2. INTRODUCTION

The Minister of Finance announced during the February 2016 Budget Speech and the October 2016 Medium Term Budget Policy Statement (MTBPS) that the National Treasury would issue regulations on cost containment measures for local government. This is in line with national government's policy to implement cost-saving measures across the three spheres of government to assist in re-prioritising expenditure and freeing up resources that can be better targeted towards service delivery.

The Draft Regulations were first published for public comment on 16 February 2018. The Regulations were finalised and published on 7 June 2019 in the Government Gazette, with the effective date being 1 July 2019.

Section 168(1)(b) and (p) of the Municipal Finance Management Act (“Act”) provides that the Minister may regulate financial management and internal control and any other matter that may facilitate the enforcement and administration of the Act. The Regulations are aimed at ensuring that the resources of municipalities are used effectively, efficiently and economically.

The Regulations form part of cost-cutting measures by the state. It also sets out instructions for the City to develop its own cost containment policy as a minimal measure to ensure good governance. This Policy must provide for monitoring measures, procedures for review, and consequences for non-adherence. It must be reviewed annually and communicated on the City's website.

The National Treasury Circular No. 97 has been considered and leading practices have been included in this policy.
