- (i) construction works within the civil, mechanical, electrical engineering, and building industries as defined by the CIDB;
 - (ii) professional services within the built environment;
 - (iii) goods; or
 - (iv) services.
94. Framework agreements allocate works orders based upon the rates and prices awarded by the relevant delegated authority (typically the Supply Chain Management Bid Adjudication Committee) at the outset of the contract. As works orders are created using rates and prices and cost price adjustments (CPA) provisions that have already been approved by an appropriate delegated authority, the approval of such works orders is a contract management function and is subject to appropriate controls and approvals established by line departments.

Panel Tender

95. In panel tenders the focus is on the procurement of construction works or goods and services whether professional engineering service or not.
96. Panel tenders select suppliers from a list of accredited suppliers to perform works assignments based on processes which could include rotation, and secondary competitive processes. 100. Where the estimated value of fees is less than or equal to R750 000 (VAT Included), or the relevant amount approved by National Treasury, and the duration of the appointment will be more than one year, a formal written process as described in this Policy, as amended from time to time, shall be applied.

Deliberate Splitting of Orders

103. The provision of goods, services or construction works may not deliberately be split into parts, or items of a lesser value, merely to avoid complying with the requirements of this policy. When determining transaction values, a requirement for goods and services consisting of different parts or items must as far as possible be treated and dealt with as a single transaction.
- 103.1 Where the City has followed a competitive bidding process- and no suitable offers have been received, commencing on an RFQ process for those items to ensure continued service delivery is not considered to be deliberate splitting of orders.
- 103.2 In addition to the above clause, the relevant department should ensure that these items are placed on the demand plan (The City's procurement needs for a financial year).

General Conditions Applicable to Bids and Quotations

 - 104.1.3 tax reference number; and
 - 104.1.4 VAT registration number, if any;
- 104.2 has attended a compulsory site inspection, where applicable;

106. Before making an award the City must verify the bidder's tax compliance status. Where the recommended bidder is not tax compliant, the bidder should be notified of the non-compliant status and be requested to submit to the City, within 7 working day, written proof from SARS that they have made arrangement to meet their outstanding tax obligations. The proof of tax compliance submitted by the bidder must be verified by the City via CSD or e-Filing. The City should reject a bid submitted by the bidder if such bidder fails to provide proof of tax compliance within the timeframe stated.
107. Irrespective of the procurement process followed:
- 107.1 the City is prohibited from making an award to a person —
- 107.1.1 who is in the service of the state;
- 107.1.2 if the person is not a natural person, of which any director, manager or principal shareholder or stakeholder is in the service of the state;

 - 109.2 a consulting contract exceeding one year in duration.
110. When determining transaction values, a requirement for goods or services, construction works or consultant services consisting of different parts or items must as far as possible be treated and dealt with as a single transaction.
111. Within the context of preferential procurement, one of the strategies to encourage and assist entry into Local Government procurement by emerging businesses is to simplify and standardise bid/contract documentation wherever possible.
112. To this end, the City will prepare a suite of standard documentation and, where appropriate, simplified bid/contract documents for use in the City's procurement process as and where applicable.
113. Where standard bid/contract documentation is prescribed in terms of legislation (the CIDB Standard for Uniformity, for example) such standard documentation must be used for the procurement of goods, services or construction works, as applicable.

Bid Specifications

114. Bid specifications must be drafted in an unbiased manner to allow all potential suppliers to offer their goods or services.
115. Bid specifications must take account of any accepted standards such as those issued by South African National Standards, the International Standards Organisation, or any authority accredited or recognised by the South African National Accreditation System with which the equipment or material or workmanship should comply.
116. Bid specifications shall, where possible, be described in terms of performance required rather than in terms of descriptive characteristics for design.
117. Bid specifications may not create trade barriers in contract requirements in the forms of specifications, plans, drawings, designs, testing and test methods, packaging, marking or labelling of conformity certification.
 - 117.1 Bid specifications may not make any reference to any particular trade mark, name, patent, design, type, specific origin or producer, unless

118. Bid specifications must be approved by the City Manager or his delegated authority prior to publication of the invitation for bids.

121. The Bid Specification Committee shall be comprised of at least two City officials as members, consisting of an appointed Chairperson and a responsible technical official. 122. Where appropriate a representative of Internal Audit and Legal Services and other specialist advisors (internal or external) may form part of this committee.
123. Green procurement should be considered for all specifications of goods, services and construction works.
124. In the development of bid specifications, innovative mechanisms should be explored to render the service or product more resource and energy efficient.
125. The City Manager, or his delegated authority, shall, taking into account section 117 of the MFMA, appoint the members of the Bid Specification Committees.

127. Bid Specification Committee meetings must be conducted in accordance with the applicable Terms of Reference and Guide and Rules of Order for Members of the City of Cape Town’s Bid Committees.

129. General conditions of contract and supply chain management circulars / guidelines of the National Treasury in respect of goods and services must be taken into account when compiling bid documents.

131. Appropriate penalties should be specified for failure to comply with specific terms and conditions of all contracts.
132. An appropriate contract and delivery period should be specified for all contracts.
133. The requirements of the preferential procurement section of this Policy must be clearly set out in the bid documentation.
134. The bid documentation and evaluation criteria shall not be aimed at hampering competition, but rather to ensure fair, equitable, transparent, competitive and cost effective bidding, as well as the protection or advancement of persons, or categories of persons, as embodied in the preferential procurement section of this Policy.

141. Laws of the Republic shall govern contracts arising from the acceptance of bids.
142. Where the acquisition in question is likely to involve an imported component which will be subject to foreign exchange rate adjustments, the bid documentation must specify that the supplier take out a forward exchange contract in order to fix the Rand based price as soon as possible after the award in the case of lump sum contracts or as soon as possible after placement of each order requiring imported components or subassemblies in case of framework contracts.

Alternative Bids

150. Alternative bids can be submitted provided that an acceptable bid, which complies with the bid conditions and specifications and submitted strictly in accordance with the bid documents, is also submitted.

151. An alternative bid shall be submitted on a separate complete set of bid documents or in accordance with such conditions as may be set out in the bid document and shall be clearly marked "Alternative Bid" to distinguish it from the acceptable bid referred to above.

152. All acceptable bids (excluding alternative bids) shall first be evaluated in accordance with the bid conditions and ranked in terms of the preference point system described in the Preferential Procurement section of this policy. Only the alternative of the highest ranked acceptable bid (that is, submitted by the same bidder) may be considered, and if appropriate, recommended for award.

153. Alternative bids of any but the highest ranked acceptable bid, shall not be considered.

154. If the alternative bid of the highest ranked acceptable bid is considered to have merit, then the alternative bid shall be ranked along with all of the acceptable bids received.
155. An alternative of the highest ranked acceptable bid that is priced higher than the first ranked bid may be recommended for award, provided that the ranking of the alternative bid is higher than the ranking of the next ranked acceptable bid.
156. The City will not be bound to consider alternative bids.

Public Invitation for Competitive Bids

157. On completion of the bid specification process the City shall publicly invite bids.
158. Bid invitation shall be by notice published in the media and any electronic platform (such as CIDB website, City Website, and National Treasury e-Tender Portal) that may be applicable or suitable.
159. The City does not take responsibility for bid documents not retrieved through the official platforms prescribed in clause 158.
160. The notice shall, as soon as possible after the publication contemplated above, be posted on official notice boards designated by the City Manager.
161. The notice may require payment of a non-refundable bid fee by bidders wanting to collect bid documents. This bid fee shall be determined by the Director: Supply Chain Management from time to time.
162. The notice contemplated by clause 158 above shall specify:
 - 162.1 the title of the proposed contract and the bid or contract reference number;

 - 162.5 that bids may only be submitted on the bid documentation provided by the City³;
 - 162.6 the non-refundable bid fee payable, if any;
 - 162.7 the place where bids must be submitted;

³ Where activity schedules or bills of quantities are to be submitted as part of the bid documentation, printed schedules, in the same format as those issued, will be accepted.

162.8 the closing date and time for submission of bids; and

162.9 the appropriate CIDB contractor grading for construction work.

163. The notice shall further state that all bids for the contract must be submitted in a sealed envelope on which it is clearly stated that such envelope contains a bid and the contract title and contract or bid reference number for which the bid is being submitted.
164. Bid documentation shall be available for collection until the closing date of bids.

Issuing of Bid Documents

165. Bid documents and any subsequent notices may only be issued by officials designated by the Director: Supply Chain Management from time to time.
166. Details of all prospective bidders who have been issued with bid documents must be recorded by the issuing office but shall remain confidential for the duration of the bid period.
167. Details of prospective bidders must, wherever possible, include the full name of the person drawing documents, a contact person, a contact telephone and fax number and a postal and email address.

Site Inspections/Bid Clarification Meetings

168. Site inspections and/or clarification meetings in respect of bids exceeding R750 000 (VAT Included), or the relevant amount approved by National Treasury, will in general, not be compulsory. A site inspection/clarification meeting may be made compulsory with the approval of the Director: Supply Chain Management. If required, the minimum bid period can be extended by at least 7 (seven) days with the approval of the Director: Supply Chain Management (refer to clauses 197 to 199 in this regard).
169. If site inspections and /or clarification meetings are to be held, full details must be included in the bid notice, including whether or not the site inspection/clarification meeting is compulsory.
170. Where site inspections and /or clarification meetings are made compulsory, the date for the site inspection/clarification meeting shall be at least 14 (fourteen) days after the bid has been advertised. The City may choose to conduct a compulsory briefing meeting at a City facility first, followed by a physical site inspection.
171. If at a site meeting and /or clarification meeting, any additional information is provided or clarification of vague points is given, such additional information or clarification must be conveyed to all bidders in accordance with clauses 2044 to 2066 of this Policy.

Two-stage Bidding Process

172. This process may be applied to bids for large complex projects, where it may be undesirable to prepare complete detailed technical specifications or long term contracts with a duration exceeding three years, or where there are legislative, design, technological or safety reasons to restrict bidding to firms who have proven their capability and qualification to meet the specific requirements of the bid.
173. In the first stage, bidders are invited to submit technical proposals, conceptual designs, performance specifications, or functional criteria.
174. In the second stage, all bidders that meets the stage 1 criteria, will be invited to submit final technical proposals and a financial offer.
175. The bidders who meets the stage 1 criteria shall be given a minimum of 7 (seven) days to submit a final technical proposal and financial offer.
176. A two stage process must comply with the provisions for competitive bids (clauses 109 to 292 refer).

Two Envelope System

177. A two envelope system differs from a two-stage bidding process in that a technical proposal and the financial offer are submitted in separate envelopes at the same place and time. The financial offers will only be opened once the technical proposals have been evaluated (clauses 229 to 236 refer).

Validity Periods

178. The period for which bids are to remain valid, irrevocable and open for acceptance must be indicated in the bid documents.
179. Bids shall remain valid for acceptance for a period of twelve (12) months after the expiry of the original validity period, unless the City is notified in writing of anything to the contrary by the bidder.
180. The validity of bids may be further extended by a period of not more than six months subject to consent and administrative processes and upon approval by the delegated authority, unless the required extension is as a result of an appeal process or court ruling.
181. In circumstances where the validity period of a tender has expired, and the tender has not been awarded, the tender process is considered "completed", despite there being no decision (award or cancellation) made. This anomaly does not fall under any of the listed grounds of cancellation and should be treated as a "non-award". A "non-award" is supported as a recommendation to the BAC for noting.

Contract Price Adjustment

182. In general, if contract periods do not exceed twelve (12) months, the bid shall be a fixed price bid and not subject to contract price adjustment. A Bid Specification Committee may however request approval from Director: Supply Chain Management to allow contract price adjustment for contract periods less than twelve (12) months. In such instances an appropriate contract price adjustment formula must be specified in the bid documents.
183. For all contract periods exceeding twelve (12) months in duration, contract price adjustment will be applicable. An appropriate contract price adjustment formula must be specified in the bid documents. The delegated authority may consider a contract price adjustment formula in instances within the first twelve (12) months of the contract period, under exceptional and motivated circumstances,
184. If as a result of an award of a contract beyond the original tender validity period, the contract execution will be completed beyond a period of twelve (12) months from the expiry of the original tender validity period, then the contract may be subject to contract price adjustment for that period beyond such twelve (12) months. An appropriate contract price adjustment formula will be determined by the delegated authority if such was not included in the bid documents. This provision would also be applicable upon any such contract extension of framework agreement tenders and would encompass the full period of the contract extension beyond the original contract period.
185. If as a result of any extension of time granted the contract execution will be completed beyond a period of twelve (12) months from the expiry of the original tender validity period, then contract price adjustment may apply to that period beyond such twelve (12) months. An appropriate contract price adjustment formula will be determined by the delegated authority if such was not included in the bid documents. This provision would also be applicable upon any such contract extension of framework agreement tenders and would encompass the full period of the contract extension beyond the original contract period.
186. If the award of a contract is delayed beyond the original tender validity period any additional conditions proposed by any bidder may be considered provided it is reasonable and does not prejudice any other bidder.

Contracts providing for Compensation Based on Turnover

187. If a supplier acts on behalf of the City to provide any service or act as a collector of fees, service charges or taxes and the compensation payable to the supplier is fixed as an agreed percentage of turnover for the service or the amount collected, the contract between the supplier and the City must stipulate—
 - 187.1 a cap on the compensation payable to the supplier; and
 - 187.2 that such compensation must be performance based.

Provisional Sums and Prime Cost or Sub-Contract Allowances

188. Provision for monetary allowances shall as far as possible be avoided. Where these are unavoidable, the total value of such allowances shall not exceed 20% of the total estimated value of the tender unless otherwise approved by the Director: Supply Chain Management.
189. Where monetary allowances in excess of R300 000 in respect of provisional sums or prime cost items have been included in the bid documents, and where the work or items to which the sums relate are to be executed/supplied by sub-contractors/suppliers, then one of the following processes, as determined by the Bid Specification Committee, shall be followed in respect of these allowances:
- 189.1 An **open competitive bidding process** in which bid documents are prepared by a consultant or a City employee in collaboration with the Responsible Person(s) in consultation with and to the approval of the supplier, invitations to bid are advertised in the media by the consultant or City employee or responsible person(s) on behalf of the supplier, and whereby the **selected sub-contractor/supplier** is chosen in consultation between the consultant, City employee or Responsible Person(s), together with the supplier from the responses received. The supplier must satisfy him/herself that the selected sub-contractor/supplier can meet the requirements of the sub-contract/supply agreement, and assumes the risk for the performance of the sub-contractor/supplier. The supplier may, on reasonable grounds, elect not to employ a particular sub-contractor/supplier.
- 189.2 A **two-stage selection process**, whereby the consultant or a City employee or Responsible Person(s) will advertise (in the media) for expressions of interest from suitably qualified sub-contractors/suppliers. From the responses received, the consultant or City employee, Responsible Person(s) and the supplier, in conjunction, shall compile a list of at least three (unless less than three responses were received) suitable sub-contractors/suppliers who will then be asked to submit prices for the works/items required. The supplier will assume the risk for the performance of the **selected sub-contractor/supplier** identified through this process. The supplier may, on reasonable grounds, elect not to employ a particular sub-contractor/supplier.
- 189.3 A **nominated process**, whereby the City instructs the supplier to appoint a particular (typically specialist) sub-contractor/supplier. In this process the sub-contractor/supplier is a **nominated sub-contractor/supplier**, and the risk is transferred from the supplier to the City. The use of this process must therefore be motivated to, and approved by, the Director: Supply Chain Management prior to its implementation.

- 189.4 A preference point system (as described later in this policy) must be applied in respect of the processes described in clauses 189.1 to 189.3 above.
190. When monetary allowances of less than R300 000 have been included in the bid documents, and where the work or items to which the sums relate are to be executed/supplied by sub-contractors/suppliers, the supplier must be required to request a minimum of three written quotations from suppliers selected in consultation with the consultant and a City employee for approval by the Responsible Person(s).

Samples

191. Where samples are called for in the bid documents, samples (marked with the bid and item number as well as the bidder's name and address) shall be delivered separately (to the bid) to the addressee mentioned in the bid documents.
192. Bids may not be included in parcels containing samples.
193. If samples are not submitted as required in the bid documents or within any further time stipulated by the City in writing, then the bid concerned may be declared non-responsive.
194. Samples shall be supplied by a bidder at his/her own expense and risk. The City shall not be obliged to pay for such samples or compensate for the loss thereof, unless otherwise specified in the bid documents. The City reserves the right to keep samples supplied by the appointed bidder. Unsuccessful bidders can collect their samples within 90 days after the final notification of award has been sent to suppliers, after which the City has the right not to return such samples and to dispose of them at its own discretion.
195. If a bid is accepted for the supply of goods according to a sample submitted by the bidder, that sample will become the contract sample. All goods/materials supplied shall comply in all respects to that contract sample.

Closing of Bids

196. Bids shall close on the date and at the time stipulated in the notice.
197. For bids for goods and services the bid closing date must be at least 14 (fourteen) days after publication of the notice.
198. For bids for construction works the bid closing date must be at least 21 (twenty-one) days after publication of the notice.
199. Notwithstanding the above, if the estimated contract value exceeds R10 million, or if the contract is of a long term nature with a duration period exceeding one year, then the bid closing date must be at least 30 (thirty) days after publication of the notice.

200. For banking services, the bid closing date must be at least 60 (sixty) days after publication of the notice.
201. For proposal calls using a two envelope system, the bid closing date must be at least 30 (thirty) days after publication of the notice.
202. The bid closing date may be extended by the Director: Supply Chain Management if circumstances justify this action, provided that all bidders that have drawn bid documents are notified of this decision in accordance with clauses 204 to 206 below, and that the notice to this effect is attached to all bid documents subsequently issued. Any amendment to the bid closing date shall also be published on the City's official website.
203. The City Manager may determine a closing date for the submission of bids which is less than any of the periods specified in clauses 196 to 201 above, but only if such shorter period can be justified on the grounds of urgency or emergency or any exceptional case where it is impractical or impossible to follow the official procurement process.

Communication with bidders before bid closing

204. The Bid Specification Committee may, if necessary, authorise communication with bidders prior to bids closing.
205. Any communication authorised by the Bid Specification Committee, which has implications of consequence for all tenderers, shall be in the form of a written notice issued to all bidders by the Director: Supply Chain Management, or his nominee, by either e-mail or registered post as appropriate. A copy of the notice together with a transmission verification report/proof of posting shall be kept for record purposes. Notices should be issued at least one week prior to the bid closing date, where possible.
206. Notwithstanding a request for acknowledgement of receipt of any notice issued, the bidder will be deemed to have received such notice if the procedures in clause 205 have been complied with.

Submission of Bids

207. Bids must be submitted before the closing time, at the address and in accordance with the directives in the bid documents.
208. Each bid must be in writing using non-erasable ink and must be submitted on the official Form of Bid/Offer issued with the bid documents.
209. The bid must be submitted in a separate sealed envelope with the name and address of the bidder, the bid number and title, the bid box number (where applicable), and the closing date indicated on the envelope. The envelope may not contain documents relating to any bid other than that shown on the envelope. Only sealed bids will be accepted.

210. The onus shall be on the bidder to place the sealed envelope in the official, marked and locked bid box provided for this purpose, at the designated venue, not later than the closing date and time specified in the bid notice.
211. No bids forwarded by email or similar apparatus shall be considered unless:
- 211.1 the bid documentation specifically provides for this method of submission;
- 211.2 in the event of photostat copies of bids which are submitted in the prescribed manner, such bids will be considered, provided the original Forms of Bid/Offer can be shown to have been posted or couriered prior to the close of bids.
212. Electronic bids will not be accepted, unless the bid documentation specifically provides for this method of submission, either for the entire bid or any portion thereof.
213. Where bids are submitted in electronic format, such bids must be supplemented by sealed hard copies.
214. Clauses 2088 to 21010 above shall not apply to bids submitted through the e-procurement system.
215. The bidder shall choose a *domicilium citandi et executandi* in the Republic and unless notice of the change thereof has duly been given in writing, it shall be the address stated in the bid.
216. No person may amend or tamper with any bids or quotations after their submission. Where an e-Procurement system is used, the system must ensure that bids cannot be altered or tampered with after submission by the bidder.

Late Bids

217. A bid is late if it is not placed in the relevant bid box by the closing time for such bid.
218. A late bid shall not be admitted for consideration and shall be returned to the bidder upon request.

Opening of Bids

219. At the specified closing time on the closing date the applicable bid box shall be closed.
220. The bid box shall be opened in public as soon as practical after the closing time.
221. Immediately after the opening of the bid box, all bids shall be opened in public.

222. The official opening the bids shall read out, where possible, the name of the bidder, the amount of the bid and the preference indicated.
223. Where an e-Procurement system is used, the bid information described in clause 222 above shall be published on the City's official website as soon as practical after the closing time.
224. All rates, with the exception of rates only bids, and proprietary information are confidential and shall not be disclosed.
225. As soon as a bid or technical proposal has been opened:
- 225.1 the bid/proposal shall be stamped with the official stamps, and endorsed with the opening official's signature;
 - 225.2 the name of the bidder and the bid sum shall, where possible, be recorded in a bid opening record kept for that purpose;
 - 225.3 the responsible official who opened the bid shall forthwith place his/her signature on the bid opening record;
 - 225.4 The responsible official will make the register available for public inspection; and
 - 225.5 The responsible official will publish the entries in the register and the bid results on the website of the Municipality.
226. Bids found to be inadvertently placed in the incorrect bid box will be redirected provided that the applicable bids either closed on the same day at the same time, or are still open.
227. Bids received in sealed envelopes in the bid box without a bid number or title on the envelope will be opened at the bid opening and the bid number and title ascertained. If the bid was in the correct bid box it will be read out. If the bid is found to be in the incorrect bid box, it will be redirected provided that the applicable bids either closed on the same day at the same time, or are still open. If the bid closes at a later date, the bid will be placed in a sealed envelope with the bid number and title endorsed on the outside, prior to being lodged in the applicable box. The City however disclaims any responsibility for seeing that the bid is in fact lodged in the correct box.
228. The official opening the bids shall record, in the bid opening record:
- 228.1 any action taken in terms of clauses 2266 and 2277 above;
 - 228.2 any unsealed bids received.

A copy of the notice together with a transmission verification report/proof of posting shall be kept for record purposes.

General

381. Risk Management shall provide for an effective system for the identification, consideration and avoidance of potential risks in the City's supply chain management system.
382. Managing risk must be part of the City's philosophy, practices and business plans and should not be viewed or practiced as a separate activity in isolation from line managers.
383. Risk Management shall be an integral part of effective management practice.

The Risk Management Process

384. The risk management process shall be applied to all stages of supply chain management, be it the conceptual stage, project scope definition, specification preparation, acquisition approval or implementation to completion.
385. Risk management is an integral part of good management of acquisition activities and cannot be effectively performed in isolation from other aspects of acquisition management.
386. Appropriate risk management conditions should therefore be incorporated in contracts.

Key Principles

387. The key principles on managing risk in supply chain management include:
- 387.1 early and systematic identification of risk on a case-by-case basis, analysis and assessment of risks, including conflicts of interest and the development of plans for handling them;
 - 387.2 allocation and acceptance of responsibility to the party best placed to manage risk;
 - 387.3 management of risks in a pro-active manner and the provision of adequate cover for residual risks;
 - 387.4 assignment of relative risks to the contracting parties through clear and unambiguous contract documentation;
 - 387.5 acceptance of the cost of the risk where the cost of transferring the risk is greater than that of retaining it; and

387.6 ensuring that the costs incurred in managing risks are commensurate with the importance of the purchase and the risks to the City's operations.

Guarantees for Due Performance

- 389.3 In respect of a Rand value exceeding R10 000 000: **7%** of the bid sum;
- 389.4 for Framework Agreement Tenders the Bid Specification Committee must assess the City's anticipated risk exposure at any given time during the contract execution and then, based on the clauses above, determine and specify the monetary value of the required performance guarantee;
- 389.5 unless otherwise provided for in the conditions of contract prescribed
390. The value of a performance guarantee required may be varied with approval of the delegated authority.
391. An amount, equal to the value of the required performance guarantee, may be provided in cash (interest free) in accordance with the processes as prescribed by the delegated authority from time to time.

Advance Payment Guarantees

392. Advance payments in respect of specific materials or services may, where justified in accordance with rules determined by the delegated authority from time to time, be made to a supplier only upon submission by the supplier of an acceptable advance payment guarantee to the City. No such advance payment guarantee may be accepted unless the authenticity thereof has been verified by the City's Treasury Department.
393. Advance payments may not be used as a mechanism for providing a supplier with an interest free loan for working capital.

Retention

394. Retention in respect of the procurement of goods and services (including consultant services) will not generally be applied, but where required, can be called for. Where required, the value of retention to be deducted shall be determined in consultation with the delegated authority.
395. The value of retention to be deducted in respect of construction works contracts shall be as follows:
- 395.1 In respect of a Rand value less than or equal to R200 000 : No retention is called for;

- 395.3 In respect of a Rand value exceeding R1 000 000: 5% of the value of work carried out with no limit, reducing by half for the duration of the defects liability period;
- 395.4 unless otherwise provided for in the conditions of contract prescribed.
396. The value of retention to be deducted in respect of construction works may be varied with the approval of the delegated authority.
397. Where consultant services are to be completed at the end of the defects liability period in respect of a construction contract, the value of this work (typically 5%) may be invoiced at the end of the construction period, but shall be held as retention until the completion of the service (typically, an end of defects liability period inspection and the preparation of the final account). Alternatively, the value of this work must be budgeted for in the following financial year.
398. Financial guarantees in lieu of retention are, in general, not acceptable. Any motivation for the acceptance of a retention guarantee must be approved by the delegated authority.

399. The City Manager must establish and implement an internal monitoring system in order to determine the basis of a retrospective analysis whether the authorised Supply Chain Management processes were followed and whether the objectives of this Policy were achieved.

428. that bids may be declared non-responsive if:
- 428.1.1 they fail to meet objective criteria if stipulated in the bid documents;
 - 428.1.2 they fail to achieve a minimum qualifying score for functionality (quality) if indicated in the bid documents.
429. The preference point system shall be used in the evaluation of responsive bids for the purposes of determining preferred/recommended bidders, and for the adjudication thereof.
430. The preference point system is not applicable to petty cash purchases.
431. Irrespective of the preference point system used, the following will be applicable:
- 431.1 If the price offered by a tenderer scoring the highest points is not market related, the city may not award the contract to that tenderer. The City may however:
 - 431.1.1 negotiate a market related price with the tenderer scoring the highest points in accordance with clauses 28282 to 28585 of this Policy, or cancel the tender;
 - 431.1.2 if the tenderer does not agree to a market related price, negotiate a market related price with the tenderer scoring the second highest points in accordance with clauses 28282 to 28585 of this Policy, or cancel the tender;
 - 431.1.3 if the tenderer scoring the second highest points does not agree to a market related price, negotiate a market related price with the tenderer scoring the third highest points in accordance with clauses 28282 to 28585 of this Policy, or cancel the tender;
 - 431.1.4 apply the foregoing principles to all written and formal written price quotations but upon the approval of Director: Supply Chain Management or his delegated official
 - 431.2 If a market related price is not agreed as envisaged in clause 431.1 of this Policy, the City must cancel the tender.

431.3 The remedies for any breach detected for the submission of any false information by a bidder are contained in clause 58 of this Policy.

Evaluation of Bids on Functionality (Quality)

432. Functionality (otherwise known as quality) may be included in the bid evaluation process as a qualifying (eligibility) criterion.
433. If a bid is to be evaluated on functionality, this must be clearly stated in the invitation to submit a bid, and in the bid documentation.
434. The evaluation criteria for measuring functionality must be objective.
435. When evaluating bids on functionality the:
- 435.1 evaluation criteria for measuring functionality;
 - 435.2 the points for each criteria and, if any, each sub-criterion;
 - 435.3 the minimum qualifying score for functionality rounded off to the nearest two decimal places (if applicable),
- must be clearly stipulated in the bid document.
436. The minimum qualifying score for functionality for a tender to be responsive must be determined separately for each tender. The norm for the minimum qualifying score for functionality shall be 60% of the total possible score. For more specialised or complex tenders the minimum score may, at the discretion of the Bid Specification Committee, be increased to up to 70% of the total possible score. The setting of a minimum score any higher than 70% of the total possible score must be motivated to, and approved by, the Director: Supply Chain Management prior to use and must not be unreasonably restrictive.
437. If a bid fails to achieve the minimum qualifying score for functionality as indicated in the bid document, it must be regarded as non-responsive, and be rejected (not considered any further in the evaluation process).
438. Bids that have achieved the minimum score for functionality, and passed any other responsiveness tests, must be evaluated further in terms of the preference point system prescribed below.

Other Specific Goals

Unbundling Strategies

439. In order to encourage increased participation and the sustainable growth of the small business sector, the unbundling of larger projects into smaller, more manageable, contracts is encouraged.
440. Unbundling must however be considered in the context of:
 - 440.1 economies of scale being lost;
 - 440.2 abortive work becoming necessary;
 - 440.3 additional demands (not only financial) being placed on the City's resources; and
 - 440.4 the risk of later phases not being completed as a result of budget cuts becoming necessary in the future.
441. Unbundling, and all of its associated implications, must therefore be carefully considered at the planning stage of any project and the budgets for, and design thereof, should be structured accordingly.
442. It is important to note that while it is the City's policy to procure goods, services or construction works in the smallest practicable quantities, the practice of parcelling such procurement in order to avoid complying with the requirements of the different range of procurement processes described in this policy is not permitted.

Increasing Employment Opportunities

443. One of the City's key socio-economic objectives is to facilitate the creation of employment for the people of Cape Town.
444. Increasing employment opportunities through procurement may be achieved by specifying labour intensive technologies or methods of construction in the bid documents.
445. It is up to Responsible Person(s) to thoroughly investigate the options available in the above regard, to evaluate the positive versus negative impact of any proposals, and to specify labour intensive technologies or methods where appropriate.
446. All labour earning less than a threshold wage, determined in accordance with National Guidelines, that is employed for the provision of services or

construction works for the City, shall be reported in the prescribed format, on a monthly basis, to the Corporate EPWP⁶ Unit.

Targeted Labour and/or Targeted Enterprises

447. The targeting of labour or enterprises from specific areas within the boundaries of the Cape Town Municipal area may be achieved, where appropriate, by specifying in the bid documents, a minimum level of participation (a contract participation goal) that must be achieved in respect of targeted labour or targeted enterprises in the performance of the contract.
448. Specified contract participation goals must be measurable and achievable, and the performance in respect of which must be monitored by the Responsible Person(s) during the execution of the contract.
449. Where a minimum contract participation goal has been specified in respect of targeted labour or enterprises, the supplier is obliged to meet that goal, and must be penalised if he or she does not.
450. Contract participation goals in respect of targeted labour or enterprises may not be introduced into the preference point system used for the evaluation of bids.

Actions in Regard of Non-performance

451. The specific penalties referred to in this section of the SCM Policy will be applicable to breaches of the contractual conditions relating to preferential procurement that were found to be non-fraudulently committed. If any of these breaches are found to be fraudulently committed, the conditions relating to the Abuse of the Supply Chain Management System will be applicable.
452. In respect of tenders advertised on or after the effective date of the Preferential Procurement Regulations, 2022, for specific goals as determined in clause 456 the relevant percentage (%) or penalty amount will be determined within the tender contract or tender specifications.
453. The penalty to be applied for non-compliance with a specified contract participation goal, is as follows:

$$\text{Penalty} = (\text{CPG}^s - \text{CPG}^a) \times P^*$$

Where: **CPG^s** = The minimum Contract Participation Goal specified (expressed as a percentage).

CPG^a = The Contract Participation Goal achieved (expressed as a percentage).

P* = Accepted bid sum less provisional sums,

⁶ Expanded Public Works Programme: A national programme that aims to draw significant numbers of the unemployed into productive work.

contingencies and VAT.

- 455.8 **“the Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

Identification of preference point system

456. The tender document must stipulate —
- 456.1 the applicable preference point system as envisaged in Preferential Procurement Regulations 4, 5, 6 or 7; and
 - 456.2 the specific goal in the invitation to submit the tender for which a point may be awarded, and the number of points that will be awarded to each goal, and proof of the claim for such goal.
457. If it is unclear whether the 80/20 or 90/10 preference point system applies, the tender documents must stipulate in the case of—
- 457.1 an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - 457.2 any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system.

80/20 preference point system for acquisition of goods or services with Rand value equal to or below R50 million (Preferential Procurement Regulations 4)

458. The following formula must be used to calculate the points out of 80 for price in respect of an invitation for a tender with a Rand value equal to or below R50 million, inclusive of all applicable taxes:

$$Ps = 80 \left[1 - \frac{(Pt - Pmin)}{Pmin} \right]$$

Where :

- Ps = Points scored for price of the tender under consideration;
- Pt = Price of tender under consideration; and
- Pmin = Price of lowest acceptable tender.

- 458.1 A maximum of 20 points may be awarded to a tenderer for the specific goal specified for the tender.

- 458.2 The points scored for the specific goal must be added to the points scored for price and the total must be rounded off to the nearest two decimal places.
- 458.3 Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

90/10 preference point system for acquisition of goods or services with Rand value above R50 million (Preferential Procurement Regulations 5)

459. The following formula must be used to calculate the points out 90 for price in respect of an invitation for tender with a Rand value above R50 million, inclusive of all applicable taxes:

$$Ps = 90 \left[1 - \frac{(Pt - Pmin)}{Pmin} \right]$$

Where :

- Ps = Points scored for price of the tender under consideration;
- Pt = Price of tender under consideration; and
- Pmin = Price of lowest acceptable tender.

- 459.1 A maximum of 10 points may be awarded to a tenderer for the specific goal specified for the tender.
- 459.2 The points scored for the specific goal must be added to the points scored for price and the total must be rounded off to the nearest two decimal places.
- 459.3 Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

80/20 preference points system for tenders for income-generating contracts with Rand value equal to or below R50 million (Preferential Procurement Regulations 6)

460. The following formula must be used to calculate the points for price in respect of an invitation for tender for income-generating contracts, with a Rand value equal to or below R50 million, inclusive of all applicable taxes:

$$Ps = 80 \left[1 + \frac{(Pt - Pmax)}{Pmax} \right]$$

Where :

- Ps = Points scored for price of the tender under consideration;
- Pt = Price of tender under consideration; and
- Pmax = Price of highest acceptable tender.

- 460.1 A maximum of 20 points may be awarded to a tenderer for the specific goal specified for the tender.
- 460.2 The points scored for the specific goal must be added to the points scored for price and the total must be rounded off to the nearest two decimal places.
- 460.3 Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

90/10 preference point system for tenders for income-generating contracts with Rand value above R50 million (Preferential Procurement Regulations 7)

- 461. The following formula must be used to calculate the points for price in respect of a tender for income-generating contracts, with a Rand value above R50 million, inclusive of all applicable taxes:

$$P_s = 90 \left[1 + \frac{(P_t - P_{max})}{P_{max}} \right]$$

Where :

- P_s = Points scored for price of the tender under consideration;
- P_t = Price of tender under consideration; and
- P_{max} = Price of highest acceptable tender.

- 461.1 A maximum of 10 points may be awarded to a tenderer for the specific goal specified for the tender.
- 461.2 The points scored for the specific goal must be added to the points scored for price and the total must be rounded off to the nearest two decimal places.
- 461.3 Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

Criteria for breaking deadlock in scoring

- 462. If two or more tenderers score an equal total number of points, the contract must be awarded to the tenderer that scored the highest points for specific goals.
- 463. If two or more tenderers score equal total points in all respects, the award must be decided by the drawing of lots.

Remedies

- 464. If the City is of the view that a tenderer submitted false information regarding a specific goal, it must—
 - 464.1 inform the tenderer accordingly; and

- 464.2 give the tenderer an opportunity to make representations within 14 days as to why the tender may not be disqualified or, if the tender has already been awarded to the tenderer, the contract should not be terminated in whole or in part.
- 465. After considering the representations referred to above, the City may, if it concludes that such information is false—
 - 465.1 disqualify the tenderer or terminate the contract in whole or in part; and
 - 465.2 if applicable, claim damages from the tenderer.
