FIVE-YEAR CORPORATE SCORECARD 2022/23 TO 2026/27

THE CITY OF CAPE TOWN'S PERFORMANCE MANAGEMENT SYSTEM

The City uses performance management to drive improvements and translate its vision and strategies into actions. As this is an iterative process, performance management is also used to determine whether City actions are leading to the intended outcomes as articulated in its strategic vision and objectives.

The performance management system equips leaders, managers, workers and stakeholders with techniques for regularly planning, continuously monitoring and periodically measuring, reviewing, reporting and evaluating the performance of the City. Key performance indicators are developed and targets set to measure the economy, efficiency and effectiveness of service delivery. It is against these measures that the community can monitor the municipality and hold it accountable. The system also provides a mechanism for managing expectations.

The performance management system used in the City is much wider and more robust than what is depicted in the corporate scorecard. The corporate scorecard can only include indicators for outcomes which are solely in the City's responsibility to deliver

on. Medium to long-term outcomes which are realised by a combination of the efforts of many stakeholders and, therefore, predominantly not in the City's 'area of control', but in the City's 'area of concern'. These medium to long-term outcomes and impacts do not feature as part of the corporate scorecard, but are monitored as trends. In addition, the corporate scorecard can only include indicators which are supported by data that is owned and managed by the City and can be audited. Therefore, external data sources, such as Stats SA data, cannot be utilised as evidence in an auditable environment and cannot feature as part of the corporate scorecard.

The City of Cape Town tracks a range of trends, such as the rate of unemployment and foreign direct investments. These are not included on the scorecard as they are not the sole responsibility of the City but are tracked within the broader monitoring and evaluation system.

A corporate scorecard contains indicators and targets covering the five-year period of the IDP (2022 – 2027). This scorecard is depicted in the first table and there is a separate attachment depicting definitions. Programme outcomes not measured on the corporate scorecard will be measured at other levels in the City. The second section below depicts the format and contents required by National Treasury, and is generally referred to as the Circular 88 (C88) report. The third and fourth sections below are the scorecards of the City's entities. These are Cape Town Stadium and the Cape Town International Convention Centre (CTICC). The definitions related to the latter two scorecards are also attached.

In summary the following Annexures will be attached to the IDP:

- Corporate scorecard and definitions
- Entities' scorecards and definitions – Cape Town Stadium and CTICC
- Circular 88 scorecards and definitions

ANNEXURES - 2022-2027 FIVE- YEAR CORPORATE SCORECARD DEFINITIONS

2022-2027 FIVE-YEAR CORPORATE SCORECARD DEFINITIONS		
PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
Economic growth 1.Increased jobs and investment in the Cape Town economy	1.A Building plans (<500m2) approved within 30 days (%)	Measures the percentage of buildings plans approved within statutory timeframes (30 days). The approval of building plans is measured within the statutory timeframes of 30 days for structures of <500 m². Section A7 of the National Building Regulations Act 103 of 1977.
	1.B Building plans (>500m2) approved within 60 days (%)	Measures the percentage of buildings plans approved within statutory timeframes (60 days). The approval of building plans is measured within the statutory timeframes of 60 days for structures of >500 m². Section A7 of the National Building Regulations Act 103 of 1977.
	1.C Property Revenue clearance certificates issued within 10 working days (%)	Measures the percentage of revenue clearance certificates issued by the municipality within 10 working days of a completed submission. A revenue clearance certificate is issued by the relevant local municipality, and reflects all of the debts collected on the property, including rates. The purpose of this document is to prove that all the outstanding debt on the property has been paid by the seller. A completed submission refers to the point in time when all necessary information has been supplied in relation to the certificate. The 10 days, in this instance, refers to 10 working days, not days of the week. Proxy measure for C88 LED3.21.
	1.D Commercial electricity services applications finalised within industry standard timeframes (%)	Measures the percentage of commercial electricity services applications finalised within industry standard timeframes as set by National Rationalised Standard (NRS 047). Refers specifically to the time taken from the acceptance of quotation until supply is finalised. The exact length of the timeframe is determined by agreement with the customer.
	1.E Council approved trading plans developed or revised for informal trading (number)	Measures the number of Council-approved trading plans developed or revised for informal trading. A trading plan demarcates trading areas within a particular ward or precinct, thereby giving security of tenure to traders and allowing the City to undertake necessary infrastructure upgrades to the facilities to enable dignified and accessible trading opportunities. Trading plans undergo an extensive public consultative process with all stakeholders in an area and they are deemed completed when they are finally passed by full council.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
Basic services 2. Improved access to quality and reliable basic services	2.D Subsidised electricity connections installed (number) (NKPI)	Measures the number of subsidised electricity connections installed per annum in informal settlements, public rental stock backyard dwellings (pilot) and low-cost housing. Proxy measure for NKPI per MSA Regulation 10(a).
Basic services 3. End load-shedding in Cape Town over time	3.A Capacity of additional approved alternative energy sources (small-scale embedded generation (SSEG)) grid tied installations (MegaVolt Ampere)	Measures the total capacity of the additional approved small-scale embedded generation (SSEG) installations in the municipal distribution network measured in mega-volt ampere. (SSEG refers to alternative energy sources, predominantly solar and wind). Proxy measure for C88 EE4.12.
	3.B Load-shedding level variance (%)	Load-shedding level variance measures the amount of additional energy generated by the City and its contracted suppliers during load-shedding as a percentage of the total demand reduction required by Eskom to keep the network stable.
	4.A Sewer reticulations pipeline replaced (metres)	Measures the metres of wastewater reticulation pipeline that are replaced.
	4.B Compliance with drinking water quality standards (%)	Measures the potable water sample pass rate according to the SANS 241 standard.
	4.C Total augmented water capacity in mega litres per day (MlD)	Measures the augmented water production capacity brought online from New Water Programme schemes since the adoption of the Cape Town Water Strategy in 2020 measured in megalitres per day (MlD) as a cumulative total.
Basic services 4. Well-managed and modernised infrastructure to support economic growth	4.D Valid applications for residential water services closed within the response standard (%) (NKPI)	Measures the number of valid applications for residential water service applications closed within the standard days, expressed as a percentage of the total number of valid applications for residential water service received. Proxy measure for NKPI per MSA Regulation 10(a).
	4.E Valid applications for residential sewerage services closed within the response standard (%) (NKPI)	Measures the number of valid applications for residential sewerage service applications closed within the standard days, expressed as a percentage of the total number of valid applications for residential sewerage service received. Proxy measure for NKPI per MSA Regulation 10(a).
	4.F Service requests for non-collection of refuse resolved within three days (%) (NKPI)	Measures the number of non-collections for residential refuse removal, reported and closed within three days, expressed as a percentage. Proxy measure for NKPI per MSA Regulation 10(a).
	4.G Residential electricity services applications finalised within industry standard timeframes (%) (NKPI)	Measures the percentage of residential electricity services applications finalised within industry timeframes. Refers specifically to the time taken from the acceptance of quotation until supply is finalised. The exact length of the timeframe is determined by the nature of the work required in order to provide the supply. Proxy measure for NKPI per MSA Regulation 10(a).
Safety 5. Effective law enforcement to make communities safer	5.A Drone flights used for safety and security activities (number)	Measures the drone flights used for approved safety and security activities through utilisation of partnerships and contracts, in which the drone technology offers enhanced situational awareness and evidence gathering in order to the benefit of community safety. Seasonal (weather) constraints, as well as the unknown nature of S&S operations will dictate different quarterly utilisation statistics.

2022-2027 FIVE-YEAR CORPORATE SCORECARD DEFINITIONS

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
Safety 5. Effective law enforcement to make communities safer	5.A Drone flights used for safety and security activities (number)	Measures the drone flights used for approved safety and security activities through utilisation of partnerships and contracts, in which the drone technology offers enhanced situational awareness and evidence gathering in order to the benefit of community safety. Seasonal (weather) constraints, as well as the unknown nature of S&S operations will dictate different quarterly utilisation statistics.
	5.B Roadblocks focussed on drinking and driving offences (number)	Measures the number of roadblocks held with the focus on addressing drinking and driving offenses of motorists.
	5.C Closed-circuit television (CCTV) detected incidents relayed to responders (number)	Measures the number of incidents detected on CCTV that were relayed to responders. CCTV incidents monitored by the two CCTV centres require a response in order to deal with an incident. All incidents that require a response must be relayed to the relevant department that can deal with the incident accordingly i.e. crime, traffic, by-law, fire, other. The number of incidents detected and relayed/passed on to responders for attention.

Strengthen partnerships for safer communities	6.A New auxiliary law enforcement officers recruited and trained (number)	Measures the number of new auxiliary law enforcement officers recruited and trained, in terms of the City's Auxiliary Law Enforcement Policy. Auxiliary is defined as a person contracted to the City on a voluntary basis who while on duty has the full status of being a Peace Officer in terms of Section 334 of the Criminal Procedure Act 51 of 1977.
	6.B Client satisfaction survey for neighbourhood watch programme (%)	Measures the percentage client satisfaction achieved, by means of a survey after every community engagement, in respect of the main deliverables of the neighbourhood watch support programme i.e. (a) Crime prevention training, (b) Patrol and crime prevention equipment issued (c) Guidance provided in respect of Department of Community Safety (DoCS) accreditation and (d) Guidance provided in respect of crime prevention initiatives.
Housing 7. Increased supply of affordable, well-located homes	7.A Well-located land parcels released to the private sector for affordable housing (number)	Measures the number of well-located land parcel released to the private sector. Land parcel refers to a single and finite immovable asset with a measurable extent. Land parcel is confirmed as released through final award notification, allowing the developer to commence with development.
	7.B Human Settlement Top structure (houses) provided (number) per housing programme	<p>Measures the number of Human Settlement top structures provided per housing programme .Top structures are defined as any built structure providing shelter to a household in a human settlements development by means of any national housing programme, where the main source of funding is the Human Settlements Development Grant (HSDG) in terms of the Division of Revenue Act (DoRA) for such purpose.</p> <p>Definition of a human settlements opportunity per housing programme: A human settlements opportunity is incremental access to and/or delivery of one of the following housing products:</p> <p>(A) subsidy housing (BNG), which provides a minimum 40 m² house;</p> <p>(B) People's Housing Process (PHP) are beneficiaries who maximise their housing subsidy by building or organising the building of their homes themselves;</p> <p>(C) social housing is new rental units, delivered by the City's social housing partners;</p> <p>(D) rental housing, which is community residential units (CRUs), upgrading and redevelopment of existing rental units and hostels; and</p> <p>(E) gap housing is a serviced site, or affordable units for sale</p>

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
Housing 7. Increased supply of affordable, well-located homes	7.C Formal housing service site provided (number)	Measures the number of formal service sites provided. A serviced site is defined as any property providing municipal services (road, water and sewerage) on an individual basis to a household, including high-density residential sites, as well as other non-residential sites related to integrated human settlements developments. The main source of funding for serviced sites is the Urban Settlements Development Grant (USDG) and the Informal Settlement Upgrading Partnership Grant (ISUPG) in terms of the Division of Revenue Act (DoRA) for such purpose.
	7.D Land acquired for human settlements in Priority Housing Development Areas (hectares)	Measures the hectares of land acquired for human settlements in priority housing development areas. Hectares of land acquired for human settlements within PHDAs by the municipality. PHDAs are defined as areas announced by the Minister of Human Settlements in terms of Section 7 (3) of the Housing Development Agency Act, 2008 read with section 3.2 of the Housing Act. These are areas intended to advance Human Settlements Spatial Transformation and Consolidation by ensuring that the delivery of housing is used to restructure and revitalise towns and cities, strengthen the livelihood prospects of households and overcome apartheid spatial patterns by fostering integrated urban forms. PHDAs are underpinned by the principles of the National Development Plan (NDP) and the Integrated Urban Development Framework (IUDF). Emphasis is placed on synchronising national housing programmes in PHDAs. Therefore, this refers to land acquired in an agreement between at least two parties for which transfer documents have been registered at the title deeds office. The land is understood to have been acquired with the intention of advancing human settlements development within the PHDAs, subject to the subsequent completion of any outstanding planning and approval processes. Proxy measure for C88 HS1.13.
	7.E Transfer of ownership to new beneficiaries (number)	Measures the registration of title in the name of the new beneficiary, confirmed by the issuing of a title deed.
Housing 8. Safer, better-quality homes in informal settlements and backyards over time	8. Mechanisms may include stewardship agreements, conventional protected areas, and biodiversity agreements, among others. Proxy measure for C88 ENV4.21.

2022-2027 FIVE-YEAR CORPORATE SCORECARD DEFINITIONS

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
Public space, environment and amenities Objective 9. Healthy and sustainable environment	9.B Biodiversity priority areas remaining (hectares)	Measures the hectares of biodiversity priority areas remaining. Proportional share of land cover categories aggregated to relate to biodiversity priority areas in the municipality, relative to the total municipal area. It indicates the presence of available habitats across a municipal area important for maintaining ecological processes, expressed in ha. A decline over time indicates a loss of land supporting biodiversity and local ecosystems. Biodiversity priority areas, or areas of high biodiversity importance, are defined by SANBI (2016) as "Natural or semi-natural areas in the landscape or seascape that are important for conserving a representative sample of ecosystems and species, for maintaining ecological processes, or for the provision of ecosystem services." Proxy measure for C88 ENV4.11.
	9.C Severe/moderate dehydration in children under the age of five presenting at City health facilities with diarrhoea (%)	Measures the percentage of children under five years with diarrhoea presenting to City Health facilities that have severe or moderate dehydration.
Public space, environment and amenities Objective 10. Clean and healthy waterways and beaches	10.A Coastline with protection measures in place (%)	Measures the percentage of coastline with protection measures in place within the municipal area. Protection measures refer to measures for protecting the coastal environment from activities that may detrimentally affect it and are inclusive of periodic maintenance. Protection measures are divided into four main categories: <ul style="list-style-type: none"> • Hard (options influence coastal processes to stop or reduce the rate of coastal erosion.); • Soft (aim to dissipate wave energy by mirroring natural forces and maintaining the natural topography of the coast); • Combined (combining hard and soft solutions is sometimes necessary to improve the efficiency of the options and provide an environmentally and economically acceptable coastal protection system); and • Innovative (exploited advancements in specific areas of engineering associated with erosion control namely geotextiles and beach drainage). Protection measures are therefore inclusive of managed retreat too. Proxy measure for C88 ENV5.11.
	10.B Days in a year that vleis are open (%)	Measures the percentage of days in a year that the Rietvlei, Zeekoevlei and Zandvlei are open to intermediate contact recreation, excluding dredging and other management activities.
Environment, public space, and amenities 11. Quality and safe parks and recreation facilities supported by community partnerships	11.A Recreation and parks open space mowed according to annual mowing plan (%)	Measures the implementation of the Recreation and Parks Department's public open space mowing activities during the year compared to what was planned on the mowing schedule. The minimum mowing cycle targets, and ability to meet these targets, are directly linked to the budget available for the project. The measurement is the frequency of actual moving versus what was planned on the mowing schedule, measured as a percentage. Actual implementation to be compared to what was planned, using minimum mowing standards as articulated in the departments documented "standards per facility type".

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
Transport 12. A sustainable transport system that is integrated, efficient and provides safe and affordable travel options for all	12.A Passengers transported for each kilometre scheduled on MyCiTi buses (ratio)	Measures the ratio of the passengers transported for each kilometre scheduled on MyCiTi buses. The aim is to have more passengers travelling per kilometre scheduled on the MyCiTi transport system. The purpose of the indicator is to measure efficiency improvements in the usage of MyCiTi buses.
	12.B Passenger journeys travelled on MyCiTi buses (number)	Measures the number of passenger journeys travelled on MyCiTi buses. An efficient, integrated transport system is measured in part through the increase in passenger journeys undertaken. A passenger journey is calculated from the first boarding of a bus at a feeder stop or main station to the last exit from a bus at a feeder stop or main station, including any transfers between buses (single journey).
	12.C Road corridors on which traffic signal timing plans are updated (number)	Measures the number of road corridors on which the traffic signal timing plans were updated to account for the impact of changing traffic volumes and patterns on the manner in which traffic signals are coordinated.
Transport 13. Safe and quality roads for pedestrians, cyclists and vehicles	13.A Surfaced road resurfaced (km)	Measures the km of surfaced roads resurfaced.
	13.B Potholes reported per 10 kms of municipal road network (number)	Measures the number of potholes reported to the municipality normalised for the length of the municipality's surfaced road network. A municipal road network typically consists of residential roads and roads in built-up areas within its borders, that allow for the movement of goods, services and people that are the responsibility of the municipality to maintain. Potholes are defined as a depression in a road surface, usually asphalt pavement, where traffic has removed broken pieces of the pavement. It is usually the result of water in the underlying soil structure and traffic passing over the affected area. This indicator does not count multiple reports of the same pothole at the same location. This indicator is worded such that potholes are counted once and only once they have been reported, signalling awareness of and dissatisfaction with road quality by the public. Proxy measure for C88 TR6.2.
A resilient city 14. A resilient city	14.A Public safety awareness and preparedness sessions held in the communities (number)	Measures the number of public and safety awareness sessions with communities based on various risk profiles, community based risk assessments and social media contact.
	14.B Disaster Risk Management volunteer/auxiliary staff members appointed (number)	Measures the number of disaster risk management volunteer/auxiliary members recruited from the community and after appropriate training they are officially appointed as volunteers.
	14.C Storm water cleaning budget spent (%)	Measures the percentage budget spent on storm water cleaning.
A more spatially integrated and inclusive city 15. A more spatially integrated and inclusive city	15.A Local neighbourhood plans approved for mixed use development (number)	Measures the number of local neighbourhood plans approved by Council. A local neighbourhood plan could be a spatial development framework or a precinct plan that identifies areas for, amongst others, mixed use development, which would facilitate integration of land uses.

2022-2027 FIVE-YEAR CORPORATE SCORECARD DEFINITIONS

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
A capable and collaborative city government 16. A capable and collaborative city government	16.A Community satisfaction citywide survey (score 1-5)	<p>Measures the score on the community satisfaction citywide survey. A statistically valid, scientifically defensible score from the annual survey of residents' perceptions of the overall performance of the City's safety and security services.</p> <p>The measure is given against a non-symmetrical Likert scale, where 1 is poor, 2 is fair, 3 is good, 4 is very good, and 5 is excellent. The objective is to improve the current customer satisfaction level.</p>
	16.B Opinion of independent rating agency	Measure the opinion of the independent rating agency. A report that reflects the creditworthiness of an institution to repay long-term and short-term liabilities. Credit ratings provide an analysis of the City's key financial data and are performed by an independent agency to assess the City's ability to meet short and long-term financial obligations. Indicator standard/norm/benchmark: The highest rating possible for local government, which is also subject to the country's sovereign rating.
	16.C Opinion of the Auditor-General	Measures the opinion of the AG. The indicator measures good governance and accounting practices and will be evaluated and considered by the AG in determining their opinion. The AG has various approved opinions and the City will be measured against these opinions based on the outcome of the audit.
	16.D Spend of capital budget (%) (NKPI)	Measures the extent to which capital expenditure has been spent based on the original budget during the financial year. Capital expenditure is all costs incurred by the municipality to acquire, upgrade, and renew physical assets such as property, plants, buildings, technology, or equipment. Proxy measure for NKPI per MSA Regulation 10(c). Proxy measure for C88 FM1.11.
	16.E Cash/cost coverage ratio (NKPI)	Measures the cash/cost coverage ratio. The ratio indicates the ability to meet at least monthly fixed operating commitments from cash and short-term investments, without collecting any additional revenue during that month. (excluding unspent conditional grants). Proxy measure for NKPI per MSA Regulation 10(g).
	16.F Net debtors to annual income (NKPI)	Measures the Net Debtors to annual income. Net current debtors are a measurement of the net amounts due to the City that are realistically expected to be recovered. Proxy measure for NKPI per MSA Regulation 10(g).
	16.G Debt (total borrowings) to total operating revenue (NKPI)	Measures the Debt to total operating revenue. The purpose of the ratio is to provide assurance that sufficient revenue will be generated to repay liabilities. Proxy measure for NKPI per MSA Regulation 10(g).
	16.H Kilometres of fibre infrastructure for broadband connectivity installed (km)	Measures the Kilometres of fibre cable installed by the City, this excludes all private sector infrastructure networks.
	16.H Kilometres of fibre infrastructure for broadband connectivity installed (km)	Measures the Kilometres of fibre cable installed by the City, this excludes all private sector infrastructure networks.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
A capable and collaborative city government 16. A capable and collaborative city government	16.I Employees from the EE designated groups in the three highest levels of management (%) (NKPI)	Measures the percentage of employees from employee equity (EE) target (designated) groups employed in the three highest levels of management, in compliance with the City's approved EE plan and EE Act. Management Level 1 – City Manager and Executive Directors Management Level 2 – Portfolio Managers and Directors Management Level 3 – Managers Proxy measure for NKPI per MSA Regulation 10(e).
	16.J Budget spent on implementation of Workplace Skills Plan (%) (NKPI)	<p>Measures the percentage of budget spent on the Workplace Skills Plan The Workplace Skills Plan outlines the planned education, training and development interventions for the organisation.</p> <p>Its purpose is to formally plan and allocate budget for appropriate training interventions that will address the needs arising out of local government's skills sector plan, the IDP, the individual departmental staffing strategies, individual employees' personal development plans and the employment equity plan. Proxy measure for NKPI per MSA Regulation 10(f).</p>
	16.K Adherence to service requests (%)	Measures the percentage of adherence to service request. Service requests must be adhered to within the approved timeframes. This indicator measures the percentage adherence to citywide service standards based on external notifications. External notifications are requests for services from the public.

2022-2027 CIRCULAR 88 (C88) OUTCOMES SCORECARD DEFINITIONS			
PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
Economic growth 1. Increased Jobs and Investment in the Cape Town economy	LED2. Improved levels of economic activity in municipal economic spaces	LED2.1 Rates revenue as a percentage of the total revenue of the municipality	The R-value of property rates revenue collected by the municipality as a percentage of the total revenue collected by the municipality. Municipal property rates are an amount levied on the market value of immovable property (that is, land and buildings). Revenue, in this instance, refers to income collected by the municipality in R-value within the designated financial period.
		LED2.2 Rateable value of commercial and industrial property per capita	This is the aggregate value of all commercial and industrial land captured on the valuation roll of the municipality, inclusive of additions to the supplementary valuation roll on an annual basis. This should be calculated on the same basis as per the annual financial statements.
Basic services 2. Improved access to quality and reliable basic services	WS1. Improved access to sanitation	WS1.1 Percentage of households with access to basic sanitation [NTRR ¹¹]	Percentage of households accessing ("using") a toilet facility that meets minimum standards for basic sanitation out of all households within the municipality. Minimum standards are currently defined as either a flush toilet (sewerage system) and/or flush toilet (septic tank), and/or a pit toilet connected to ventilation (VIP).
	WS2. Improved access to water	WS2.1 Percentage of households with access to basic water supply [NTRR ¹²]	Percentage of households with access to basic water supply, defined as the household's main source of drinking water is piped (tap) water inside dwelling/house, piped (tap) water inside yard, and/or piped water to a community stand: <200 m.

Basic services 2. Improved access to quality and reliable basic services	WS3. Improved quality of water and sanitation services	WS3.1 Frequency of sewer blockages per 100 KMs of pipeline	Number of blockages in sewers per 100km of sewer length per year. Blockages are defined as reported or logged blockages that result in an obstruction of system flow which may be caused by roots, obstructive items or other pipeline disruption.
		WS3.2 Frequency of water mains failures per 100 km of pipeline	Number of water mains failures per 100 km of mains pipe per year. "Mains" refers to all transmission and distribution pipes for water, the ownership of which is vested in the metro for the purpose of conveying water to consumers.
		WS3.3 Frequency of unplanned water service interruptions	Number of interruptions averaged per 1 000 service connections per year. Interruptions are understood as occurring at the source and do not include the number of consumer units affected by an interruption.
	ENV2. Minimised solid waste	ENV2.1 Tonnes of municipal solid waste sent to landfill per capita	The percentage of the city's solid waste that is disposed of in licensed (sanitary) landfills.
		ENV2.2 Tonnes of municipal solid waste diverted from landfill per capita	The tonnage of the city's solid waste that is recycled at centralised recycling centres, divided by the total population of the municipality. Recycled materials include those materials diverted from the waste stream, recovered and processed into new products following local government permits and regulations (International Solid Waste Association).
	ENV3. Increased access to refuse removal	ENV3.1 Percentage of households with basic refuse removal services or better [NTRR ¹³]	Households with basic refuse removal services or better (defined as a minimum of once weekly collection as defined in the back-to-basics framework) as a percentage of total municipal households.
		ENV3.2 Percentage of scheduled waste collection service users reporting non-collection	This is a measure of the number of scheduled waste collection service users who report an instance of non-collection of scheduled waste collection out of the total population of scheduled waste service users based on the number of municipal scheduled waste removal collection points. A scheduled waste collection service user is someone residing at a site for which the municipality provides a scheduled collection service on a weekly basis. The indicator measures the number of reported instances of non-collection of scheduled waste collection in relation to the total number of service points.

Basic services 3. Ending load-shedding in Cape Town over time	EE1. Improved access to electricity	EE1.1 Percentage of households with access to electricity [NTRR ¹⁴]	Percentage of households that have access to electricity services within the municipal area.
	EE3. Improved reliability of electricity service	EE3.5 Average System Interruption Duration Index (ASIDI)	ASIDI of a network is calculated using a load based approach rather than a customer affected approach, and is recommended in utilities where updated customer-network links are not available. ASIDI indicates the average system interruption duration in minutes per KVA served over a defined period.
		EE3.6 Average System Interruption Frequency Index (ASIFI)	ASIFI of a network is calculated using a load based approach rather than a customer affected approach, and is recommended in utilities where updated customer-network links are not available. ASIFI indicates the average system interruptions over a defined period.
	EE4. Improved energy sustainability	EE4.4 Percentage total electricity losses	Electricity losses have two components: technical and non-technical. Technical losses occur naturally and consist mainly of power dissipation in electricity system components such as transmission and distribution lines, transformers, and measurement systems. Non-technical losses are caused by actions external to the power system and consist primarily of electricity theft, faulty or inaccurate meters, and errors in accounting and record-keeping. Losses is a measure of unaccounted for energy. Thus, non-payment is not included as losses.
Basic services 4. Well-managed and modernised infrastructure to support economic growth	WS4. Improved quality of water (incl. wastewater)	WS4.1 Percentage of drinking water samples complying to SANS241	The percentage of water samples measured that comply with the SANS 241 requirements over a 12-month period for the defined parameters. See the SANS 241 requirements for a detailed breakdown of the various tests involved and the associated standard limits for application.
		WS4.2 Percentage of wastewater samples compliant to water use license conditions	Percentage of wastewater quality compliance to specified licence/permit/authorisation requirements tested during the municipal financial year. The percentage is calculated on the basis of aggregated results per water use license determinant.
	WS5. Improved water sustainability	WS5.1 Percentage of non-revenue water	Non-revenue water is defined as the sum of unbilled authorized consumption, apparent losses (unbilled unauthorised consumption and meter inaccuracies) and real losses (from transmission mains, storage facilities, distribution mains or service connections).
		WS5.2 Total water losses	Total (apparent and real) losses, expressed in terms of annual volume lost per service connection per day.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
Basic services 4. Well-managed and modernised infrastructure to support economic growth	WS5. Improved water sustainability	WS5.3 Total per capita consumption of water	The total system input volume minus the total exported (raw and treated) water per population per day of the assessment period.
		WS5.4 Percentage of water reused	The total volume of water recycled and reused as a percentage of the system input volume. System input should include water abstracted and all imported water (raw and treated). Water that has been 'recycled and reused' refers to water reclaimed from discharge sources that is then treated and reused for beneficial purposes including but not limited to: agriculture and irrigation, potable water supplies, groundwater replenishment, industrial processes and environmental restoration. For the purpose of this indicator, it measures only municipal wastewater treated for direct use, inclusive of irrigation purposes.
Safety 5. Effective law enforcement to make communities safer	FD1. Mitigated effects of fires and disasters	FD1.1 Number of fire related deaths per 100 000 population	This is a measure of the incidence of reported deaths by the municipality attributed to fire or fire-related causes (e.g. smoke inhalation), normalised per population. This refers to municipal reporting of all known deaths related to fire within the municipal area.
		FD1.2 Number of disaster and extreme weather-related deaths per 100 000 population	This indicator measures the incidence of reported deaths that a municipality considers to be the direct or indirect result of disaster incidents and extreme weather events, normalised per population. Disaster is defined in terms of the Disaster Management Act as "a progressive or sudden, widespread or localised natural or human-caused occurrence which- a) causes or threatens to cause- i) death, injury or disease; ii) damage to property, infrastructure or the environment; or iii) disruption of life of a community; and b) is of a magnitude that exceeds the ability of those affected by the disaster to cope with its effects using only their own resources". Extreme weather refers to unexpected, unusual, severe or unseasonal weather events; weather at the extremes of the historical distribution of the range seen in the past. This could be inclusive of heat waves, flooding, drought, storm surges, etc. Where fires are the result of extreme weather events or disasters, they would also be considered within this indicator, but would otherwise find expression in the other indicator.

2022-2027 CIRCULAR 88 (C88) OUTCOMES SCORECARD DEFINITIONS

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
Safety 5. Effective law enforcement to make communities safer	GG2. Improved municipal responsiveness	GG2.3 Protest incidents reported per 10 000 population	The number of protest incidents without municipal authorisation reported to have taken place on a public road or public space within municipal boundaries in the past financial year normalised per the population. This indicator tracks all unauthorised protests reported to occur within the municipal area, not only those related to service delivery. An unauthorised protest is a public display of grievance or concern by a group of more than 15 people for which a written approval from the local municipality has not been obtained in advance. Reported incidents means every unique incident of protest which the municipality has received a direct or indirect report for, whether in-progress or after the fact, regardless of whether the protest was aimed at the municipality or not.
Housing 7. Increased supply of affordable, well-located homes	HS2. Improved functionality of the residential property market	HS2.2 Percentage of residential properties in the subsidy market HS2.3 Percentage of households living in formal dwellings who rent [NTRR ¹⁵]	This indicator measures the total number of formalised residential properties on the municipal valuation roll valued at R150 000 or less- what is commonly recognised as the subsidy market range. All residential properties, including those that are zero-rated, are considered in this indicator. This number is divided by the total number of residential properties on the municipal valuation roll (and supplementary valuation roll). The total number of all households in the metro which regularly pay a sum of money or provide a service in return for a place of residence to a second party for the use of residential purposes in formal dwellings as a proportion of all households living in formal dwellings. The tenure status in the General Household Survey will be the sum of the two categories: "1 = Rented from private individual" and "2 = Rented from other (incl. municipality and social housing institutions)".
Housing 8. Safer, better-quality homes in informal settlements and backyards over time	HS1. Improved access to adequate housing	HS1.1 Percentage of households living in adequate housing [NTRR ¹⁶]	Adequate housing' has seven elements: legal security of tenure, services, affordability, habitability, accessibility, location and cultural adequacy. For the purposes of this indicator, adequate housing is defined as 'formal' housing in terms of the Stat SA definition used in the general household survey, which is "A structure built according to approved plans, i.e. house on a separate stand, flat or apartment, townhouse, room in backyard, rooms or flatlet elsewhere", thereby excluding informal (whether in informal settlement or backyard) and traditional dwellings. The indicator is therefore the number of households residing in formal dwellings as a percentage of the total number of households in the municipality.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
Public space, environment and amenities 9. Healthy and sustainable environment	ENV1. Improved air quality	ENV1.1 Annual number of days with GOOD air quality	The indicator provides a measure of the number of days in the municipality where air quality at representative monitoring sites remained at "good" levels or better in terms of air quality standards. "Good" air quality – refers to when the monitoring sites report ambient air levels of NO ₂ , SO, O ₃ , PM ₁₀ , PM _{2.5} and CO monitoring within a given day that are in compliance with ambient standards (complete 24 hour period). This measures the number of days within the calendar year in which selected sites report 'good' air quality, recognising the different reporting intervals for the different measures and the fact that not all sites will sample for all pollutants.
		ENV1.3 Percentage of households experiencing a problem with noise pollution [NTRR ¹⁷]	The percentage of households that report "excessive noise/noise pollution" as an environmental problem experienced in their community.
Public space, environment and amenities 10. Clean and healthy waterways and beaches	ENV5. Coastal and inland water resources maintained	ENV5.1 Recreational water quality (coastal)	The percentage of annual recreational coastal water samples taken which met the minimum requirement for recreational water quality, namely "sufficient".
Public space, environment and amenities 11. Quality and safe parks and recreation facilities supported by community partnerships	HS3. Increased access to and utilisation of social and community facilities	HS3.5 Percentage utilisation rate of community halls	The percentage of available hours across all community halls that are booked in a year.
		HS3.6 Average number of library visits per library	The average number of library visits per library per year. This measures only municipality managed libraries.
		HS3.7 Percentage of municipal cemetery plots available	The number of burial plots currently available within active, municipal-owned cemeteries as a percentage of the total amount of burial plots in all municipal-owned cemeteries. Municipalities may have different policies and approaches providing for available plots, including where 'stacking' or other provisions for burial are made. Based on the municipalities current policy provisions and used plots, the indicator measures what percentage of the total available cemetery capacity in active cemeteries is currently utilised.

Transport 13. Safe and quality roads for pedestrians, cyclists and vehicles.	TR6. Improved quality of municipal road network	TR6.2 Number of potholes reported per 10 km of municipal road network	The indicator measures the number of potholes reported to the municipality normalised for the length of the municipality's surfaced road network. A municipal road network typically consists of residential roads and roads in built-up areas within its borders, that allow for the movement of goods, services and people that are the responsibility of the municipality to maintain. Potholes are defined as a depression in a road surface, usually asphalt pavement, where traffic has removed broken pieces of the pavement. It is usually the result of water in the underlying soil structure and traffic passing over the affected area. This indicator does not count multiple reports of the same pothole at the same location. This indicator is worded such that potholes are counted once and only once they have been reported, signalling awareness of and dissatisfaction with road quality by the public. Each municipality may have different systems or protocols to determine when it receives multiple reports for the same pothole. The standard operating procedure by the municipality for the indicator should be instructive in this regard.
A capable and collaborative City government 16. A capable and collaborative City government	GG1. Improved municipal capability	GG1.1 Percentage of municipal skills development levy recovered GG1.2 Top management stability	The indicator is a measure of the R-value of the municipal skills development levy recovered for the financial year as a percentage of the total municipal skills development allocation which the municipality could have claimed. The skills development levy is a levy imposed to encourage learning and development in South Africa as a percentage of the municipal salary bill. The funds are paid to the South African Revenue Service and can be recovered on the completion of successful skills development. Top management is defined as Section 56 and 57 managers, as per the Municipal Systems Act (2000). This refers to the number of working days in which all of the top management positions in the municipality are filled by full-time employees not in an acting position, as a percentage of the total number of possible working days for those positions in a calendar year.
	GG2. Improved municipal responsiveness	GG2.1 Percentage of ward committees that are functional (meet four times a year, are quorate, and have an action plan)	The percentage of ward committees that are deemed to be 'functional' out of all wards in the municipality. Functional is defined as- they have an agreed annual ward committee action plan by end of Q1 of the year under review and had at least four quorate meetings in that year.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
A capable and collaborative City government 16. A capable and collaborative City government	GG3. Improved municipal administration	GG3.1 Audit Outcome	The Audit Opinion is defined by the Auditor-General. It is given across a qualitative, ordinal scale including: Unqualified with no findings; Unqualified with findings; Qualified with findings; Adverse with findings; and Disclaimed with findings. For those who have not completed the process 'Outstanding audits' are recorded.
	GG4. Improved council functionality	GG4.1 Percentage of councillors attending council meetings	The average percentage of members of the municipal council that attended council meetings.
	GG5. Zero tolerance of fraud and corruption	GG5.1 Number of alleged fraud and corruption cases reported per 100 000 population	The number of alleged incidents of fraud and corruption reported to the municipality during the period under review, normalised per 100 000 of the population. Corruption is defined broadly in the Prevention and Combating of Corrupt Activities Act 12 of 2004 in Chapter 2(s3) and any criminal offence that may fall within the ambit of this definition is included for the purposes of this indicator.
		GG5.2 Number of dismissals for fraud and corruption per 100 000 population	The number of dismissals for fraud and corruption reported to the municipality during the period under review, normalised per 100 000 of the population. Corruption is defined broadly in the Prevention and Combating of Corrupt Activities Act 12 of 2004 in Chapter 2(s3) and any criminal offence that may fall within the ambit of this definition is included for the purposes of this indicator.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.1 Percentage of expenditure against total budget	The indicator measures the percentage of expenditure in relation to the municipal budget. Expenditure refers to costs incurred by the municipality in the applicable financial year, inclusive of all capital and operational spending. The municipal budget refers to the municipal council approved annual budget for a particular financial year.
		FM1.2 Municipal budget assessed as funded (Y/N) (National) [NTRR ¹⁸]	The budget is assessed in line with Section 18 of the municipal finance management act (MFMA), which states that a budget is funded from either revenue realistically to be collected and accumulated cash backed reserves not committed for other purposes. Accumulated cash backed reserves refers to surpluses accumulated from previous years not committed for other purposes.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
A capable and collaborative City government 16. A capable and collaborative City government	FM1. Enhanced municipal budgeting and budget implementation	FM1.2 Municipal budget assessed as funded (Y/N) (National) [NTRR ¹⁹]	The budget is assessed using the following criteria, namely i) credibility - to determine if the budget is funded in terms of Section 18 of the MFMA, if the municipality adopted a budget process with evidence of sufficient political oversight and public participation revenue planning framework and associated budget assumptions are realistic and indicative of multi-year budgeting ii) relevance - to assess if the budget is aligned to the reviewed Integrated Development Plan (IDP) of the municipality and the extent to which national and provincial priorities, including MFMA Budget Circulars, are considered iii) sustainability - to assess whether the budget supports the long-term financial planning and operational sustainability of the municipality over the Medium Term Revenue and Expenditure Framework (MTREF). National Treasury assess the tabled budget using the budget assessment tool and make recommendations to the municipality for consideration.
	FM2. Improved financial sustainability and liability management	FM2.1 Percentage of total operating revenue to finance total debt (total debt (borrowing)/ total operating revenue	The purpose of the indicator is to provide assurance that sufficient revenue will be generated to repay Liabilities. Alternatively, it assesses the municipality's affordability of the total borrowings.
		FM2.2 Percentage change in cash backed reserves reconciliation	The indicator measures the extent to which a municipality increases its reserves and the basis of cash backing of reserves. Data elements, for the purpose of this indicator, are drawn from the data contained in the budget table A8.
	FM3. Improved liquidity management	FM3.1 Percentage change in cash and cash equivalent (short term)	The purpose of this indicator is to assess the level of liquidity in the municipality. A municipality with improved cash and cash equivalent is considered to be financially healthy and sustainable.
	FM4. Improved expenditure management	FM4.1 Percentage change of unauthorised, irregular, fruitless and wasteful expenditure	The indicator measures the extent to which the municipality has incurred irregular, fruitless and wasteful and unauthorised expenditure. Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Irregular expenditure is incurred by the municipality in contravention of a requirement of the law. Unauthorized expenditure includes overspending of the total amount appropriated in the approved budget.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
A capable and collaborative City government 16. A capable and collaborative City government	FM4. Improved expenditure management	FM4.2 Percentage of total operating expenditure on remuneration	The indicator measures the extent of remuneration costs to total operating expenditure. To control this indicator, an organisational review needs to be performed to address duplications and inefficiencies. The municipality needs to implement a proper remuneration policy and performance management system. Remuneration includes employee related costs (permanent and short term contracts) and remuneration for councillors.
		FM4.3 Percentage of total operating expenditure on contracted services	This indicator measures the extent to which the municipality financial resources are committed towards contracted services to perform municipal related functions. Contracted services refers to costs incurred by the municipality in relation to services performed on behalf of the municipality by another agency or personnel. This includes outsourced services, contractors and professional and special services.
	FM5. Improved asset management	FM5.1 Percentage change of own funding (Internally generated funds + borrowings) to fund capital expenditure	The indicator measures the year-on-year growth of own funding to fund capital expenditure of the municipality. Internally generated funds refers to monies received from borrowings and municipal operating revenue to fund capital expenditure.
		FM5.2 Percentage change of renewal/upgrading of existing assets	This indicator measures the year-on-year percentage change of assets renewal/upgrading. It also assesses whether the municipality has improved its investment towards asset renewal as required. Renewal/Upgrading of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as restoration of the service potential of the asset.
		FM5.3 Percentage change of repairs and maintenance of existing infrastructure	This indicator measures the extent to which the municipality spent on repairs and maintenance of infrastructure assets. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, secondary costs and etc.
	FM7. Improved revenue and debtors management	FM7.1 Percentage change in gross consumer debtors' (current and non-current)	Consumer debt is non-payment of property rates, charges for services provided and other various financial obligations such as traffic fines or rental of facilities
		FM7.2 Percentage of revenue growth excluding capital grants	This ratio measures the overall revenue growth excluding capital grants. In addition, this ratio will assist in determining if the increase in expenditure will be funded by the increased revenue base or by some other means.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
Economic growth 1. Increased Jobs and Investment in the Cape Town economy	HS2. Improved functionality of the residential property market	HS2.22 Average number of days taken to process residential building plan applications of 500 square meters or less	The indicator measures the number of days a residential building plan application to the municipality takes to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. A 'residential building plan' refers to building plans of 500 square meters or less, as this is a commonly applied distinction for residential properties. Measures of the time taken to process appeals of the initial decision are not included within the measurement.
	LED1. Growing inclusive local economies	LED1.11 Percentage of total municipal operating expenditure spent on contracted services physically residing within the municipal area	This indicator measures the value of municipal operating expenditure that has been spent on payments to contracted organisations with a physical address within the municipal area as a percentage of the total operating expenditure on payments to all contracted organisations. Contracted services are inclusive of consultancy services, and refer to services rendered by any entity outside of the municipality secured through a public procurement process.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
	LED1. Growing inclusive local economies	LED1.21 Number of work opportunities created through Public Employment Programmes (incl. EPWP, CWP and other related employment programmes)	Simple count of the number of short-term work opportunities provided through the municipality by Public Employment Programmes such as Expanded Public Works Programme, Community Works Programme and other related infrastructure initiatives. EPWP is a nationwide programme covering all spheres of government and SOEs. EPWP projects employ workers on a temporary or ongoing basis with government, contractors, or other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions. The CWP was established to provide an employment safety net to eligible members of target communities by offering them a minimum number of regular days of work each month. The programme targets unemployed and underemployed people. The stipends participants receive supplement their existing livelihood means and provide them with a basic level of income security. The indicator tracks the number of unique work opportunities generated within the quarter, regardless of the duration.
	LED1. Growing inclusive local economies	LED1.31 Number of individuals connected to apprenticeships and learnerships through municipal interventions	The number of Individuals connected to apprenticeships and learnerships through municipal interventions. Municipal interventions refer to any project, programme or initiative intended to facilitate or implement change among the target population. Apprenticeships and learnerships, in this instance, refer specifically to structured learning processes for gaining theoretical knowledge and practical skills in the workplace leading to a qualification recognised in terms of the National Qualifications Authority.
	LED2. Improved levels of economic activity in municipal economic spaces	LED2.11 Percentage of budgeted rates revenue collected	The R-value of the rates revenue as a percentage of the total rates revenue operating budget. Municipal property rates are an amount levied on the market value of immovable property (that is, land and buildings). Revenue, in this instance, refers to income collected by the municipality in R-value within the designated financial period. The operating rates revenue budget refers to the amount of the municipal operational budget which was targeted within the municipal budget as approved by Council for the financial year.
	LED2. Improved levels of economic activity in municipal economic spaces	LED2.12 Percentage of the municipality's operating budget spent on indigent relief for free basic services	The amount municipal operating budget expended on free basic services to indigent households (R-value) as a percentage of the total operating budget of the municipality for the period. Free Basic Services are understood in terms of water, sanitation, electricity and waste removal services only.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.11 Average time taken to finalise business license applications	The indicator measures the average number of working days a business owner can expected to wait from the date of submission of a complete business licence application to the date of outcome of licensing decision from the municipality. Business license applications refer to those businesses registering to operate and do business within the municipal area. A 'complete application' refers to the point at which all of the required administrative information has been supplied, allowing the municipality to proceed with the processing. A 'finalised' application refers to an application where the municipality has taken a decision to approve or deny the application. An application is consider finalised at the point of the decision, regardless of the time between the decision and the communication of the application outcome.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.12 Average time taken to finalise informal trading permits	The indicator measures the average amount of time (taken in days) to finalise informal trading permits within a municipality from the point of complete application to the point of adjudication. An informal trading permit is a permission provided by the municipality to small scale businesses with limited trading intentions to operate under certain conditions.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.13 Average number of days taken to process building applications of 500 square meters or more	The indicator measures the number of days commerical building plan applications to the municipality take to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. A 'commerical building plan' refers to building plans of 500 square meters or more, as this is a commonly applied distinction for properties which have a commerical purpose. Whether a large building plan application is for commercial or residential purposes does not have a bearing as the proxy of 500 square meters or more is used in this instance. The time taken to process appeals of the initial decision are not included within the measurement.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.21 Percentage of revenue clearance certificates issued within 10 working days from time of completed application received	The percentage of revenue clearance certificates issued by the municipality within 10 working days of a completed submission. A revenue clearance certificate is issued by the relevant local municipality, and reflects all of the debts collected on the property, including rates. The purpose of this document is to prove that all the outstanding debt on the property has been paid by the seller. A completed submission refers to the point in time when all necessary information has been supplied in relation to the certificate. The 10 days, in this instance, refers to 10 working days, not days of the week.

	LED3. Improved levels of economic activity in municipal economic spaces	LED3.31 Average number of days from the point of advertising to the letter of award per 80/20 procurement process	The average number of days from the point of advertising to the letter of award per 80/20 procurement process. An 80/20 procurement process refers to public procurement as per the terms of the Preferential Procurement Regulations in terms of the Preferential Procurement Policy Framework Act for bids where an 80/20 Broad-Based Black Economic Empowerment (B-BBEE) thresholds of between R30 000 and R50 million applies. This would apply to tenders awarded within the financial year, and where disputes to the outcome of the tender process were not raised. This does not apply to requests for quotations.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.32 Percentage of municipal payments made to service providers who submitted complete forms within 30-days of invoice submission	The percentage of municipal payments made to service providers within 30-days of complete invoice submission. The indicator measures the number of payments made on the basis of invoice submissions to the municipality within the accepted standard of 30 days or less. This measures 30 calendar days from the time of submission of an accurate invoice.

PRIORITY & STRATEGIC OBJECTIVE	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
Basic Services 2. Improved access to quality and reliable basic services	ENV3. Increased access to refuse removal	ENV3.11 Percentage of known informal settlements receiving basic refuse removal services	The proportion of recognised informal settlements within the municipal area which are receiving at least a basic standard of service for refuse collection and cleaning services.
	WS1. Improved access to sanitation	WS1.11 Number of new sewer connections meeting minimum standards	The total number of new sewer connections (defined as connections to a flush toilet connected to the sewerage system or a septic tank or a VIP toilet) made as part of state-subsidised human settlements development. This is inclusive of new sewer connections to communal facilities that meet basic sanitation standards.
	WS2. Improved access to water	WS2.11 Number of new water connections meeting minimum standards	Total number of new water connections meeting minimum standards (supply of water is Piped (tap) water inside dwelling/institution, Piped (tap) water inside yard, and/or Community stand: <200 m) as part of state-subsidised human settlements development. This is inclusive of new water connections to communal facilities that meet minimum standards.
	WS3. Improved quality of water and sanitation services	WS3.11 Percentage of callouts responded to within 24 hours (sanitation/ wastewater) ¹	Percentage callouts (inclusive of outages logged with the municipality and complaints related to outages) responded to within 24 hours (sanitation/ wastewater). Responded to means that someone is on site and has initiated a process of resolving the matter within 24 hours. This does not mean the callout was resolved, only that the matter was logged, appraised and responded to within 24 hours of notification.
	WS3. Improved quality of water and sanitation services	WS3.21 Percentage of callouts responded to within 24 hours (water) ¹	Percentage callouts (outages inclusive of complaints logged over outages) responded to within 24 hours (water). Responded to means that someone is on site and has initiated a process of resolving the matter within 24 hours. This does not mean the callout was resolved, only that the matter was logged, appraised and responded to within 24 hours of notification.

Basic Services 3. End load shedding in Cape Town over time	EE1. Improved access to electricity	EE1.11 Number of dwellings provided with connections to mains electricity supply by the municipality	The number of new residential electricity connections to dwellings provided by the municipality
	EE1. Improved access to electricity	EE1.13 Percentage of valid customer applications for new electricity connections processed in terms of municipal service standards	This indicator measures the number of valid customer applications for new electricity connections processed within the municipal standard timeframes in relation to the total number of customer applications for new electricity connections. A 'valid customer application' for a new electricity connection refers to an application for which a quote has been supplied and payment made by the applicant, at which point the application becomes 'valid', regardless of whether it is commercial or residential. An electricity connection processed refers to the sequence of procedures between the point of payment for a valid application and obtaining a certificate of compliance (COC) to obtain a final connection (end). The indicator measures the percentage of all valid applications where the time taken between the point of payment and the certificate of compliance fall within municipal standard timeframes, as differentiated per the relevant facilities and categories of applicant.
	EE2. Improved affordability of electricity	EE2.11 Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)	This indicator measures the reliance of municipal residents on FBE for access to electricity by measuring how much of electricity provided by the municipality in MWh is subsidised through FBE. In other words, this indicator measures the extent of free electricity provided by the municipality to its residents as a percentage of the overall total. This is inclusive of indigent households. FBE is an amount of electricity determined by municipal policy provided on a monthly basis for free with the aim of assisting poor households to meet basic needs. Depending on the municipal policy, FBE may or may not be targeted exclusively at poor households.
	EE3. Improved reliability of electricity service	EE3.11 Percentage of unplanned outages that are restored to supply within industry standard timeframes	The proportion of MTTRs that are within industry standards where MTTR is the average time it takes to restore unplanned outages. The following five categories of restoration time are applied as industry standards NSR 047: X=1.5, 3.5, 7.5, 24 and 168
	EE3. Improved reliability of electricity service	EE3.21 Percentage of planned maintenance performed ²	This is a measure of the actual executed maintenance jobs planned as a percentage of budgeted planned maintenance effort in scheduled 'jobs'. A 'job' is a planned maintenance task scheduled by the municipality.
	EE4. Improved energy sustainability	EE4.12 Installed capacity of approved embedded generators on the municipal distribution network	The total capacity of the embedded generation installations in the municipal distribution network in mega-volt ampere.

Basic Services 4. Well-managed and modernised infrastructure to support economic growth	WS4. Improved quality of water (incl. waste-water)	WS4.21 Percentage of industries with trade effluent inspected for compliance	Number of industries with trade effluent that are inspected during the assessment period as a percentage of the total number of registered industries with trade effluent, at the end of the municipal financial year. Inspections are only counted once per registered industry organisation, regardless of whether multiple inspections follow from the original visit.
	WS4. Improved quality of water (incl. waste-water)	WS4.31 Percentage of wastewater treatment capacity unused	The percentage of wastewater treatment capacity unused. Sewer treatment capacity refers to the maximum amount of sewage that a facility is allowed to treat or to direct to a particular reuse or effluent disposal system. This refers to the collective available design capacity of all facilities servicing the municipal area. 'Available design capacity' refers to the overall design capacity that is available on a daily basis. If part of the treatment facility requires refurbishment or is not in operation this should be excluded from 'available design capacity'.
	WS4. Improved quality of water (incl. waste-water)	WS4.11 Percentage of water treatment capacity unused	The percentage of water treatment capacity unused. Water treatment capacity refers to the maximum amount of water that a facility can safely process. The indicator measures the difference between the maximum amount the infrastructure can handle in terms of its available design capacity and the amount currently in use, as a percentage of the total capacity. 'Available design capacity' refers to the overall design capacity that is available on a daily basis. If part of the treatment facility requires refurbishment or is not in operation this should be excluded from 'available design capacity'.
	WS5. Improved water sustainability	WS5.21 Infrastructure Leakage Index	The Infrastructure Leakage Index is derived from the structural and operational characteristics of the entire water infrastructure network. It is measured in terms of the real water loss from the supply network of physical distribution systems.
	WS5. Improved water sustainability	WS5.31 Percentage of total water connections metered	The number of metered water connections as a percentage of the total number of connections in the municipality.

Safety 5. Effective law enforcement to make communities safer	FD1. Mitigated effects of fires and disasters	FD1.11 Percentage compliance with the required attendance time for structural firefighting incidents	<p>Structural fire incidents are defined as incidents of fire outbreaks in habitable formal structures (buildings that have approved building plans) and habitable informal structures (informal residential dwellings where no approved building plans exist). The indicator measures the percentage of times that these incidents receive a response within the 14 minute standard. This measure of the attendance time is the difference between the time of call (the time an official call or notice is received at the official call or reporting centre) and the arrival time (refers to the time captured for the first arriving firefighting response unit regardless from where dispatched or regardless of order of dispatch). The indicator therefore measures the number of all incidents where the attendance time was 14 minutes or less as a percentage of all incidents.</p> <ul style="list-style-type: none"> Attendance time is the difference between the time of call and the time of arrival of the first arriving firefighting response unit at the given address of the incident, (i.e.) Attendance Time = Time of arrival at given address -s- Time Call Received by ECC personnel and equipment in minutes and seconds for the year (numerator) divided by the number of fire department responses in the same year (denominator).

Housing 7. Increased supply of affordable, well located homes	HS1. Improved access to adequate housing	HS1.11 Number of subsidised housing units constructed using various Human Settlements Programmes	The number of all subsidised housing units (in terms of minimum levels of service) constructed within the municipal area in the reporting period. Constructed within the municipal area refers to all housing units with finished construction within the municipal area built in terms of the various Human Settlements Programmes for which the Provincial Government receives the Human Settlements Development Grant (HSDG). This refers to any unit in which a subsidisation on the housing unit is provided, inclusive of all human settlements programmes.
	HS1. Improved access to adequate housing	HS1.12 Number of serviced sites	A site refers to a pre-determined area where basic services can be provided, there is some degree of security of tenure and to which a household can be situated or relocated and/or upgraded. This refers to the number of all sites serviced with a new connection(s) achieving all three services of electricity, water and sanitation to a basic level within the municipality in the financial year. These sites do not include the construction of top structures. A basic level of service is defined as an individual service to each site (not shared) meeting the national minimum standard (the Regulations in terms of the Water Services Act in the case of water and sanitation and the Policy Guidelines for the Integrated National Electrification Programme (INEP) 2016/17 in the case of electricity), or the minimum standards defined by the municipality, whichever is higher. The indicator only measures from the point when all three basic services have been connected, regardless of the timeframes between when water & sanitation connections and electricity connections were made. This refers to direct connections only and does not provide for indirect connections.
	HS1. Improved access to adequate housing	HS1.13 Hectares of land acquired for human settlements in Priority Housing Development Areas	Hectares of land acquired for human settlements within PHDAs by the municipality. PHDAs are defined as areas announced by the Minister of Human Settlements in terms of Section 7 (3) of the Housing Development Agency Act, 2008 read with section 3.2 of the Housing Act. These are areas intended to advance Human Settlements Spatial Transformation and Consolidation by ensuring that the delivery of housing is used to restructure and revitalise towns and cities, strengthen the livelihood prospects of households and overcome apartheid spatial patterns by fostering integrated urban forms. PHDAs are underpinned by the principles of the National Development Plan (NDP) and the Integrated Urban Development Framework (IUDF). Emphasis is placed on synchronising national housing programmes in PHDAs. Therefore, this refers to land acquired in an agreement between at least two parties for which transfer documents have been registered at the Title Deeds Office. The land is understood to have been acquired with the intention of advancing human settlements development within the PHDAs, subject to the subsequent completion of any outstanding planning and approval processes.

Housing 7. Increased supply of affordable, well located homes	HS1. Improved access to adequate housing	HS1.22 Number of title deeds registered to beneficiaries	The number of title deeds registered to beneficiaries within a municipality during the period under assessment. A title deed is a document that proves legal ownership of a property in South Africa. This refers to title deeds registered to beneficiaries of human settlements programmes within the municipal area.
	HS2. Improved functionality of the residential property market	HS2.21 Number of rateable residential properties in the subsidy housing market entering the municipal valuation roll	The indicator is defined as the number of housing units built within the municipal area that benefited from a state subsidy, entering the municipal valuation roll.
Housing 8. Safer, better quality homes in informal settlements and backyards over time	HS1. Improved access to adequate housing	HS1.31 Number of informal settlements assessed (enumerated and classified)	The number of designated informal settlements within the municipal area enumerated and classified according to the NUSP categorisation, or equivalent. Enumeration includes the collection of household level data of informal settlement residents, as well as the levels and status of services in the settlement.
	HS1. Improved access to adequate housing	HS1.32 Number of informal settlements upgraded to Phase 2	This indicator measures the number of informal settlements upgraded to Phase 2, in terms of the Housing Code- Upgrading Informal Settlements, Phase 2: Project Initiation. "...Upgraded to Phase 2" is achieved when all the milestones as per Upgrading Informal Settlements Phase 2 have been implemented within an informal settlement. This is inclusive of the following: acquisition of land where required; undertaking of a clear socio-economic and demographic profile/survey of the settlement; establishing an agreement between the community and municipality; installation of interim services to provide basic water and sanitation services to households on an interim basis; conducting of pre-planning studies to determine detailed geotechnical conditions and the undertaking of an environmental impact assessment to support planning processes.

Public space, environment and amenities 9. Healthy and sustainable environment	HS2. Improved Air Quality	ENV1.12 Percentage of AQ monitoring stations providing adequate data over a reporting year	The proportion of AQ monitoring stations which are sufficiently functional to provide an accurate indication of air quality over a full reporting year in the municipal area. This is currently defined as providing at least 75% of a full years worth of anticipated, validated data.
	ENV4. Biodiversity is conserved and enhanced	ENV4.11 Percentage of biodiversity priority area within the metro	Proportional share of land cover categories aggregated to relate to biological priority areas within the municipality, relative to the total municipal area. It indicates the presence of available habitats across a municipal area important for maintaining ecological processes, expressed in ha. A decline over time indicates a loss of land supporting biodiversity and local ecosystems. Biodiversity priority areas, or areas of high biodiversity importance, are defined by SANBI (2016) as "Natural or semi-natural areas in the landscape or seascape that are important for conserving a representative sample of ecosystems and species, for maintaining ecological processes, or for the provision of ecosystem services."
	ENV4. Biodiversity is conserved and enhanced	ENV4.21 Percentage of biodiversity priority areas protected	The proportion of land identified through municipal strategic environmental assessments and EMFs as biodiversity priority areas, which is protected through some mechanism. Mechanisms may include stewardship agreements, conventional protected areas, & biodiversity agreements, among others.

Public space, environment and amenities 10. Clean and healthy waterways and beaches	ENV5. Coastal and inland water resources maintained	ENV5.11 Percentage of coastline with protection measures in place	The percentage of coastline with protection measures in place within the municipal area. Protection measures refer to measures for protecting the coastal environment from activities that may detrimentally affect it and are inclusive of periodic maintenance. Protection measures are divided into 4 main categories: Hard (options influence coastal processes to stop or reduce the rate of coastal erosion.); Soft (aim to dissipate wave energy by mirroring natural forces and maintaining the natural topography of the coast); Combined (combining hard and soft solutions is sometimes necessary to improve the efficiency of the options and provide an environmentally and economically acceptable coastal protection system); and Innovative (exploited advancements in specific areas of engineering associated with erosion control namely geotextiles and beach drainage). Protection measures are therefore inclusive of managed retreat too.
	ENV5. Coastal and inland water resources maintained	ENV5.12 Number of coastal water samples taken for monitoring purposes	The number of coastal and water samples taken for monitoring purposes in the municipality. "Water samples taken", in this instance, refers to samples that have been taken for water quality testing. This refers to the number of samples tested for all relevant monitoring purposes, it does not refer to the number of itemised tests conducted per sample.
	ENV5. Coastal and inland water resources maintained	ENV5.21 Number of inland water samples taken for monitoring purposes	The number of inland water samples taken for monitoring purposes in the municipality. Transport 12. A sustainable transport system that is integrated, efficient and provides safe and affordable travel options for all	TR4. Improved satisfaction with public transport services	TR4.21 Percentage of municipal bus services 'on time'	The percentage of all scheduled municipal bus service departures 'on-time'. 'Scheduled' refers to the time at which the bus is expected to depart. 'On-time' is understood to be within a window of 2-minutes ahead of the scheduled departure time, and up to 5 minutes after the scheduled departure time. In the event that a municipality does not track 'departures', but does track 'arrivals' at the end destination, arrivals may be substituted uniformly across the TID but this should be specified in the Standard Operating Procedure for the indicator.
	TR5. Improved access to public transport (incl. NMT)	TR5.11 Number of scheduled public transport access points added	The number of new public transport access points which has been constructed and operational in terms of the municipality's functional responsibilities (thus excluding commuter rail stations). A scheduled public transport service in this regard refers to a bus service provided by the municipal fleet (contracted or owned) at periodic intervals.
	TR5. Improved access to public transport (incl. NMT)	TR5.31 Percentage of scheduled municipal bus service stops that are universally accessible	The total number of universally accessible, operational municipal bus service stops in the municipal area served by municipality owned and/or contracted fleet. A universally accessible service stops meets the following conditions: 1) It is serviced by a scheduled bus with accessibility provisions; and 2) A boarding bridge meets the accessibility provisions of the bus service. This refers to all scheduled service stops of municipal buses.

Transport 13. Safe and quality roads for pedestrians, cyclists and vehicles	TR5. Improved access to public transport (incl. NMT)	TR5.41 Length of NMT paths built	The total length (in KMs) of NMT paths (defined as surfaced pedestrian sidewalks, footpaths and cycling lanes) built and completed over the financial year.
	TR6. Improved quality of municipal road network	TR6.11 Percentage of unsurfaced road graded	The length of unsurfaced road which has been graded as a percentage of overall unsurfaced road network. Unsurfaced road is understood as a road without a prepared, durable surface intended to withstand traffic volume, usually a tar macadam (asphalt) or concrete surface. Usually dirt, gravel or natural surface. Road "graded" is the process of restoring the driving surface of a gravel or natural surface road to a desired smoothness and shape by removing irregularities such as corrugations and pot holes and redistributing gravel.. Usually dirt, gravel or natural surface. Road "graded" is the process of restoring the driving surface of a gravel or natural surface road to a desired smoothness and shape by removing irregularities such as corrugations and pot holes and redistributing gravel.
	TR6. Improved quality of municipal road network	TR6.12 Percentage of surfaced municipal road lanes which has been resurfaced and resealed	The distance of surfaced municipal road lanes (class 3-5) in kilometres which has been resurfaced and resealed in relation to the total road lane length. A lane is part of a carriageway that is designated to be used by a single line of vehicles to control and guide drivers and reduce traffic conflicts. Lane widths may vary in width from 3.1m at their narrowest, to 5.5m lanes in higher-order mixed-usage streets. Total municipal road length is measured on a per lane basis, so a road that is four-lanes wide for 1 km has a total network length of 4kms for the purpose of this indicator.
	TR6. Improved quality of municipal road network	TR6.13 KMs of new municipal road network	The distance of municipal road network built in kilometres within the municipal area, by the municipality (inclusive of all its departments and implementing agents). This is inclusive of both surfaced and unsurfaced roads built by the municipality. A surfaced road refers to road installed with a durable surface material intended to sustain traffic, usually pavement or concrete. Total municipal road network length is measured irrespective of the road lanes for this indicator.
	TR6. Improved quality of municipal road network	TR6.21 Percentage of reported pothole complaints resolved within standard municipal response time	The percentage of reported pothole complaints resolved within the standard time, as a percentage of all potholes reported. A reported pothole complaint refers to the report as the incidence, not the number of potholes that may be referred to in a given report. Municipal standard response times and operating procedures for service providers who may undertake this work for the municipality are confirmed at the municipal level in terms of the municipality's standard operating procedure for measuring the indicator.

A capable and collaborative City government 16. A capable and collaborative City government	GG1. Improved municipal capability	GG1.21 Staff vacancy rate	The number of unfilled posts in the municipal organisational structure as a percentage of the total number of employee posts in the municipality's organisational structure.
	GG1. Improved municipal capability	GG1.22 Percentage of vacant posts filled within 3 months	The percentage of posts for which an appointment decision has been made within three months of the authority to proceed with filling the post. 'Vacant posts' in this instance, refers to all budgeted posts on the municipal organogram for which a recruitment process has been initiated. A position is considered 'filled' when a recruitment decision is made and an offer of appointment formally accepted by a recruit, regardless of the start date. 'Authority to proceed with filling a post' refers to the point of time at which the relevant official authorises the filling of a vacancy in terms of relevant municipal policies and procedures. This refers to an individual post and does not apply to bulk recruitments.
	GG2. Improved municipal responsiveness	GG2.11 Percentage of ward committees with 6 or more ward committee members (excluding the ward councillor)	The percentage of ward committees that had 6 or more members, excluding the ward councillor, as a proportion of the total number of wards at the last day of the reporting period.
	GG2. Improved municipal responsiveness	GG2.12 Percentage of wards that have held at least one councillor-convened community meeting	The number of wards where ward councillors convened at least one community meeting in the quarter as per statutory requirements, as a percentage of all the wards in the municipality. Community meetings refer to any public meeting for which public notice is given, held in the councillor's ward, and at which the ward councillor convenes the meeting.
	GG2. Improved municipal responsiveness	GG2.31 Percentage of official complaints responded to through the municipal complaint management system	The number of official complaints responded to as per the municipality defined norms and standards, as a percentage of the number of official complaints received. A complaint is any formal grievance, concern or issue registered with municipality as per its established systems and protocols. An official complaint, in this instance, should be formally logged within the Municipal Complaints Management System. "Norms and standards" refer to a municipality's agreed ability to respond promptly and appropriately to the complaints from the public, in line with protocols determined by the municipality, whether or not this is consistent with any external guidance or benchmarking. Note that resolution refers to an official municipal response to the complaint and does not provide for a determination of "satisfaction" with the municipal response on the part of the public.

These are identified as repeat findings by the Auditor-General on the following administrative areas including but not limited to: i) annual financial statements and annual report ii) Strategic planning and performance iii) Consequence management iv) Human Resource management
	GG3. Improved municipal administration	GG3.12 Percentage of councillors who have declared their financial interests	The percentage of all councillors that have declared their financial interests for the financial year being reported against. Financial interests refers to all relevant financial matters or dealings which may create the potential for a conflict of interest.
	GG5. Zero tolerance of fraud and corruption	GG5.11 Number of active suspensions longer than three months	Refers to the total number of active suspensions at the time of reporting that were initiated more than three months prior and had not yet been resolved.
	GG5. Zero tolerance of fraud and corruption	GG5.12 Quarterly salary bill of suspended officials	The sum of the salary bill for all officials suspended from work or employment for the municipality for misconduct during the reporting period.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.11 Total Capital Expenditure as a percentage of Total Capital Budget	This indicator measures the extent to which budgeted capital expenditure has been spent during the financial year. Capital expenditure is all costs incurred by the municipality to acquire, upgrade, and renew physical assets such as property, plants, buildings, technology, or equipment.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.12 Total Operating Expenditure as a percentage of Total Operating Expenditure Budget	The indicator measures the extent to which operating expenditure has been spent during the financial year. Operating Expenditure (non-capital spending) is costs which the municipality incurs through its normal operations.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.13 Total Operating Revenue as a percentage of Total Operating Revenue Budget	The indicator measures the extent of actual operating revenue (excl. capital grant revenue) generated in relation to budgeted operating revenue during the financial year. Operating revenue is revenue generated from sale of goods or services, taxes or intergovernmental transfers.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.14 Service Charges and Property Rates Revenue as a percentage of Service Charges and Property Rates Revenue Budget	The ratio measures the extent of actual Service Charges and Property Rates Revenue generated in relation to budgeted Service Charges and Property Rates Revenue during the financial year. Service Charges includes revenue generated from sale of water, electricity, refuse and sanitation. Property rates includes revenue generated from rates and taxes charged on properties.

	FM1. Enhanced municipal budgeting and budget implementation	FM1.21 Funded budget (Y/N) (Municipal)	A municipality considers inputs from the National Treasury and adopts a budget that is funded in line with Section 18 of the MFMA which states that a budget is funded from either revenue realistically to be collected and accumulated cash backed reserves not committed for other purposes. Accumulated cash backed reserves refers to surpluses accumulated from previous years not committed for other purposes. A budget is funded when a municipality reflects a surplus of R0 or more on budget table A8.
	FM2. Improved financial sustainability and liability management	FM2.21 Cash backed reserves reconciliation at year end	This indicator measures the extent to which reserves, which are required to be cash backed are actually backed by Cash Reserves. Commitments or applications refers to items that must be cash backed such as unspent conditional grants, VAT, working capital requirements, sinking fund or reserves approved by Council. Data elements, for the purpose of this indicator, are drawn from the data contained in the budget table A8.
	FM3. Improved liquidity management	FM3.11 Cash/Cost coverage ratio	The ratio indicates the municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue, during that month.
	FM3. Improved liquidity management	FM3.12 Current ratio (current assets/current liabilities)	The ratio is used to assess the municipality's ability to pay back its short-term liabilities (Debt and Payables) with its short-term assets (Cash, Inventory, Receivables).
	FM3. Improved liquidity management	FM3.13 Trade payables to cash ratio	The ratio indicates the municipality's capacity to pay its creditors with cash and equivalent only.
	FM3. Improved liquidity management	FM3.14 Liquidity ratio	This ratio only considers a municipality's most liquid assets – cash and investments. These are the assets that are most readily available to a municipality to pay short-term obligations. It is a stricter and more conservative measure because cash and cash equivalent is only used in the calculation.
	FM4. Improved expenditure management	FM4.11 Irregular, Fruitless and Wasteful, Unauthorised Expenditure as a percentage of Total Operating Expenditure	The indicator measures the extent to which the municipality has incurred irregular, fruitless and wasteful and unauthorised expenditure. Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Irregular expenditure is incurred by the municipality in contravention of a requirement of the law. Unauthorized expenditure includes overspending of the total amount appropriated in the approved budget.

	FM4. Improved expenditure management	FM4.31 Creditors payment period	This indicator reflects the average number of days taken for trade creditors to be paid. It is a useful indicator to measure the cash flow or liquidity position of a municipality. Total outstanding creditors is total amount owed (capital and operating expenditure) by the municipality. Section 65 of the MFMA clearly prescribe municipalities to pay all monies owed within 30 days of receiving an invoice.
	FM5. Improved asset management	FM5.11 Percentage of total capital expenditure funded from own funding (Internally generated funds + Borrowings)	The ratio measures the level to which municipality's total capital expenditure is funded through Internally Generated Funds and Borrowings. It also assess the level at which a municipality is able to generate own funds to finance revenue generating assets to enhance and sustain revenue streams.
	FM5. Improved asset management	FM5.12 Percentage of total capital expenditure funded from capital conditional grants	This ratio measures to what extent a municipality depend on grants to deliver services to its communities. Conditional grants are transfers and subsidies (allocation-in-kind or monetary value) given to municipalities by national or provincial departments as well as other external agencies for specific purposes.
	FM5. Improved asset management	FM5.21 Percentage of total capital expenditure on renewal/upgrading of existing assets	This indicator measures the extent to which the municipality prioritise or protect its existing infrastructure assets. Renewal/Upgrading of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as restoration of the service potential of the asset.
	FM5. Improved asset management	FM5.22 Renewal/ Upgrading of Existing Assets as a percentage of Depreciation/Asset impairment	This indicator measures the extent at which the municipality prioritise or protect its existing infrastructure assets. Renewal, Upgrading or Replacement of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as replacement of an asset.
	FM5. Improved asset management	FM5.31 Repairs and Maintenance as a percentage of property, plant, equipment and investment property	This indicator measures the extent at which the municipality spent on repairs and maintenance of infrastructure assets relative to its asset base. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, secondary costs and etc.
	FM6. Improved supply chain management	FM6.12 Percentage of awarded tenders [over R200k], published on the municipality's website	This indicator measures the extent to which the municipality is open and transparent in the awarding of contracts by advertising details of the winning company on the municipality's website. This indicator also measures the municipality's compliance to MFMA Section 75 (1) (g).

	FM7. Improved revenue and debtors management	FM7.12 Collection rate ratio	The ratio measures the revenue collection level of a municipality. It considers the level of increase or decrease of gross debtors relative to annual billed revenue. In addition, in order to determine the real collection rate bad debts written-off is taken into consideration
	FM7. Improved revenue and debtors management	FM7.31 Net Surplus / Deficit Margin for Electricity ³	Electricity is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing electricity services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the above-mentioned categories. Overheard costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.
	FM7. Improved revenue and debtors management	FM7.32 Net Surplus / Deficit Margin for Water ³	Water is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing water services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the above-mentioned categories. 2022-2027 CIRCULAR 88 COMPLIANCE SCORECARD DEFINITIONS

PRIORITY: ECONOMIC GROWTH

Let's make Cape Town the easiest place to do business and create jobs in Africa

OBJECTIVE: 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY

KEY PERFORMANCE INDICATORS	DEFINITIONS
C8 (GG) Number of councillors completed training	The number of councillors that have received training. A councillor is an individual who is elected to represent their local community and runs their local council. Training can be of any duration, length and need not be formally accredited.
C9 (GG) Number of municipal officials completed training	The number of municipal officials that have received training. A municipal official is a person in the employ of the municipality who has been delegated to perform any function of the municipality or any function for which the municipality is responsible. Training can be of any duration, length and need not be formally accredited.
C29 (LED) Number of approved applications for rezoning a property for commercial purposes	The number of applications for rezoning a property for commercial purposes approved. Rezoning a property for commercial purposes is when the initial classification assigned for the use of a property (e.g. for residential purposes) is adjusted so that it permits business to be conducted on the property.
C76 (LED) Number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders	The number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders, within the municipal area. Digitisation support programme can include: digital infrastructure provision, digital platforms, digital financial services, digital entrepreneurship support and digital skills development. SMME stands for small, medium and micro-enterprises. These businesses range from formally registered, informal and non-VAT registered organisations. Small to medium-sized businesses typically employ over a hundred people and are comparable to the small- and medium-sized enterprises (SME) segment found in developed countries. Micro-enterprises, on the other hand, typically encompass survivalist self-employed persons from the poorest layers of the population. This measures any business who has registered with the municipality to benefit from support for digitisation.

KEY PERFORMANCE INDICATORS	DEFINITIONS
C81 (LED) Number of new business license applications	The number of new business license applications received by the municipality. Business license applications may be required by the municipality as it relates to food provision and other industries. This measures only the 'new' business license applications received by the municipality. By applying for a license as a 'new' business, the indicator measures new formal economic ventures pursued within the municipality. The indicator measures only those 'new' license applications and does not track renewals.
C82 (LED) Value of Commercial Projects Constructed by adding all of the estimated costs of construction values on building permits	Municipal construction permits require the capturing of estimated costs for construction. This indicator aggregates all of the estimated costs for the construction permits granted by the municipality.
C83 (LED) Number of building plans approved after first review	The building plan review process is a coordinated process for the review of projects and building plans which generally result in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. This team reviews each project for compliance with applicable plans and code requirements. Where a building plan of any size, whether commercial or residential, is approved based on one round of municipal review, it is tracked for the purpose of this indicator.
C84 (LED) Number of building plans submitted for review	The total number of building plans submitted for review to the municipality. The building plan review process is coordinated process for the review of projects and building plans which when adjudicated as "approved", generally results in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. This team reviews each project for compliance with applicable plans and code requirements. This indicator gives a measure of the scale of building plan submissions in total.
C85 (LED) Number of business licenses renewed	The number of business licenses renewed within the municipal area. Business licenses are permits issued by the municipality that allow individuals or companies to conduct business within the municipal area. It is the authorization to operate a business issued by the local government, in line with local by-laws and provisions.
C98 (LED) Number of building plan applications approved	The number of building plans approved by the municipality. The building plan review process is a coordinated process for the review of projects and building plans which, when adjudicated as "approved", generally results in the issuance of a building permit. An approved building plan application excludes those applications that receive an "amendment letter" or "date of first refusal."
C95 (FM) Number of residential properties in the billing system	The indicator measures the number of unique properties zoned for residential purposes by the municipality that reflects on the billing system of the municipality. This includes residential properties that are zero-rated.
C96 (FM) Number of non-residential properties in the billing system	The indicator measures the number of unique properties zoned for non-residential purposes by the municipality that reflects on the billing system of the municipality. This includes non-residential properties that are zero-rated.
C97 (FM) Number of properties in the valuation roll	The indicator measures the number of unique properties reflected on the municipal valuation roll. This includes residential properties that are zero-rated and draws from Supplementary valuation rolls in years between official valuations.

PRIORITY: BASIC SERVICES

Let's get the basics right as the foundation of a healthy and prosperous city

OBJECTIVE 2. IMPROVED ACCESS TO QUALITY AND RELIABLE BASIC SERVICES

KEY PERFORMANCE INDICATORS	DEFINITIONS
C60 (WS) Total number of sewer connections	The total number of sewer connections in the municipal area. Sewer connection is any physical connection to a sewage disposal system or sewer system, whether direct or indirect, of a residence building, dwelling, dwelling unit, or other building, including individual units of multiple unit dwellings such as condominiums, townhouses, multiplexes, and apartment buildings.
C61 (WS) Total number of chemical toilets in operation	The total number of chemical toilets in operation. A chemical toilet collects human excreta in a holding tank and uses chemicals to minimize odours. These toilets are usually, but not always, self-contained and movable. A chemical toilet is structured around a relatively small tank, which needs to be emptied frequently.
C62 (WS) Total number of Ventilation Improved Pit Toilets (VIPs)	A VIP refers to a Ventilation Improve Pit Toilet which meets minimum standards in terms of the ventilation of the pit and toilet structure.
C63 (WS) Total volume of water delivered by water trucks	The total volume of water (in kilolitres) delivered by water truck to a municipal area. A water truck is a vehicle designed with a water container for storing and transporting water for consumptive purposes.
C99 (EE) Number of electricity connection applications received	The number of new electricity connection applications received by the municipality. This measures only the new applications received by the municipality, regardless of whether they are 'valid' or complete.
C56 (EE) Number of customers provided with an alternative energy supply (e.g. LPG or paraffin or biogel according to supply level standards)	The number of customers provided with an alternative energy supply (e.g. LPG or paraffin or biogel according to supply level standards). Alternative energy supply refers to the use of any energy sources, other than traditional fossil fuels (e.g. coal, gasoline, and natural gas). In this instance, this would only include alternative energy supply that has been provided or issued directly by the municipality as per determined minimum standards. A customer refers to anyone registered to receive access to electricity and/or energy from the municipality.
C57 (EE) Number of registered electricity consumers with a mini grid-based system in the municipal service area	The number of registered consumers with mini-based system in the municipal service area. A mini grid-based system is a set of electricity generators, and possibly energy storage systems, interconnected to a distribution network that supplies electricity to a localized group of customers. The indicator tracks the total number of registered consumers able to access electricity through alternative means, beyond municipal supply.
C58 (EE) Total non-technical electricity losses in MWh (estimate)	Total non-technical electricity losses in MWh. Electricity loss is a measure of unaccounted for energy. Non-technical electricity losses are caused by actions external to the power system and consist primarily of electricity theft, faulty or inaccurate meters, and errors in accounting and record-keeping. Therefore, by its very nature this indicator will rely on stated assumptions. Municipalities are to generate a measure of non-technical electricity losses in MWh on the basis of their existing procedures in terms of Standard Operating Procedures, while documenting the assumptions or parameters that in from such a measure.
C59 (EE) Number of municipal buildings that consume renewable energy	The number of municipal buildings consuming own renewable electricity or embedded generation. Renewable electricity is understood as renewable own generation and/or embedded generation within municipal buildings themselves. Embedded generation refers to the small-scale production of power connected within the electricity distribution network, located close to the place of consumption. Renewable own generation is electricity generation technology which harnesses a naturally existing energy flux, such as wind, sun, heat, or tides, and converts that flux to electricity for specific own supply, not for sale to customers. Where embedded generation supplies a complex of free-standing structures, all individual structures can be counted as buildings. This is inclusive of buildings leased by the municipality, as well as municipality-owned buildings.

OBJECTIVE 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH

KEY PERFORMANCE INDICATORS	DEFINITIONS	FREQUENCY OF REPORTING	BASELINE 2021/22
C46 (ENV) Number of approved waste management posts in the municipality:	The number of approved waste management posts. Waste management includes the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.	Annually	Nil baseline ¹
C47 (ENV) Number of waste management posts filled:	The number of waste management posts filled in terms of the approved structure. Waste management includes the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process.	Quarterly	Nil baseline ⁴

PRIORITY: SAFETY

Let's make Cape Town communities safer by investing in policing capacity and technology, and strengthening partnerships

OBJECTIVE 5. EFFECTIVE LAW ENFORCEMENT TO MAKE COMMUNITIES SAFER

KEY PERFORMANCE INDICATORS	DEFINITIONS
C67 (FD) Number of paid full-time firefighters employed by the municipality	The number of paid full-time firefighters employed by the municipality. A firefighter is a rescuer extensively trained in firefighting, primarily to extinguish hazardous fires that threaten life, property, and the environment as well as to rescue people and animals from dangerous situations. This could be either permanent or fixed-term employment, on a full-time basis.
C73 (FD) Number of structural fires occurring in informal settlements	The indicator measures the number of fires which occurred or originated in an area considered to be an informal settlement by the municipality and affected structures in that area. Structural fire incidents are defined as incidents of fire outbreaks in habitable structures, regardless of their formality (e.g. a fire on a formal structure within an area considered to be an informal settlement would still be counted as the indicator measures the number of fires).
C74 (FD) Number of dwellings in informal settlements affected by structural fires (estimate)	The indicator measures the estimated number of dwellings in an area considered to be an informal settlement by the municipality and affected by structural fires. 'Affected' in this context refers to structures which have sustained physical damage as a result of a fire. Structural fire incidents are defined as incidents of fire outbreaks in habitable structures, regardless of their formality (e.g. a fire on a formal structure within an area considered to be an informal settlement would still be counted as the indicator measures the number of fires).

¹ No system in place to measure the indicator but included for completeness.

PRIORITY: HOUSING

Let's empower the private sector to increase the supply of affordable housing across the formal and informal markets

OBJECTIVE 7. INCREASED SUPPLY OF AFFORDABLE, WELL-LOCATED HOMES

KEY PERFORMANCE INDICATORS	DEFINITIONS
C55 (HS) Number of housing recipients issued with title deeds	The number of registered housing recipients issued with title deeds by the municipality. A title deed is a document that proves legal ownership of a property in South Africa. In this instance, a housing recipient is a registered beneficiary of state-subsidised housing delivered by housing programmes.

PRIORITY: PUBLIC SPACE, ENVIRONMENT AND AMENITIES

Let's restore people's pride in Cape Town by cleaning up our city's public spaces, streets and waterways

OBJECTIVE 11. QUALITY AND SAFE PARKS AND RECREATION FACILITIES SUPPORTED BY COMMUNITY PARTNERSHIPS

KEY PERFORMANCE INDICATORS	DEFINITIONS
C52 (HS) Number of maintained sports facilities	The number of sports facilities maintained by the municipality, inclusive of those owned by the municipality and those maintained by it through agreement for public access. A sports facility is defined by the CSIR Guidelines (2015) as "Active recreation areas including formally provided and maintained playing fields for soccer, rugby, hockey, etc.; playing courts; indoor sports halls and stadiums. May include ablution facilities, seating, parking, tuck shop and club house."
C53 (HS) Square meters of maintained public outdoor recreation space	Square meters of municipality maintained active outdoor space intended for recreational purposes refers to land owned by the municipality or maintained for public access through agreement with another party. Public recreation space is defined broadly to mean land and open space available to the public for recreation. Recreation space shall include only space that primarily serves a recreation purpose. Includes: parks, outdoor sports facilities and public open space. Does not include beaches, resorts and nature reserves. Does not include pedestrianised streets and sidewalks, but may include pedestrian walkways with primarily a recreational purpose. Facilities charging an access fee may still be regarded as 'public' provided that no other access criteria are applied (annual membership fee, club affiliations, etc.)
C54 (HS) Number of municipality-owned community halls	The number of municipality-owned community halls. A community hall is defined by the CSIR Guidelines for the Provision of Social Facilities in South African Settlements (2015) as a "Centre or hall for holding public meetings, training, entertainment and other functions and having a variety of facilities such as a kitchen, toilets, storage space, etc. which should be provided at nominal rates for hire, with rentals tied to socio-economic status of area to provide affordable service."
C64 (TR) R-value of all direct municipal vehicle operational costs for public transport	The R-value of all direct municipal, and municipally-contracted, vehicle operational costs. Municipal vehicle operational costs refers to the costs off public transport vehicles that vary with vehicle usage, including fuel, tires, maintenance, repairs, and mileage-dependent depreciation costs. This is also inclusive of the staff and overhead operational costs. Municipality-contracted vehicles refer to fleets that are owned by private transport companies, but are operated by municipalities for public transport purposes. Any definitional clarification should be sought from the latest Division of Revenue Act as it relates to 'operational costs'.

KEY PERFORMANCE INDICATORS	DEFINITIONS
C65 (TR) Total number of scheduled public transport access points	The total number of scheduled public transport access points that are the responsibility of municipalities, which include bus and BRT services. Scheduled public transport service is that which provides access to the scheduled public transport services mentioned above, with a minimum service frequency of 30 minutes during the workday morning peak.
C66 (TR) Number of weekday passenger trips on scheduled municipal bus services	The number of operationalised passenger trips on scheduled municipal bus services, based on fare collection or trip capture on the system, for all weekdays.

PRIORITY: A RESILIENT CITY

Let's build a resilient and climate-responsive city by reducing our vulnerability to shocks and stresses

OBJECTIVE 14. A RESILIENT CITY

KEY PERFORMANCE INDICATORS	DEFINITIONS
C69 (FD) Number of 'displaced persons' to whom the municipality delivered assistance	The number of displaced persons (regardless of their nationality) to whom the municipality delivered assistance within the municipal area. A displaced person is person who was forced to or obliged to leave their home as a result of natural or human-made disasters, conflict, situations of generalised violence or violations of human rights. 'Assistance' in this instance refers to some or all of the following types of assistance: essential food and potable water; basic shelter and housing; appropriate clothing; and essential medical services and sanitation. The origins of displacement, extent and duration does not affect the measure, only the unique number of individuals to which the municipality has provided direct assistance in the reporting period.
C72 (FD) Date of the last municipal Disaster Management Plan tabled at Council	The date (dd/mm/yyyy) of the last municipal Disaster Management Plan tabled at Council. A Disaster Management Plan is required in terms of Section 53 of the Disaster Management Act of 2002 and should be submitted to the National Disaster Management Centre by all relevant municipal organs of state and municipal entities in terms of the policy framework for disaster management. The tabling is inclusive of all three levels of Disaster Management Plans in terms of the disaster management policy framework.
C75 (FD) Number of people displaced within the municipal area	The number of people within the municipal area displaced by natural or human-made disasters, conflict, situations of generalised violence or violations of human rights, as documented by the municipality. Please refer to the definition of disaster in terms of the Disaster Management Act. For the purpose of this indicator, a person displaced by conflict, disaster or extreme weather is someone who was forced or obliged to leave their home from within the municipal area as a result of any category of event. It refers to those individuals documented as known to the municipality and does not pre-suppose that any sphere of government is directly providing for these individuals, only that their displacement from within the municipal area is known.
C90 (LED) Date of the last Climate Change Needs and Response Assessment tabled at Council	A Climate Change Needs and Response Assessment is a systematic diagnostic exercise undertaken by the municipality at least once every five years to determine the risks, vulnerabilities, and Climate Change response options in place or available to the municipality. This indicator measures the date when the assessment is tabled at a Council meeting as a matter of public record for the attention of public representatives.
C91 (LED) Date of the last Climate Change Response Implementation Plan tabled at Council	A Climate Change Needs and Response Implementation Plan sets out the strategies and responses that the municipality will be pursuing over the medium-term. This indicator measures the date when a response implementation plan is tabled at a Council meeting as a matter of public record for the attention of public representatives.

PRIORITY: A CAPABLE AND COLLABORATIVE CITY GOVERNMENT

Let's build a modernised, and administratively efficient government that is financially sustainable and empowers residents to contribute to decision making and improving the city

OBJECTIVE 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT

KEY PERFORMANCE INDICATORS	DEFINITIONS
C1 (GG) Number of signed performance agreements by the MM and section 56 managers:	This is the count of the total number of signed performance agreements by the municipal manager (section 57) and section 56 managers. A performance agreement is a written contract that establishes the expectations and accountability for meeting a set standard of execution excellence, and the consequences for not meeting them. Two or more parties agree on the actions the performer will execute and agree on the expected results from executing those actions. A municipal manager (MM) is appointed by council. He is the link between the council and the administration, of which he is the head. He has to account for the municipality's income and expenditure, assets and other obligations such as proper adherence to all legislation applicable to municipalities. A Section 56 manager is a manager employed under the terms of Section 56 of the Local Government: Municipal Systems Act, 2000. They are directly accountable to the municipal manager; or an acting manager directly accountable to the municipal manager under circumstances and for a period as prescribed.
