## **EXECUTIVE SUMMARY: CITY OF CAPE TOWN**

### **BACKGROUND**

Section 52 of the MFMA states:

*"The mayor of a municipality must, within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality;"*

Regulation 31 of the MBRR states:

*"The S52 Mayor's Report must be in the format specified as per Schedule C and include all the required tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Municipal Management Finance Act; and must be consistent with the monthly budget statements for September, December, March and June as applicable;..."*

### **MAYOR'S QUARTERLY REPORT FOR THE PERIOD ENDING 31 MARCH 2021 (COMPARATIVE STATEMENT REPORT)**

The Mayor's Quarterly Report is prepared in compliance to Section 52 of the MFMA and sets out financial particulars in the format prescribed by the MFMA and the MBRR.

It provides a high level overview of the organisation's financial viability and sustainability.

- **Cost coverage ratio<sup>3</sup>**

This ratio indicates a municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue during that period. The ratio outcome for the period under review is 2.21, which falls within the norm of 1-3 months (MFMA Circular 71). This outcome shows an improvement from the previous reporting period, due to a higher Cash and Cash Equivalents balance at the end of March 2021.

- **Current Ratio<sup>4</sup>**

This ratio is used to assess a municipality's ability to pay back its short-term liabilities (debt and payables) with its short-term assets (cash, inventory and receivables). The year-to-date ratio outcome of 2.6 shows that the City has sufficient cash to meet its short-term financial obligations and is above the National Treasury norm of 1.5 to 2.1 (MFMA Circular 71). The outcome for the period under review shows a decline from the previous period outcome of 3.0. This is mainly attributable to an increase in total current liabilities.

- **Capital Charges to Operating Expenditure<sup>5</sup>**

This ratio indicates the cost required to service the borrowing of a municipality. It assesses the borrowing or payment obligation expressed as a percentage of total operating expenditure. The year-to-date ratio of 2.0% is below the National Treasury norm of 6% to 8% (MFMA Circular 71). This ratio is budgeted to be below the National Treasury norm.

- **Borrowed funding of 'own' Capital Expenditure<sup>6</sup>**

The ratio indicates the extent of capital expenditure being financed from borrowed funding compared to own and other funding sources, excluding transfers and grant funded expenditure. The budgeted ratio was adjusted downwards to zero percent in the January 2021 adjustments budget as the City is no longer taking up borrowings in the 2020/21 financial year.

- **Financial Position<sup>7</sup>**

The outcomes on the financial position is a result of the movements in the Statement of Financial Performance and the capital budget. However, there is no monthly financial position available as the budget represents the full year while the actuals represents year-to-date outcomes. The full year outcome will only be analysable at year end.

- **Cash Flow**

Cash and cash equivalents amount to R11 047 million as at 31 March 2021. This position is as a result of levels of cash realised in the previous financial year. The total includes all reserves required to be backed by cash. The funds are invested in compliance with the MFMA and City's Cash Management and Investment policy.

## DEBTORS

Debt management is carried out in terms of the City’s Credit Control and Debt Collection Bylaw and Policy. Outstanding debtors per category are reflected in the table below.

Debtors	Current - 0 to 30 days	31-60 Days	61 days and over	TOTAL
<b>R Thousands</b>				
Water	325 109	97 881	2 015 000	2 437 990

Refuse	100 308	28 648	561 056	690 012

The 12-months moving average YTD collection ratio (reflected in the table below) is for the period April 2020 to March 2021 and therefore reflects a more favourable 12-months position.

The monthly collection ratio per service (reflected in the table below) is a more accurate reflection of the City’s current collection ratio for property rates, electricity, water, sewerage and refuse, bearing in mind that this calculation is based on MFMA Circular 71, which takes the opening and closing balances, billing, write offs etc. into account.

Debtors Collection Rate % <sup>8</sup>	Previous year 2019/20	Current year 2020/21 (Interim ratios)	12 Months moving average YTD collection ratio (Interim ratios)	Monthly Collection Ratio per Service
Electricity	98.76%	101.94%	99.80%	114.93%

<sup>8</sup>12 Months Collection Ratio. Calculated in to National Treasury Circular 71.

The overall collection ratio results for March 2021 are reflected in the following table:

Monthly Collection Rate	
Period	Current year
12 Months	97.38%
6 Months	100.67%
3 Months	97.10%
Monthly	107.22%

The 12 Months Moving Average Payment Ratio for the period ended 31 March 2021 is 97.38%.

## HUMAN RESOURCES

The City's Executive Management Team on 3 June 2020 considered and adopted a report, which highlighted the need to ensure the financial liquidity of the City during and post COVID-19 and supporting HR mitigation interventions. The report laid out internal interventions to counter the negative impact of current and short-term cash impacts with concomitant budgetary bearing. The interventions are aimed at curtailing expenditure on staff- and related costs. These interventions include placing a hold on half of the vacancies in each directorate with savings to be earmarked, effective 1 July 2020. Through this action, a potential annualised saving of R457 million will be achieved.

## Reasons for major over-/under-recovery per revenue source

- **Property rates (R184.7 million under)**

The under-recovery is due to ongoing real-time supplementary valuations, and resolution of GV2018 objections and appeals. Further under-recovery was caused by unbilled accounts, account reversals, and changes in the rating category for B&Bs and guest houses backdated to March 2020.

- **Service charges - water revenue (R36.9 million under) and Service charges - sanitation revenue (R37.3 million under)**

The actual year-to-date water- and sanitation revenue is lower than anticipated as the actual consumption is slightly less than estimated.

- **Interest earned – outstanding debtors (R40.9 million over)**

The variance is due to higher than anticipated debtor balances for property rates, refuse and other rates-funded services.

- **Fines, penalties and forfeits (R417.7 million over)**

The variance is mainly within the following directorates:

- Transport, due to the call-up of a guarantee on a capital project where the contractor was liquidated and the contract subsequently terminated, and expired MyCiTi cards with credit balances accrued to revenue; and
- Safety & Security, due to more than planned traffic fines issued and fines revenue collected for the period under review.

- **Agency services (R34.5 million over)**

The variance is mainly within the Finance directorate and is due to more than planned registrations of new- and unlicensed vehicles.

Reasons for variances on revenue by source can be found in *Table SC1: Material variance explanations for revenue by source* on page 40.

Reasons for variances on revenue by vote can be found in *Table SC1: Material variance explanations for revenue by vote* on page 42.

**Reasons for major over-/under expenditure per type**

- **Employee Related Costs (R278.9 million under)**

The variance is mainly due to the turnaround time in filling vacancies; internal filling of vacant positions; slower than planned implementation of job creation projects; and temporary hold placed on vacancies.

- **Depreciation & asset impairment (R30.1 million under)**

The variance is due to:

- The slow start on the construction/completion/procurement of assets;
- The impact of assets capitalised in the 2019/20 financial year; and
- The update to the useful life of various infrastructure assets within the Water & Sanitation Services department and Transport directorate, which reduced the actual depreciation on these assets.

- **Other materials (R33.0 million under)**

Under expenditure reflects against the following elements:

- Materials, consumables, tools and equipment, due to delayed implementation of EPWP projects resulting in a lower requirement for materials as well as delays in procurement of refuse containers.
- R&M Material General & Consumables, due to reduced maintenance as a result of the COVID-19 lockdown restrictions as well as a building maintenance tender that is still to be approved.
- Printing and Stationery, due to the impact of staff working from home.

- **Contracted Services (R210.8 million under)**

Under expenditure reflects against the following elements:

- R&M Electrical, where the COVID-19 lockdown restrictions resulted in a reduction in maintenance work at facilities and networks. There is also a delay in the renewal of the Public Lighting Maintenance contract, due to minimal responses received from vendors.
- R&M Maintenance - Equipment, due to planned maintenance work on fleet and other equipment that still needs to be done.
- Building Contractors and R&M Building Contractors, where the COVID-19 lockdown restrictions resulted in maintenance programmes not being implemented as planned.
- Admin and Support staff and Medical Staff, where the requirement for labour broker staff is lower than planned to date.
- Advisory Services - Research & Advisory, due to delays in the finalisation of the Asset Management System as the initial investigation took longer than anticipated.
- Recreation, Sport, Tourism and Social Development, due to the impact of the COVID-19 lockdown restrictions on the implementation of community-based programmes.
- Medical Health Services and Support, due to lower than anticipated COVID-19 related cases and subsequent demand for this services.

- **Transfers and subsidies (R76.9 million under)**

The variance reflects mainly within the following directorates:

- Community Services & Health, due to:
  - Outstanding MOAs from approved grant-in-aid beneficiaries resulting in payment delays; and
  - Delayed grants/sponsorships for the allocation of humanitarian relief to NGOs, which is currently underway.
- Economic Opportunities & Asset Management, mainly due to delays in implementation of the National Skills Fund project as a result of COVID-19 implications that prompted the need to address all contractual requirements, which subsequently led to the project not commencing as originally planned.
- Finance, due to delays in the issuing of grants to beneficiaries as a result of non-compliance, and less than planned grant funding allocated to the Cape Town Stadium.
- Human Settlements (G&D Housing PHP payment), due to delays in implementation of top structures as a result of the prevailing COVID-19 pandemic.

• **Other Expenditure (R51.5 million under)**

Under expenditure reflects mainly against the following categories:

- Levy - Skills Development, due to misalignment of the period budget provision with the actual expenditure trend of LGSETA payments. The four-month payment holiday announced by the President in respect of this levy further contributed to this variance.
- Advertising - corporate and municipal accounts, due to misalignment of the monthly budget provision and actual expenditure in respect of the corporate- and mayoral advertising requirements.
- G&D Training and Uniforms, due to the hold placed on LEAP-related expenditure (uniforms, training etc.) in the first half of the financial year.
- Uniforms and Protective Clothing, due to delays in the appointment of additional EPWP staff.
- Insurance Premiums and Claims, due to lower than planned insurance premiums and claims paid to date.
- Electricity (under), due to outstanding invoices from ESKOM.
- Travel and Subsistence, which is not being utilised as a result of the COVID-19 lockdown restrictions.

Reasons for variances on expenditure by type can be found in *Table SC1: Material variance explanations for expenditure by type* on page 55.

\*The credit expenditure reflecting against Borrowings relates to credit notes processed post-closure of the 2019/20 financial year.

The summary statement of capital budget performance indicates actual capital expenditure of R4 035 million or 54.68% of the current budget.

The year-to-date spend million represents 53.79% (R2 994 million) on internally-funded projects and 57.43% (R1 041 million) on externally-funded projects.

The full year forecast indicates that 97.4% of the capital budget is anticipated to be spent by the end of the financial year.

## **Reasons for major over-/under expenditure (YTD) on the capital budget**

### **• Community Services & Health directorate (R48.1 million under)**

The negative year-to-date variance is mainly due to:

- The hold placed on professional services tender 30C/2018/19 as the tender reached capacity resulting in the following projects being delayed:
  - Fisantekraal Clinic; and
  - Upgrade of various community facilities and clinics.
- Delays in the finalisation of scope due to no agreement being reached for a protracted period of time between stakeholders on the Vuyiseka Multi-Purpose Centre and the Mfuleni Integrated Recreation Facility projects.
- Delays on the Maitland Cremator project due to a lack of responses to the advertised tender.
- Delays in the appointment of service providers for the Bellville Integrated Recreation Facility and the new Nyanga Library as a result of non-responsive tenderers.
- Delays in the procurement of furniture and IT equipment as a result of challenges experienced with corporate tenders.

98% spend is forecasted for the projects currently on the budget.

### **• Energy & Climate Change directorate (R44.5 million under)**

The negative variance reflects on the following projects/programmes:

- Paardevelei Switching Station, due to delays in delivery of imported GIS switchgear as a result of the COVID-19 lockdown restrictions as well as building work delays due to inclement weather.
- Hout Bay LV Depot, where the contractor was instructed to leave site as tender 50Q/2017/18 expired on 31 August 2020. Security, appointed by the City, is on site to prevent vandalism and theft.
- 132kV OH Insulator Replacement, where no successful bids were received for the tender resulting in the tender having to be cancelled and re-advertised. An alternate internal tender (267Q) will be used to procure insulators.
- Street Lighting: Area South FY21, due to detail design being completed later than anticipated.

99% spend is forecasted for the projects currently on the budget.

### **• Finance directorate (R28.3 million under)**

The variance reflects against the CT Stadium – Suites project and is due to savings realised as a result of the actual tender price being less than anticipated as well as professional fees that will only be paid towards the end of the project.

93% spend is forecasted for the projects currently on the budget.

- **Human Settlements directorate (R112.8 million under)**

The main reasons for the negative variance are:

- Savings realised on BOQs for work completed on the Asset Management Programme.
- Multiple delays on the Imizamo Yethu UISP project, due to legal proceedings and community resistance challenges resulting in revision of the construction program. The COVID-19 lockdown restrictions also had a negative impact on the project.
- Delays in signing the tripartite agreement of the Greenville Housing Project Phase 4 between the WCG, the City and the developer.
- Outstanding invoices on the Gugulethu Infill Project Erf 8448/MauMau project.
- Delays on various other projects due to, inter alia, community challenges, late appointment of contractors/consultants and outstanding statutory approvals.

100% spend is forecasted for the projects currently on the budget.

- **Spatial Planning & Environment directorate (R21.8 million under)**

The year-to-date variance is mainly due to:

- Capacity constraints on tender 375C, which many projects are dependent on such as Upgrade of Reserves Infrastructure and Coastal Programmes etc.
- A directive that was issued to cease work on tender 30C/2018/2019. A decision was subsequently made to allow work to continue and for invoices to be processed against the Nature Reserve Visitor Education Centres Programme.
- Further development as well as capacity constraints on the E-Systems enhancements project.
- Delays in finalising approval of transversal tender requests resulting in no expenditure on the Philippi Fresh Produce Market Refurbishment project.

98% spend is forecasted for the projects currently on the budget.

- **Transport directorate (R60.8 million under)**

The directorate has a net negative variance, which is an accumulation of slower than anticipated expenditure on a number of projects, the most significant of which are:

- Roads Rehabilitation - Jakes Gerwel - N2 & N1: This project commenced on 18 January 2021 after the December Builders Holiday. Revised cash flows indicate a value at risk due to the limited time available to finalise the project.
- Heavy Duty Vehicles - Additional: Some orders placed, however, there is currently no stock of certain of vehicles.
- Rehabilitation of Japhta K - Bonga Drive & Icelekwane: Project commenced later than originally planned due to delays in the award of the term tender.
- IRT Phase 2A – Land & Property Acquisition: Various property acquisitions are in progress with substantial commitments to be raised in the next reporting period.

96% spend is forecasted for the projects currently on the budget.

- **Urban Management directorate (R23.0 million under)**

The negative variance reflects on the following projects/programmes:

- IT Equipment - Councillors & Support FY21 and other IT projects: Orders were placed but delivery is only anticipated in April 2021 due to supplier constraints.
- Bonteheuwel Town Centre Upgrade Building: Some upgrades completed. Further orders to be placed in April 2021. There are delays in the procurement of furniture and IT equipment as a result of challenges experienced with corporate tenders.
- Renovation of Sub Council 18: Delays pending approval to utilise transversal tender 339Q/2018/19. The order for professional services has been placed; awaiting delivery.
- Monwabisi Park Community Separation Facility: Cash flows misaligned as orders will only be placed in April 2021.

100% spend is forecasted for the projects currently on the budget.

**Water & Waste directorate - Solid Waste Management (R56.5 million under)**

The negative variance reflects against the following projects/programmes:

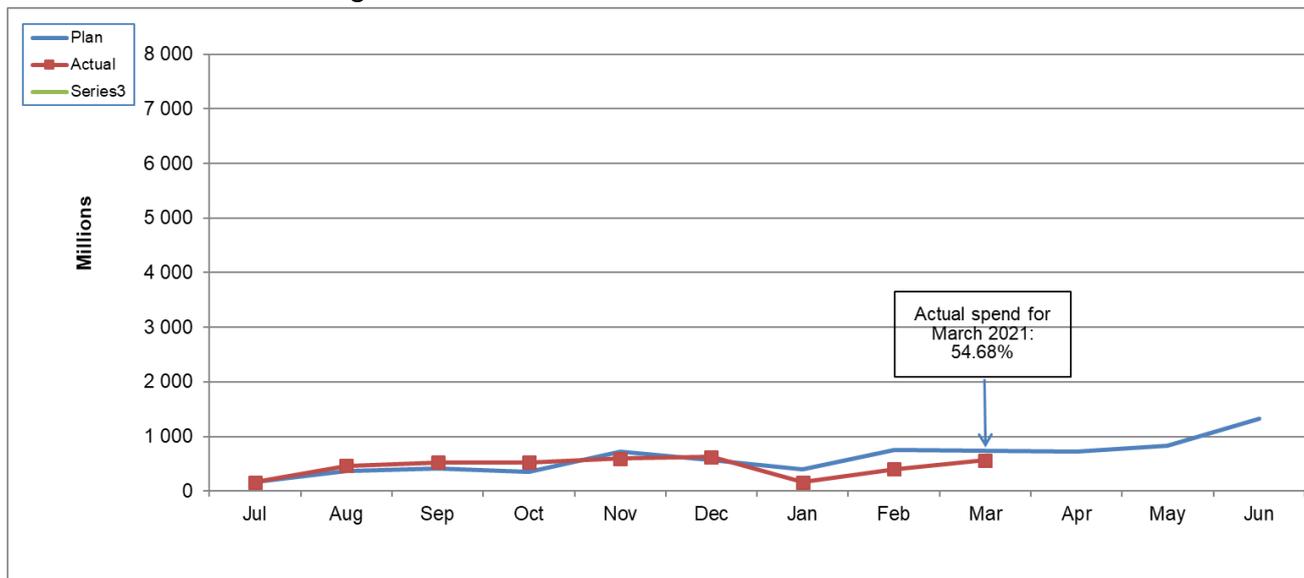

- New Prince George Drop-off: Initial delays were as a result of poor contractor performance. Tender 310Q/2018/19 for construction has been awarded.
- Coastal Park - Design and develop: Construction is underway via tender 61Q/2019/20. The current delay is due to delays in delivery of the Geosynthetic Clay Liners, which is anticipated to be delivered in April 2021.
- Vissershok North - Design and Develop Airspace: Tender 293Q/2019/20 for the construction phase is currently in the Bid Evaluation stage. The National Department of Water & Sanitation did not approve the construction drawings, which has resulted in further delays.
- Vissershok - LFG Infrastructure to Flaring: Practical completion was achieved on 15 December 2020. Current delays are as a result of the finalisation of the expansion report.
- Coastal Park: LFG Infrastructure - Beneficiation: Work done via tender 143Q/2018/19 was delayed due to OHS- and performance guarantees compliance processes as well as the order being finalised later than anticipated. The contractor commenced with the construction design, and the electricity generators are in the process of being procured.
- CBD Depot Upgrade: Project initially delayed due to the discovery of an underground fuel tank, which resulted in the contractor being granted a 22-day extension of time claim.

90% spend is forecasted for the projects currently on the budget.

Detailed explanations and remedial action on variances on the capital budget can be found in *Table SC1: Material variance explanations for capital expenditure by vote* on page 59.

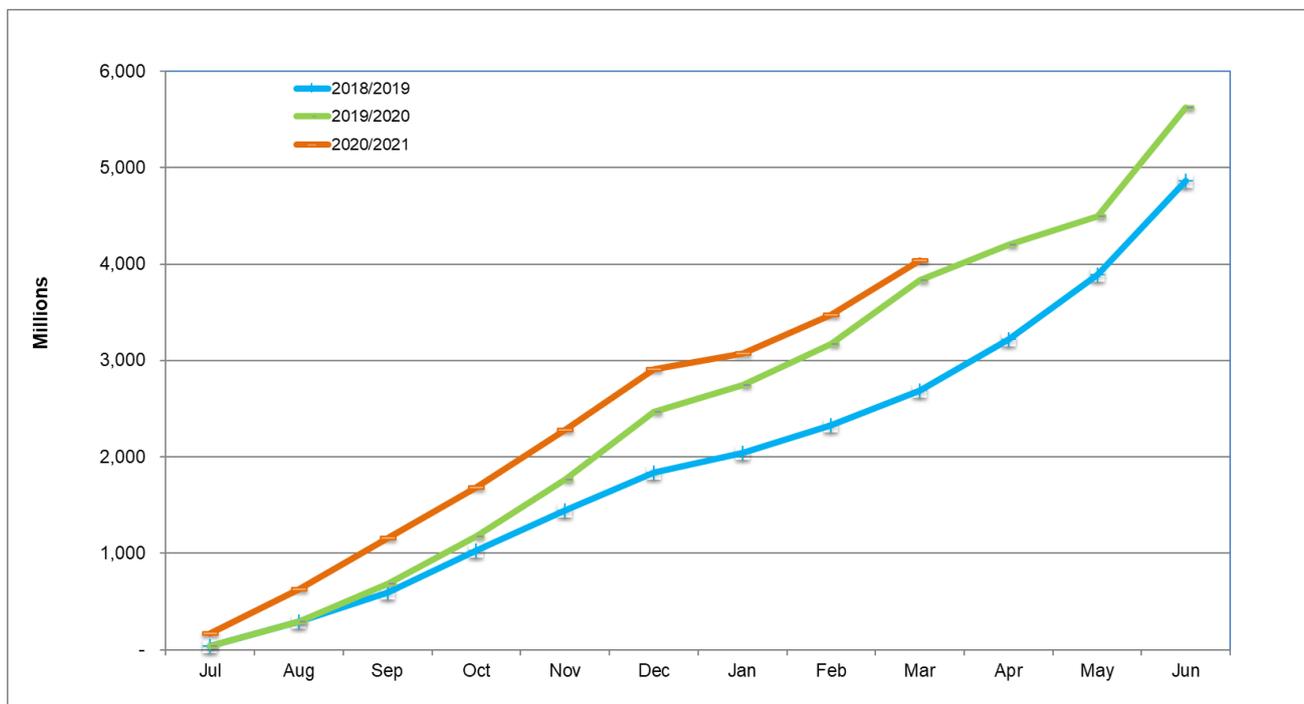

### Monthly capital expenditure

The graph below reflects the City’s monthly capital expenditure to date measured against the 2020/21 current budget.

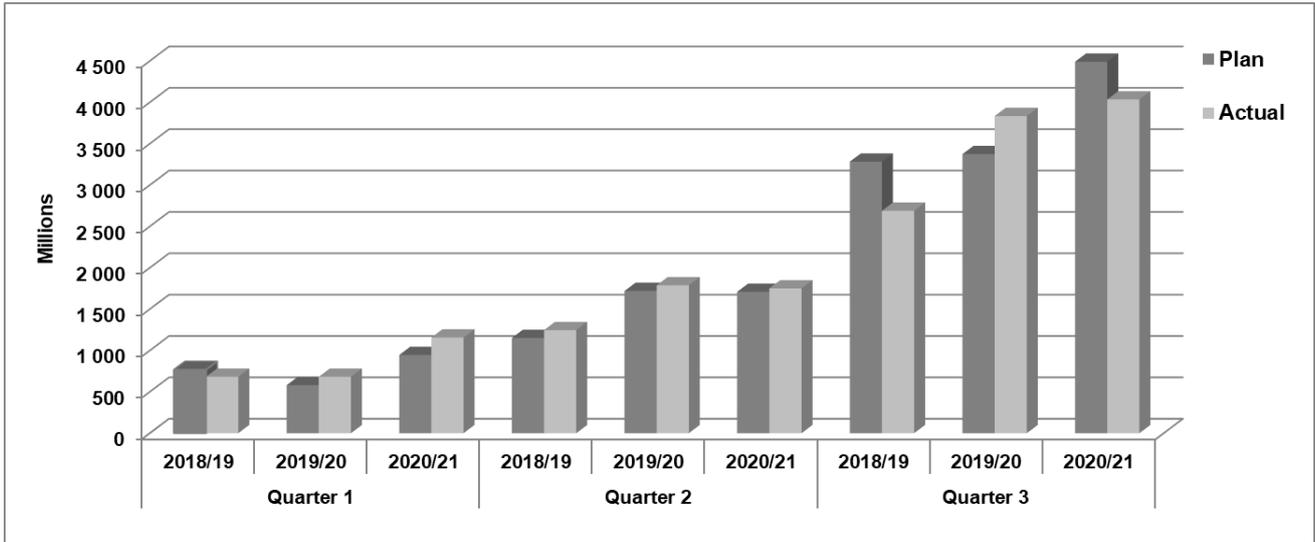

### Capital expenditure trend over the current- and past two years

The graph below shows the City’s capital expenditure trend for 2018/19, 2019/20 and 2020/21.

The capital expenditure quarterly year-to-date trend for the 2018/19, 2019/20 and 2020/21 financial years is graphically illustrated below.

**Status of major capital programmes/projects**

<b>Programme/Major Project</b>	<b>Current Budget</b>	<b>YTD Planned Spend</b>	<b>YTD Actual Spend</b>	<b>YTD Variance</b>	<b>Comments</b>
Zandvliet WWTW-Extension	552 271 772	364 288 708	362 072 153	-2 216 556	The negative variance is as a result of the late receipt of a payment certificate, which will be processed in the next reporting period. The project is, however, progressing as planned, due to the service provider performance and contract management.
Suites Cape Town Stadium	242 734 775	221 741 994	196 547 541	-25 194 453	The variance is due to the actual tender price being less than anticipated resulting in savings of R17.4 million. In addition, professional fees of R7.6 million will only be paid towards the end of the project.
IRT Phase 2 A	229 300 205	133 398 822	109 434 168	-23 964 654	Various property acquisitions are in progress and substantial commitments will be raised in the next reporting period.
Plant & Vehicles: Replacement	213 357 848	122 927 660	126 816 565	3 888 905	Some items have been delivered ahead of schedule as a result of stock availability. Awaiting delivery of further orders placed. Minor savings will be realised.
FS Replacement Vehicles	186 367 586	86 198 361	86 086 920	-111 441	The project is behind planned schedule due to deliveries taking place later than anticipated. Further orders will be raised for the remaining balance by mid-April 2021.
Table Mountain Group Aquifer	173 000 000	111 258 000	111 486 277	228 277	The project is on schedule due to good service provider performance and contract management.
Cape Flats Aquifer Recharge	172 756 744	153 300 000	123 399 488	-29 900 512	The project is behind programme due to delays in the outcome of the appeal received against the award of tender 348Q/2018/19.
System Equipment Replacement: East	143 297 804	89 772 269	91 767 912	1 995 643	Project is ahead of planned schedule due to good contractor performance.
Cape Flats Aquifer	137 243 256	81 890 508	71 657 694	-10 232 814	Work is generally progressing well and in accordance with the revised implementation programme although cash flows are misaligned.
Paardevlei Switching Station	128 399 354	29 675 542	20 492 133	-9 183 409	Completion of GIS switchgear delayed due to building work delays. Tenders for HV switchgear and switching station building awarded; contracts have been signed. Building contractor has resumed site work after the COVID-19 lockdown restrictions were eased. HV switchgear in design phase.

Programme/Major Project	Current Budget	YTD Planned Spend	YTD Actual Spend	YTD Variance	Comments
Asset Management Programme	126 692 294	99 687 313	62 203 457	-37 483 856	The variance is due to the vetting of invoices, which took longer than anticipated as a result of the Bill of Quantities (BoQ) that needed to be verified. All roof covering replacements are done and work at various rental units have been completed with final invoices processed. Savings realised on external upgrades in the central region as a result of final work being less than the BoQ estimates.
Meter Replacement Programme	120 000 000	72 870 508	79 670 173	6 799 665	The replacement of meters are ahead of schedule due to good contract management and performance of the contractors.
Atlantis Aquifer	107 015 732	64 418 778	65 109 532	690 754	Project is ahead of schedule due to good performance of the service providers and contract management.
Athlone WWTW-Capacity Extension-phase 1	100 600 000	71 842 233	60 577 508	-11 264 725	Tender 376Q2018/19 (Mechanical & Electrical Blowers) is currently with the Legal department for MFMA Section 33 vetting, however, the process is taking longer than anticipated.
Replacement of Fire Vehicles	97 761 981	60 995 800	64 259 549	3 263 749	Some items were delivered earlier than anticipated. Awaiting delivery of further orders placed.
Replace & Upgrade Water Network	95 000 000	55 300 000	35 862 651	-19 437 349	Cash flows misaligned. Almost all the projects (38 projects) on the list of priority projects submitted by each region have been awarded or advertised to date.
Bulk Water Infrastructure Replacement	90 590 000	60 599 058	74 565 613	13 966 555	Projects consist of multiple active contracts to replace/refurbish the infrastructure at bulk water plants. These projects are in various stages of completion and ahead of programme due to good project management and contractor performance. The current budget is almost fully allocated with additional funding required to bring projects planned for 2021/22 forward. Undertaking these projects in the 2020/21 financial year would assist in contributing to improving the levels of performance and reliability of infrastructure at stations and improve OHS compliance, as well as provide some financial relief in the outer years.
Upgrading Solid Waste facilities	89 994 254	58 149 085	51 995 252	-6 153 833	Detailed design and procurement process underway. Awaiting invoices for professional services work completed; project manager is following-up with the service provider.
Integrated Contact Centre	87 429 418	26 097 409	33 557 316	7 459 907	Some items were delivered earlier than anticipated. Further orders were placed for appointed consultants who will submit monthly invoices based on hours worked.

The 'informally' appointed management board has not been performing its roles. Various interdepartmental interventions are underway to enable the City's Human Settlements directorate to register the complex. To manage and control further accumulation of debt, the water pressure for consumption was reduced. Disconnection of supply could not be actioned as the contractor identified the area to be 'unsafe' to operate in. A Zero-Rated tariff cannot be done on a bulk meter. ### Material variance explanations for corporate performance for Quarter 3 of 2021

Description of Indicator	Variance	Reasons for material deviations	Remedial or corrective steps/remarks
1.F Percentage budget spent on implementation of Workplace Skills Plan (WSP) (NKPI)	16.43%	<p>The COVID-19 pandemic continues to impact the implementation of the Workplace Skills Plan (WSP) and related training expenditure.</p> <p>The moratorium placed on new internal bursaries, student appointments, and the implementation of new learnerships resulted in underachievement of the quarter 3 target.</p> <p>Furthermore the training of lower level staff is challenging. Access to computers and COVID-19 protocols, which stipulate the number of people in a room, impacted the number of delegates and interventions to be implemented.</p>	Challenges will be addressed and the WSP will be rolled out.
4.D Percentage of employees from the Employment Equity (EE) target groups (designated) employed in the three highest levels of management (NKPI)	0.32%	Slightly below target of 75%.	Challenges will be addressed and EE Plan will be rolled out. Appointments in this domain will be closely monitored.
5.C Percentage spend of capital budget - NKPI	6.10%	<p>Detailed material variance explanations for the City's capital expenditure are reflected in Table SC1 in the Financial Monitoring Report (FMR), which can be accessed at the link below.</p> <p><a href="https://www.capetown.gov.za/Work%20and%20business/Meet-the-city/The-City-budget/Financial-Monitoring-Reports">https://www.capetown.gov.za/Work%20and%20business/Meet-the-city/The-City-budget/Financial-Monitoring-Reports</a></p>	<p>There are on-going engagements with directors and responsible project managers to ensure that projects are implemented within the prescribed timeframes and that corrective action, where needed, is processed timeously so as to ensure maximum spend.</p> <p>Finance monitoring is performed on a monthly basis along with the MFMA Section 71 reporting.</p> <p>Citywide action: A working group established by the City Manager meets on a monthly basis to review all the City's capital expenditure and corporate contracts.</p>
5.D Percentage spend on repairs and maintenance	5.27%	<p>The variance is due to:</p> <ol style="list-style-type: none"> <li>1. R&amp;M Contracted Services on road resurfacing and storm water maintenance within the Transport Directorate progressing slower than expected; and</li> <li>2. R&amp;M Materials General, due to reduced electricity maintenance as a result of the COVID-19 lockdown restrictions.</li> </ol>	Period budget provisions will be reviewed and adjusted against actual trends and adjusted where identified.

**Table SC1: Material variance explanations for revenue by source**

Description	YTD Variance R thousands	Variance %	Reasons for material deviations	Remedial or corrective steps/remarks
<b>Revenue By Source</b>				
Property rates	(184 707)	-2.3%	The variance is a combination of over-/under-recovery in the following categories: 1. Property Rates (under), due to the ongoing real-time supplementary valuations, and resolution of GV2018 objections and appeals. Further under-recovery was caused by unbilled accounts, account reversals, and changes in rating category for B&Bs and guest houses backdated to March 2020. 2. Rates Revenue Forgone (over), the variance is due to 501 new approved old age rebate applications and 367 new approved indigent applications since the previous reporting period.	No immediate corrective action required.
Service charges - electricity revenue	23 861	0.2%	Immaterial variance.	-
Service charges - water revenue	(36 932)	-1.5%	The actual year-to-date water revenue generated via service charges is lower than anticipated as the actual consumption is slightly less than estimated.	No immediate corrective action required. The trend is closely monitored.
Service charges - sanitation revenue	(37 287)	-3.1%	The actual year-to-date sanitation revenue generated via service charges is lower than anticipated as the actual consumption is slightly less than estimated.	No immediate corrective action required. The trend is closely monitored.
Service charges - refuse revenue	(15 168)	-1.7%	Immaterial variance.	-
Rental of facilities and equipment	(3 021)	-1.1%	Immaterial variance.	-
Interest earned - external investments	8 986	1.4%	Immaterial variance.	-
Interest earned - outstanding debtors	40 894	13.0%	The over-recovery is due to higher than anticipated debtor balances for property rates, refuse and other rates-funded services.	No immediate corrective action required.
Dividends received	-	-		-
Fines, penalties and forfeits	417 707	53.7%	The over-recovery reflects mainly within the following directorates: 1. Transport, due to the call-up of a guarantee on a capital project where the contractor was liquidated and the contract subsequently terminated, and expired MyCiTi cards with credit balances accrued to revenue. 2. Safety & Security, due to more than planned traffic fines issued and fines revenue collected for the period under review.	No immediate corrective action required.

City of Cape Town: S52 Annexure A – 2021 Q3 (March 2021)

Description	YTD Variance R thousands	Variance %	Reasons for material deviations	Remedial or corrective steps/remarks
<b>Revenue By Source</b>				
Licences and permits	(1 205)	-3.6%	Immaterial variance.	-
Agency services	34 521	19.3%	The variance is mainly within the Finance directorate and is due to more than planned registrations of new and unlicensed vehicles.	No immediate corrective action required.
Transfers and subsidies	18 800	0.39%	Immaterial variance.	-
Other revenue	(13 837)	-0.46%	Immaterial variance.	-
Gains	(16 980)	-44.78%	The variance is a combination of over-/under-recovery on: 1. Profit on Sale of Assets (over), due to more land sales processed than initially anticipated as well as more vehicles, plant and equipment auctioned than initially planned; and 2. Proceeds Clearing on Sale of Asset (under), where an accounting entry to clear the actual amount still needs to be processed.	Accounting entries to be processed in the next reporting period.

<b>Revenue by Vote</b>				
Vote 1 - Community Services & Health	(15 281)	-1.7%	Immaterial variance.	-
Vote 2 - Corporate Services	(13 243)	-32.0%	The variance is mainly on Other Revenue - Skills Development Levy, due to misalignment of the period budget provision and the actual revenue. In addition, payments from National Treasury in respect of the Skills Development Levy are less than anticipated to date.	No immediate corrective action required.
Vote 3 - Economic Opportunities & Asset Managemnt	(32 089)	-16.9%	The variance is a combination of over-/under-recovery against the following categories: 1. Rental of facilities and equipment (under), mainly on Rental Fixed assets - Non-market related, due to cancellations of related rental contracts. The COVID-19 national lockdown further negatively affected the collection rate in respect of the hiring of facilities. 2. Transfers and Subsidies (under), mainly due to delays in the National Skills Fund project implementation as a result of the COVID-19 lockdown, which prompted the need to address all contractual requirements and subsequently led to the project not commencing as originally envisaged. 3. Other Revenue (over), mainly on Consents (Conditional use), where income that was not budgeted for was received for the removal of restrictive conditions attached to a property. 4. Gains (under), a combination of over/under, mainly on: a) Profit on Sale of Assets (over), due to more land sales processed and vehicles, plant and equipment auctioned than initially planned for; and b) Proceeds Clearing on Sale of Asset (under), due to an outstanding accounting entry to clear the actual amount.	Period budget provision to be reviewed and aligned with the actual revenue trend. The accounting entry iro proceeds of sale on assets will be processed in the next reporting period.

<b>Expenditure by Vote</b>				
Vote 1 - Community Services & Health	<i>see previous page</i>	<i>see previous page</i>	4. Transfers and subsidies (under), due to: a) Outstanding MOAs from approved beneficiaries for grants-in-aid resulting in payment delays; and b) Grants/Sponsorships for the allocation of humanitarian relief to NGOs, which is currently underway. 5. Other Expenditure (under), mainly on: a) Hire of LDV, P/Van, Bus, Special Vehicle, due to lower than planned requirements for vehicle hire as a result of the COVID-19 lockdown restrictions, which impacted negatively on the implementation of community-based programmes; b) Uniforms and protective clothing, due to delays in the appointment of additional EPWP staff; c) Training, due to the impact of the COVID-19 lockdown on implementation of the Workplace Skills Plan interventions as only virtual training is currently taking place. Furthermore, a moratorium has been placed on non-essential training; d) Electricity, due to outstanding ESKOM invoices; and e) G&D Books Periodicals & Subscriptions, due to procurement delays experienced as a result of the COVID-19 lockdown restrictions.	<i>see previous page</i>
Vote 2 - Corporate Services	(6 875)	-0.5%	Immaterial variance.	The directorate has 82 vacancies in various stages of the recruitment and selection process; 80 positions were filled and 53 terminations processed since the beginning of the financial year.
Vote 3 - Economic Opportunities & Asset Managemnt	(22 081)	-2.3%	The variance reflects on the following categories: 1. Employee related costs (under), due to the turnaround time in filling vacancies and the impact of the internal filling of vacancies. 2. Depreciation & Asset Impairment (under), due to the negative impact of the COVID-19 lockdown restrictions on the construction and/or completion of projects as well as the procurement of assets and capitalisation of such projects. 3. Contracted services (under), combination of over/under, mainly on: a) Advisory Services - Project Management (under), due to misalignment of the period budget and actuals as consultants commenced later than initially planned; b) Security Services: Municipal Facilities (over), due to some facilities (municipal facilities and housing rental stock) that are currently unoccupied due to COVID-19 regulations (staff working from home) which require additional security to prevent vandalism and theft. 4. Transfers and Subsidies (under), mainly due to delays in implementation of the National Skills Fund Project as a result of COVID-19 implications, which prompted the need to address all contractual requirements that subsequently led to the project not commencing as originally planned.	The directorate has 63 vacancies in various stages of the recruitment and selection process; 55 positions were filled and 39 terminations processed since the beginning of the financial year.  Period budget provision to be reviewed and adjusted, where so identified.  Virements to be implemented where so required.

Description	YTD Variance R Thousands	Variance %	Reasons for material deviations	Remedial or corrective steps/remarks
<b>Expenditure By Type</b>				
Employee related costs	(278 877)	-2.6%	The variance is mainly due to: 1. The turnaround time in filling vacancies; 2. The internal filling of vacancies; 3. Slower than planned implementation of job creation projects (EPWP); and 4. The temporary hold placed on some vacancies.	The City had 3264 vacancies as at 31 March 2021; 1462 positions were filled (716 internal and 746 external) with 943 terminations processed since the beginning of the financial year.  The filling of vacancies is ongoing and seasonal staff are appointed as and when required.  The appointment of EPWP workers through the roll-out of programmes as per approved Project Identification Documents
Remuneration of councillors	(463)	-0.4%	Immaterial variance.	
Debt impairment	6 404	0.3%	Immaterial variance.	
Depreciation & asset impairment	(30 139)	-1.4%	The variance is due to: 1. The slow start on the construction/completion/procurement of assets in the current financial year; 2. The impact of assets capitalised in the 2019/20 financial year; and 3. The update to the useful life of various infrastructure assets within the Water & Sanitation Services department and Transport directorate, which reduced the actual depreciation on these assets.	No immediate corrective action required.
Finance charges	2 822	0.5%	Immaterial variance.	-
Bulk purchases	27 683	0.4%	The variance is a combination of over-/under expenditure against: 1. Electricity Bulk purchases (over), due to the volatility of energy consumption, which is impacted by the status of the COVID-19 lockdown regulations. 2. Water Bulk Purchases (under), mainly on: a) Bulk Purchase - Water Desalination, where the final expenditure for the temporary desalination plant is less than anticipated; and b) Bulk Purchase - Water Reclamation, due to outstanding invoices.	Period budget provisions to be reviewed. Outstanding invoice to be processed on receipt.

<u>Expenditure By Type</u> Other materials	(33 034)	-3.4%	The variance is a combination of over-/under expenditure against the following elements: 1. Materials, consumables, tools and equipment (under), due to delayed implementation of EPWP projects resulting in lesser requirement for materials to date and delays in procurement of refuse containers. 2. Pharmaceutical supplies and vaccines (over), due to higher than anticipated COVID-19 related expenditure to date. 3. R&M Material General & Consumables (under), due to reduced maintenance as a result of the COVID-19 lockdown restrictions as well as a building maintenance tender that is still to be approved. 4. Printing and Stationery (under), due to the impact of staff working from home.	Virements will be processed to address over expenditure, where required.  Period budget provisions are reviewed continuously and adjusted where so identified.
Contracted services	(210 808)	-4.4%	The variance is a combination of over-/under expenditure against the following elements: 1. R&M Electrical (under), where COVID-19 lockdown restrictions resulted in a reduction in maintenance work at facilities and networks. There is also a delay in the renewal of the Public Lighting Maintenance contract, due to minimal responses received from vendors. 2. R&M Gardening Services (over), where the actuals to date are higher than planned as a result of earlier than planned implementation of grass cutting in parks and open spaces. 3. R&M Maintenance - Equipment (under), due to planned maintenance work on fleet and other equipment that still needs to be done. 4. Building Contractors and R&M Building Contractors (under), where the COVID-19 lockdown restrictions resulted in maintenance programmes not being implemented as planned. 5. Security Services - Municipal Facilities (over), due to misalignment of the period budget and actuals as well as an increase in demand for security services to curb vandalism and security threats. 6. Refuse Removal (over), where the breakdown of City vehicles resulted in contractors assisting in areas they would normally not render services. 7. Waste Minimisation (over), where the amount of green waste being disposed of at our facilities is currently higher than anticipated. 8. Admin and Support staff and Medical Staff (under), where the requirement for labour broker staff is lower than planned to date. 9. Advisory Services - Research & Advisory (under), due to delays in the finalisation of the Asset Management system as a result of the initial investigation that took longer than anticipated. 10. Recreation, Sport, Tourism and Social Development (under), due to the impact of the COVID-19 lockdown on the implementation of community-based programmes. 11. Medical Health Services and Support (under), due to lower than anticipated COVID-19 related cases and subsequent demand for this services.	Expenditure budget provisions will be reviewed and adjusted where so identified.  Outstanding invoices will be followed up on.  Incorrect postings to be resolved.  Virements to be processed where so required.

<b>Capital Expenditure by Vote</b>				
Vote 4 - Energy & Climate Change	(44 511)	-9.2%	The negative variance reflects against the following projects/programmes: 1. Paardevlei Switching Station: The variance is due to delays in delivery of imported GIS switchgear as a result of the COVID-19 lockdown restrictions as well as building work delays due to inclement weather. 2. Hout Bay LV Depot: The contractor was instructed to leave site as tender 50Q/2017/18 expired on 31 August 2020. Security appointed by the City is on site to prevent vandalism and theft. 3. 132kV OH Insulator Replacement: No successful bids received; tender to be cancelled and re-advertised. An alternate internal tender (267Q) will be used to procure insulators. 4. Street Lighting: Area South FY21: Project delayed to due to detail design being completed later than anticipated.	There are on-going engagements with the directors and project managers to ensure all orders are placed timeously, projects are implemented within the prescribed timeframes and that corrective action is processed as and when required so as to ensure maximum spend.
Vote 5 - Finance	(28 258)	-11.7%	CT Stadium - Suites: The variance is due to savings realised as a result of the actual tender price being less than anticipated as well as professional fees that will only be paid towards the end of the project.	Final payment for professional fees is expected to be made by the end of May 2021.
Vote 6 - Human Settlements	(112 767)	-20.2%	The main reasons for the negative variance are: 1. Savings realised on BOQs for work completed on the Asset Management Programme. 2. Multiple delays on the Imizamo Yethu UISP project, due to legal proceedings and community resistance challenges resulting in revision of the construction program. The COVID-19 lockdown also had a negative impact on the project. 3. Delays in signing the tripartite agreement of the Greenville Housing Project Phase 4 between the WCG, the City and the developer. 4. Outstanding invoices on the Gugulethu Infill Project Erf 8448/MauMau project. 5. Delays on various other projects due to, inter alia, community challenges, late appointment of contractors/consultants and outstanding statutory approvals.	1. Savings to be reprioritised to rental unit upgrade projects such as the electrical program, walling projects and plumbing. 2. Contractor is on site with work progressing according to the updated construction program. 3. The agreement is expected to be signed and in place by the next reporting period. 4. Project manager to follow up with the Department of Human Settlements on the outstanding invoice. 5. Line departments to assess their project portfolio and reprioritise funds from projects with value at risk to projects that are performing well and ahead of schedule.

<b>Capital Expenditure by Vote</b>				
Vote 7 - Office of the City Manager	(769)	-65.0%	Delays in finalising priorities and needs on the IT Equipment, Furniture and Office Equipment project. Some orders were placed.	Awaiting delivery of orders placed. Further orders to be placed in line with identified priorities and needs.
Vote 8 - Safety & Security	(2 592)	-1.3%	Immaterial variance.	-
Vote 9 - Spatial Planning & Environment	(21 764)	-23.5%	The negative year-to-date variance is mainly due to: 1. Capacity constraints on tender 375C that many projects are dependent on i.e. Upgrade of Reserves Infrastructure and Coastal Programmes etc. 2. The directive issued to cease work on tender 30C/2018/2019. A decision was subsequently made to allow work to continue and for invoices to be processed against the Nature Reserve Visitor Education Centres Programme. 3. Further development as well as capacity constraints on the E-Systems enhancements project. 4. Delays in finalising approval of transversal tender requests resulting in no expenditure on the Philippi Fresh Produce Market Refurbishment project.	Project managers are monitoring and following up with vendors and contractors in instances where delays are experienced. Progress on all projects/programmes is being monitored by relevant project managers as well as the PMO office.
Vote 10 - Transport	(60 818)	-11.6%	The directorate has a net negative variance, which is an accumulation of slower than anticipated expenditure on a number of projects, the most significant of which are: 1. Roads Rehabilitation - Jakes Gerwel - N2 & N1: This project only commenced on 18 January 2021 after the December builders holiday. Revised cash flows indicate a value at risk due to the limited time available to finalise the project. 2. Heavy Duty Vehicles - Additional: Some orders placed, however, there is currently no stock of certain of vehicles. 3. Rehabilitation of Japhta K - Bonga Drive & Icelekwane: Project commenced later than originally planned due to delays in the award of the term tender. 4. IRT Phase 2A – Land & Property Acquisition: Various property acquisitions in progress with substantial commitments to be raised in the next reporting period.	1. Project manager to engage the contractor to ascertain if it is possible to accelerate progress of work. The first invoice is still to be processed with the project manager following up in this regard. 2. Awaiting delivery of vehicles ordered although the COVID-19 lockdown has affected some deliveries. Remaining budget to be transferred to the Light Duty Vehicles Additional Project. 3. Contractor appointed with work anticipated to start early April 2021 and be completed by 30 June 2021. 4. Full budget will be spent in the 2020/21 financial year.

Vote 11 - Urban Management	(23 019)	-46.9%	The negative variance reflects on the following projects/programmes: 1. IT Equipment - Councillors & Support FY21 and other IT projects: Orders placed but delivery only anticipated in April 2021 due to supplier constraints. 2. Bonteheuwel Town Centre Upgrade Building: Some upgrades completed. Further orders to be placed in April 2021. There are delays in the procurement of furniture and IT equipment as a result of challenges experienced with corporate tenders. 3. Renovation of Sub Council 18: Delays pending approval to utilise transversal tender 339Q/2018/19. Order for professional services placed; awaiting delivery. 4. Monwabisi Park Community Separation Facility: Cash flows misaligned as orders will only be placed in April 2021.	Further orders to be placed in line with identified priorities and needs.  There are on-going engagements with directors and relevant project managers to ensure that projects are implemented within the prescribed timeframes and that corrective action, where needed, is processed timeously so as to ensure maximum spend.
Vote 12 - Water & Waste	(103 672)	-5.6%	The directorate is behind planned spend for the period under review. The main reasons are listed below at departmental level.	There are on-going engagements with directors and responsible project managers to ensure that projects are implemented within the prescribed timeframes and that corrective action, where needed, is processed timeously so as to ensure maximum spend. Remedial action required as indicated below.
Management: Water & Waste	(117)	-100.0%	Initial delays on procurement of furniture, which has since been resolved.	Orders have been placed; awaiting delivery.

Payments in lieu of leave	-	-	Immaterial variance.	-
<b>Other Municipal Staff</b>				
Basic Salaries and Wages	(218 386)	-2.9%	The variance is mainly due to: 1. The turnaround time in filling vacancies; 2. The internal filling of vacancies; 3. Slower than planned implementation of job creation projects; and 4. Temporary hold placed on some vacancies.	The City had 3264 vacancies as at 31 March 2021; 1462 positions were filled (716 internal and 746 external) with 943 terminations processed since the beginning of the financial year. The filling of vacancies is ongoing and seasonal staff are appointed as and when required.
Pension and UIF Contributions	(37 761)	-3.2%	The variance is mainly due to the turnaround time in filling vacancies and the internal filling of vacancies.	The process of filling vacancies is ongoing.
Medical Aid Contributions	(10 987)	-1.6%	The variance is mainly due to the turnaround time in filling vacancies and the internal filling of vacancies.	The process of filling vacancies is ongoing.
Overtime	14 257	2.3%	The variance is mainly within the following directorates: 1. Safety & Security, as a result of COVID-19 operations, increased land invasions as well as other public protest action, which required staff to be deployed on an overtime basis to assist with safeguarding property and protect human lives; and 2. Human Settlements, where overtime was needed in response to the Masiphumelele disaster that required reconstruction of units as well as the administration process in the allocation of units to qualifying beneficiaries. The response to the escalation of land invasions further contributed to the increase in overtime.	Realignment of period budgets and virements will be done to align the actual and anticipated expenditure.

City of Cape Town: S52 Annexure A – 2021 Q3 (March 2021)

Description	YTD Variance R Thousands	Variance %	Reasons for material deviations	Remedial or corrective steps/remarks
Motor Vehicle Allowance	(27 279)	-14.8%	The variance is mainly due to the turnaround time in filling vacancies and the internal filling of vacancies.	The process of filling vacancies is on-going.
Cellphone Allowance	4 943	20.8%	The variance is due to an increase in allocation of cell phone allowances to qualifying employees and to staff working remotely.	The period budget will be reviewed and adjusted to align to the actual trend. Virements will be processed where so required.
Housing Allowances	(546)	-1.0%	Immaterial variance.	-
Other benefits and allowances	(8 735)	-3.5%	The variance is a combination of over-/under expenditure on the following elements within the Safety & Security directorate: 1. Standby allowances (over), due to the need for more staff to assist with operations such as increased land invasions, protest action etc.; and 2. Shift allowance (under), where shift allowances were budgeted for the LEAP project, however, phase 1 of the LEAP project has significantly less staff than planned making 24-hour shifts unviable.	The period budget will be reviewed and adjusted to align to the actual trend. Virements will be processed where so required.
Payments in lieu of leave	36 153	53.3%	Payments are linked to the resignation/retirement of staff, which is difficult to plan accurately. Payments further include encashment of leave days as opted for by qualifying staff with long service awards.	The period budget will be reviewed and adjusted to align to the actual trend. Virements will be processed where so required.
Long service awards	(32 779)	-97.4%	Payments are dependent on when qualifying employees exercise their option to convert leave days to cash, which is difficult to plan.	The balance of the budgetary provisions will be transferred to the leave provision in accordance with GRAP 19 as these relate to the vested leave benefits owed to employees.
Post-retirement benefit obligations	2 709	1.3%	The variance is due to misalignment of the Post Retirement Medical Aid (PRMA) actuals with the year-to-date budget. PRMA is based on actuarial valuation and is only processed at year-end.	The period budget will be reviewed and adjusted to align to actual trend.

## **MUNICIPAL COST CONTAINMENT REGULATIONS (MCCR)**

The Municipal Cost Containment Regulations (MCCR) were promulgated on 7 June 2019, and came into effect on 1 July 2019.

In terms of the MCCR, municipalities are to implement cost containment measures to ensure that municipal resources are used effectively, efficiently and economically.

The MCCR further requires municipalities and municipal entities to either develop/review its cost containment policies. The City's Cost Containment policy was approved by Council on 31 October 2019. This policy was then amended as a result of further clarification received from National Treasury on issues raised in respect of certain cost containment regulations as well as providing for a new way of working i.e. attending workshops and conferences, due to the COVID-19 pandemic. The updated version of the Cost Containment policy was approved by Council on 3 December 2020.

The cost containment policies of the City's entities have been approved by their respective board of directors.

Municipalities and municipal entities must furthermore disclose cost containment measures in their in-year budget reports, and annual costs savings in their annual reports. The cost containment in-year report tables reflected on the following pages are in adherence to this reporting requirement.

Communication	81 814	14 078	9 867	The City, as far as possible, uses newspapers with a readership-base predominantly within the City's geographical area and also focuses on community newspapers.
Other related expenditure items - Conferences & Seminars	3 276	566	10	The City's Systems and Procedures (SOP) for attendance of seminars, external meetings/workshops and conferences sets out the cost containment measures, which are strictly adhered. Minor expenditure was incurred for the period under review due to the COVID-19 lockdown restrictions and departments opting for online courses, which cost less than in-person conferences and seminars.
Other related expenditure items - Overtime	825 544	258 706	238 694	The expenditure for the quarter is largely attributable to: 1. Anti- land invasion operations that required law enforcement officers and staff members to work extended hours in order to safeguard Council property; and 2. The fire disaster at Masiphumelele informal settlement that required reconstruction of units, and the administration process of allocating the completed units to qualifying beneficiaries.
Other related expenditure items - Office furniture	17 800	13 315	6 114	The City's Corporate Office Furniture & Associated Equipment Policy seeks to exercise frugality by managing the utilisation of existing redundant office furniture before new office furniture may be procured. The Policy stipulates that the relevant delegated official must scrutinise the City's 'used furniture inventory' depository before any new furniture may be procured and must sign a declaration form confirming that this process has been followed. It should be noted that the total budget was reduced in the January 2021 adjustments budget process.
