While we are actively working on plans to lessen the impact of load-shedding, all pool users should be aware of load-shedding schedules when visiting swimming pools. Facility management may need to adjust planned opening and/or operating times according to the stage of load-shedding affecting their area.

Vulindlela, **Eastridge** and **Observatory** swimming pools will **remain closed for the 2023/24 season**, as these facilities are all earmarked for redevelopment and major repairs.

We are also in the process of conducting repairs and maintenance work at our spray parks in **Nyanga**, **Khayelitsha**, **Valhalla Park** and **Dunoon**, with plans for them to open in January 2024.

Simultaneously, **Scottsville** and **Ocean View spray parks** are undergoing redesign and upgrade work to address issues related to theft and vandalism.
