

NOTICE

Nine City of Cape Town Clinics integrated into Provincial Health Service

Western Cape Government Health has officially integrated healthcare services of the **Bellville South, Goodwood, Parow, Ravensmead, Durbanville, Scottsdene, Nyanga, Heideveld, and Nolongile City of Cape Town clinics** as from Friday, 1 July 2022.

Services will continue to be available in the same buildings, now only under management of Western Cape Government Health. City of Cape Town patient folders will be handed over to the Provincial Government healthcare facilities.

The integrated services will include child and women's health services, curative interventions for under five-year-old's, TB , STI and HIV screening, testing and treatment, screening and treatment for chronic illness ,chronic clubs, COVID-19 vaccinations as well as access to emergency care, maternity care, mental health and adult curative services and a social worker, all under one roof.

Services operate from Monday to Friday, 07:00 to 16:00. The facilities will be closed over weekends and on public holidays.

We encourage clients accessing services at these facilities to ask for assistance if needed and to maintain their appointment schedules as provided by the City clinics as both the City of Cape Town and Western Cape Government Health will work together to ensure a smooth transition without disrupting client's healthcare experience.

For enquiries or appointments , please contact the facilities:
