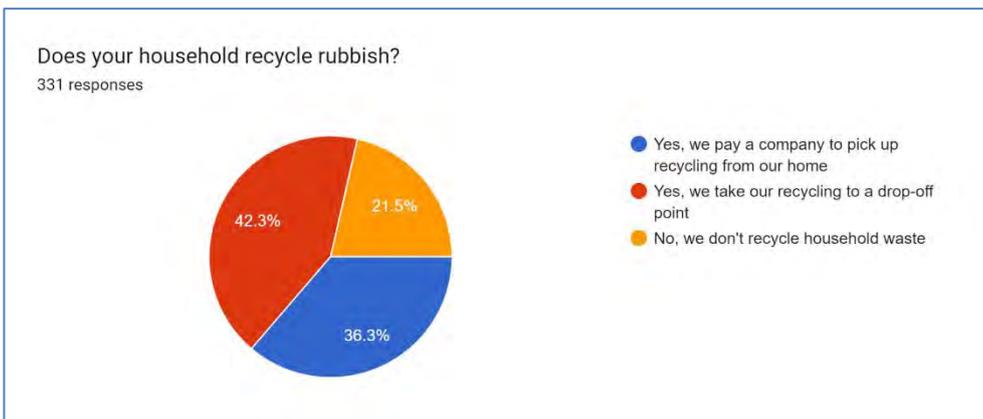

<https://www.newlandscid.org/residents-survey/survey-responses>.

There is considerable debate as to whether more or less bins actually reduce the amount of litter.

If there are public bins which aren't emptied enough then there is inevitably rubbish on the ground in their immediate vicinity. It has been established that the City cannot / will not do more than it currently does.

Environmental Issues

Four questions were asked in this section. Each quantitative question is analysed below using a graph. Qualitative questions are summarised, with full detailed responses available online.

<https://www.newlandscid.org/residents-survey/survey-responses>

Our area is famous for its trees and open spaces.

Are there any changes or improvements you would like to see in our parks and natural environment?

e.g.

- more / less clearing of undergrowth
- more planting / replanting in public spaces
- more indigenous plants

196 responses

196 respondents commented. Several issues were included by multiple respondents and they are listed below.

1. More clearing of undergrowth
2. More indigenous planting
3. More trimming of trees growing over roads and verges
4. Dog poo bags available in parks
5. Replace the decayed oaks

More detail on all the individual responses to the freeform questions can be found here

<https://www.newlandscid.org/residents-survey/survey-responses>.

Do you think there should be more playground equipment in any of our parks?

If so, what sort of equipment and in which park?

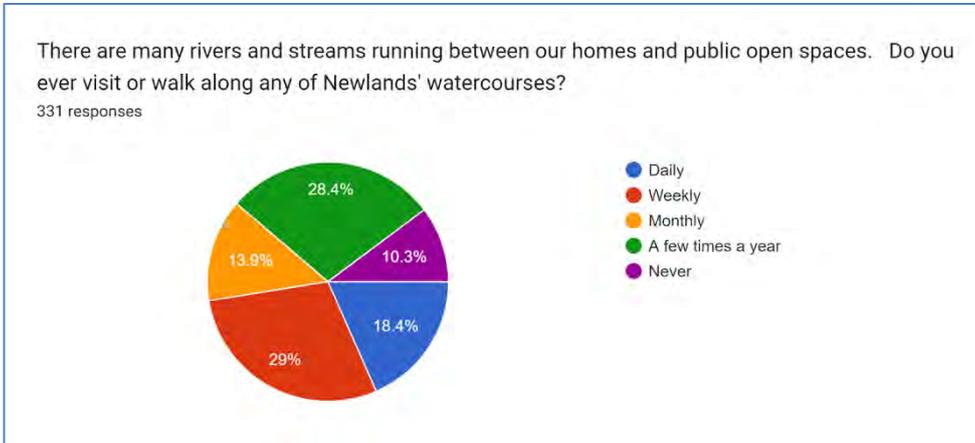

159 responses

159 respondents commented. Several issues were included by multiple respondents and they are listed below.

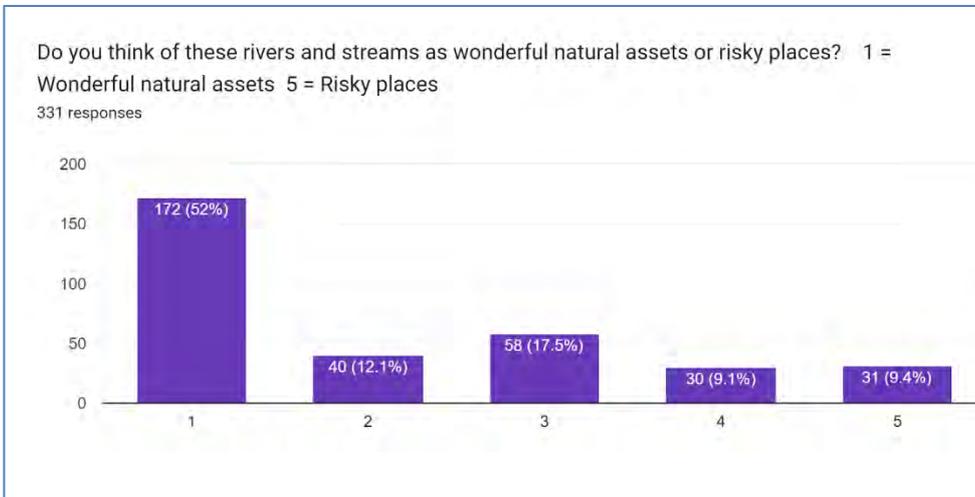

1. Gym equipment
2. Children's play equipment in Pinewood Park
3. Play equipment for very young children

More detail on all the individual responses to the freeform questions can be found here

<https://www.newlandscid.org/residents-survey/survey-responses>.

More than 60% of respondents walk to, or along, Newlands watercourses at least monthly. Nearly 20% visit one of the streams or rivers daily. These are clearly very important places to keep clean and safe.

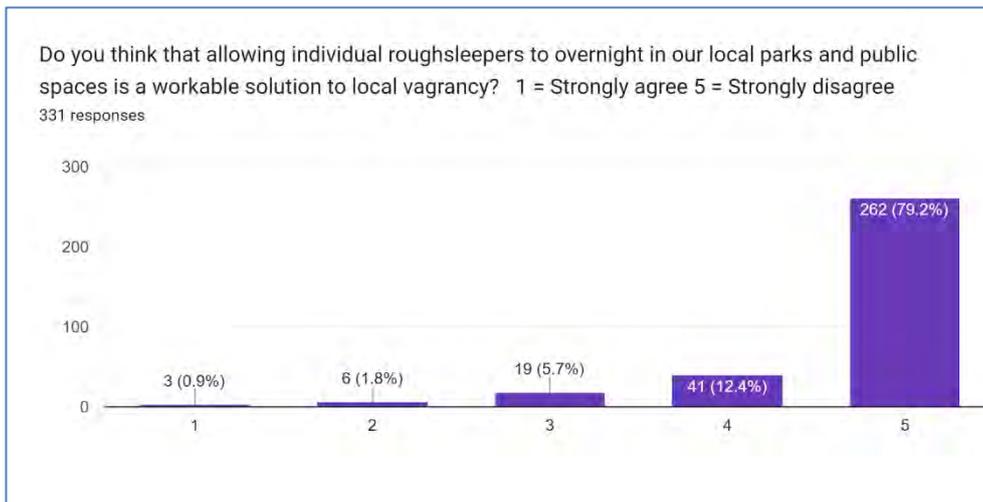

Social Responsibility

Four questions were asked in this section. Each quantitative question is analysed below using a graph. Qualitative questions are summarised, with full detailed responses available online.

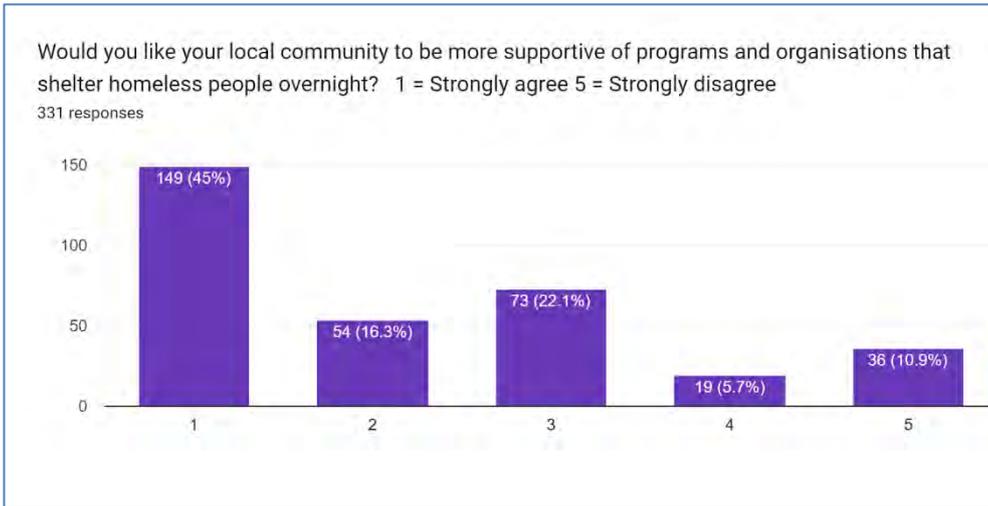

<https://www.newlandscid.org/residents-survey/survey-responses>

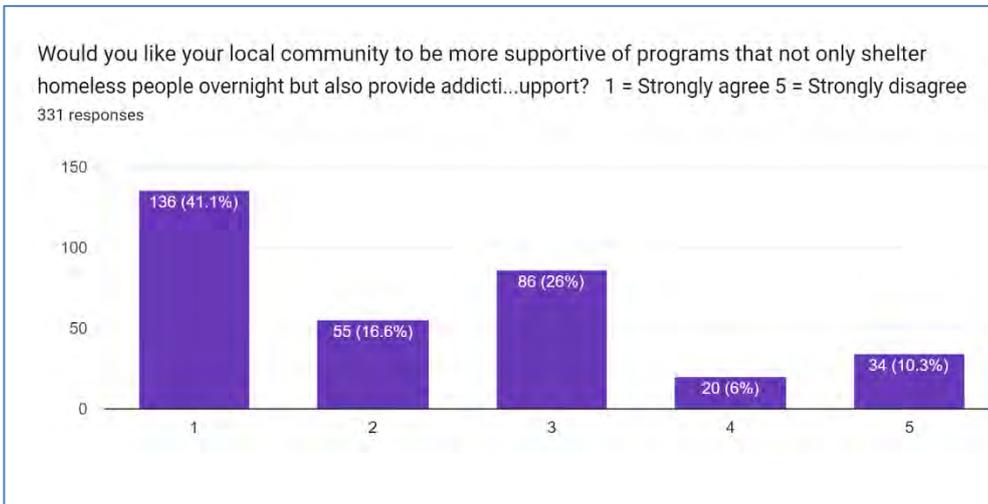

The respondents are strongly against allowing the establishment of rough-sleeping camps within Newlands' public spaces.

The respondents are strongly against allowing individual rough-sleepers to establish themselves within Newlands' public spaces.

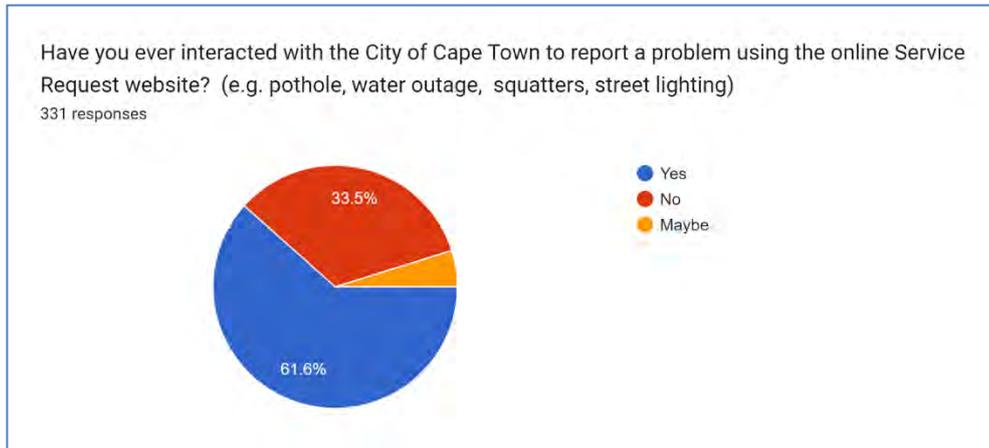

There is currently no organised social work dedicated to homeless persons in this area. That would change if a CID was established.

Roads & Infrastructure

Two questions were asked in this section. Each quantitative question is analysed below using a graph. Qualitative questions are summarised, with full detailed responses available online.

<https://www.newlandscid.org/residents-survey/survey-responses>

More than 60% of respondents have registered a complaint or issue with City. Ideally that number should be higher.

Are there any specific road and infrastructure issues which you feel are not being adequately addressed in our area?

174 responses

178 respondents commented. Several issues were included by multiple respondents and they are listed below.

Most of these actions cannot be unilaterally actioned by a CID but the collaborative nature of a CID with City should make it easier to bring pressure to bear timeously and with the right role-players.

1. Road marking faded or inadequate.
2. Water pipe burst – quick action.
3. Road quality (potholes, pavements).
4. Management of trees overhanging roads.
5. Parking management.

More detail on all the individual responses to the freeform questions can be found here

<https://www.newlandscid.org/residents-survey/survey-responses>.

Other

One question was asked in this section. Qualitative questions are summarised, with full detailed responses available online. <https://www.newlandscid.org/residents-survey/survey-responses>

6. OTHER

If there were resources available, what new or improved projects / policies / programmes would you like to see in our area?

273 responses

273 respondents commented. Several issues were included by multiple respondents and they are listed below.

1. More security
2. Recycling facilities
3. Increased camera network
4. More community events
5. Dog poo bags
6. Social upliftment projects
7. More building control
8. Better parking management
9. Heritage preservation

More detail on all the individual responses to the freeform questions can be found here <https://www.newlandscid.org/residents-survey/survey-responses>.

Budget implications

One of the main objectives of the UMS in this project is to inform the budgeting process.

The detail of this will be unpacked in detail during the budgeting process but a number of broad imperatives are already very clear:

1. Community Safety is the number one concern of an overwhelming proportion of respondents. 86% listed it as their primary concern, and a combined 93% listed it as either their primary or secondary concerns.

Clearly public safety measures will aggregate to the most significant item in the budget.

2. Litter / cleansing is the second most important issue to residents. A large number of respondents gave their opinions on causes and solutions.
3. Within the public safety remit, a number of real / perceived crime hotspots have been highlighted. These are physical locations where residents are asking for action. The public safety budget will need to consider these within the constraints of available funding.
4. While there is very strong resistance to permitting rough sleepers to reside in the area, there is equally strong support for social responsibility interventions with regard to rough sleepers. The latter is not something that any local volunteer project is currently working on, so a CID would certainly need to take this on.
5. Great value was placed on our natural open spaces. This was illustrated by how many people access them frequently (parks and watercourses) and by how they perceive them. There will need to be budget to protect and improve these.
6. Within the narrative answers, a few smaller but important suggestions have been made – some repeatedly. For example, there is clearly an appetite for more structured recycling opportunities.

Comment / Inputs received	Category (Select from the List)	Will this comment / input lead to an amendment in the business plan? Yes / No	If no, provide reasons	If yes, provide detail	Any additional information
"I believe the underlying principles of the proposal are good. However, in spite of what the Council may say about maintaining the same existing services, in due course there will be a guaranteed run-down of such service levels..".	City Services	No	This issue is related to the property owner's uncertainty about the quality and continuity of ongoing service delivery by the City of Cape Town. This cannot be addressed by changing the Business Plan.		
"I would like to follow up on my question below with regards the proposed CID fee and calculation thereof. It seems unreasonable to have such big discrepancies in fees, and I would like to understand the position and reasoning thereof." EG believes her General valuation to be unfair and therefore she will be paying an unfair amount of Additional Rates	Rates Valuation	No	This is not something that the CID or Steering Committee can resolve		
"I am in support of this application and wonder if we could somehow also include a Newlands Outreach in the model? Even if this is a donation towards a shelter. Unfortunately I will be away during the week of the meeting detailed but will keep a keen eye out on developments. As a single mum and business owner, my resources are thin however I would like to assist with strengthening our community where possible."	Social Responsibility	Yes		The author asks that the Steering Committee include outreach in the form of support for e.g. a shelter. This is not a supplementary service per se, so is not part of the mandate for the CID. However, the sentiment is good and the Steering Committee have determined that we should amend the BP wording so that it is reflected and could manifest itself within the existing spending programme, if the appropriate opportunity presents itself.	
"So coming back to the budget – it means 3 mobile officers + 7 static officers = daily rate of R12 700 / 10 people = roughly works out on R1270 per person per day. This seems quite high. It would be useful to understand how this budget has been calculated."	Public Safety	No	The author asks for clarity on the costs of specific services. This has been provided to the the author by email and does not affect the cost or nature of the services proposed - so the BP is unaffected		
"I object to the boundaries of this CID. We have 3 government school grounds and at least 2 national government properties which I know of in the proposed CID area. All of these property's rates are paid by national or local government. These properties should be excluded from the CID as they are not conventional ratepayers and the CID would effectively be taking money from the city and the national government that could be used for less privileged areas."	CID Boundaries	No	Exclusion of individual properties from the CID is not something that adjustment BP can accomplish.		
"I object to paying Motor Vehicle Expenses as well as Repairs and Maintenance cost. It is not clear why these costs are included, it doesn't make sense."	Expenditure	No	The costs referred to have been explained to the objector. They appear reasonable to the Steering Committee		
I object to pay for a CID, if we already pay for Rates. A lot of the items contained in the CID budget are already covered or should be covered by our existing rates that are paid to the city	City Services	No	All Additional Rates will be spent on Supplementary Services - i.e. services that the City does not currently offer to property owners, or plan to offer.		

Comment / Inputs received	Category (Select from the List)	Will this comment / input lead to an amendment in the business plan? Yes / No	If no, provide reasons	If yes, provide detail	Any additional information
"Object to paying the Seed Capital. The ratepayers should not have to fund the Seed Capital. This should be covered by the individuals who have decided to start the CID not the ratepayers. This will not be recouped if the CID is not established so should not have to be paid for by the funds extracted from the rate amount.."	Expenditure	No	It has been explained to the author that if the CID application does not succeed then the costs will be borne by the Steering Committee. It has further been explained that should the application succeed, a significant majority of property owners have demonstrated that they are in favour of recompensing the Steering Committee for their out of pocket expenses, as this is detailed in the BP for which they have voted.		
"I do not understand why there is an advertising cost on the proposed Newlands CID budget. The first year of advertising is R24 000, 2nd year is R25440, 3rd year R26 966, 4th year R28 584 and on the 5th year R30299. What is the CID going to advertise on a yearly basis?"	Expenditure	No	This likely costs associated with this provision have been explained to the author. They appear reasonable to the Steering Committee.		
"I would like to object that the Rondebosch area is to be included in the 'Newlands CID' area. This is not just because we are in Rondebosch, but because we will receive very little value from the Newlands CID. Almost all of the proposed 'upliftments' in the area, will happen on the Newlands side of the new proposed CID. To include the Rondebosch area into Newlands CID does not make sense, other than that the Newlands CID, needs more homeowners to pay for their budget. Geographically the Rondebosch area is too far away in order to 'service' us properly which is why we are not included in that CID. Being grouped as part of Newlands seems inappropriate for the same reason. I object that the area between Klipper and Dean and Newlands Avenue and Main road should be part of the Newlands CID, and I request that it be removed. We can spend our money much better by being part of our own Rondebosch CID if the need arises"	CID Boundaries	No	Redefining of the CID boundary to exclude the 'Rondebosch' streets has been mentioned only once by objectors (this author) while support received by the Steering Committee for the inclusion of these streets is significant. It should be noted that one of the primary streets in the area widely recognised as Newlands - Dean Street - does in fact fall into both Newlands and Rondebosch, according to the municipal definition.		
"I object to the "roughly 10% + VAT" that the new proposed CID will deduct from our rates bill. There are just too many expenses in this budget that I don't agree with."	Expenditure	No	There is no compelling reason for the Steering Committee to deviate from the Supplementary Service package, and associated costs, as described by the BP. They appear reasonable to the Steering Committee.		

Comment / Inputs received	Category (Select from the List)	Will this comment / input lead to an amendment in the business plan? Yes / No	If no, provide reasons	If yes, provide detail	Any additional information
<p>The author sent an email to ██████████ this being a temporary address of one of the Steering Committee. He said that he was the editor of a Newlands Community publication; there is no record of such a publication. He also stated that he represented Newlands Neighbourhood Watch: there is no such accredited NHW. He asked for justification on why ██████████ should be allowed to play a role in Newlands affairs and, rather unusually, made a point of referencing ██████████ including all her given names. The email in totality appears somewhat threatening.</p>	<p>Irrelevant to the BP finalisation</p>	<p>No</p>	<p>This enquiry was forwarded to the CID team who wrote to ██████████ explaining that his enquiries about the personal circumstances of the Steering Committee were not pertinent to this stage of the process and that they could be addressed by registered members of the CID company should the application be successful.</p>		<p>NOTE: ██████████ is listed in the City records as the representative of the Late Estate: ██████████</p> <p>Preliminary enquiries suggest that this is not the case, and that no such Estate was ever opened on the death of ██████████. If that is so, then there is no legal authority able to nominate an owner's representative.</p> <p>██████████ emails have been responded to in the same way as all other enquiries, and his representative status can be clarified one way or the other during the audit process, should ██████████ wish to cast a vote.</p>
<p>The email made no comment on the BP but referenced a park upgrade project that the Steering Committee member has been involved with for some time. In a series of wholly unsubstantiated (and demonstrably untrue) allegations, ██████████ attacked the Steering Committee member.</p>	<p>Irrelevant to the BP finalisation</p>	<p>No</p>	<p>The author makes no comment on the draft Business Plan.</p>		<p>NOTE: ██████████ is listed in the City records as the representative of the Late Estate: ██████████</p> <p>Preliminary enquiries suggest that this is not the case, and that no such Estate was ever opened on the death of ██████████.
