## Augustine Chiew

### Chief Technology Officer, Huawei

Augustine Chiew is an experienced digital transformation expert with extensive experience in both the public and private sectors. As the Chief Technology Officer for Public Services at Huawei, he helps governments worldwide enhance governance and operational efficiency through innovative ICT solutions.

Previously, he spent 17 years in the Singapore Police Force and Ministry of Home Affairs, holding key leadership roles in planning, operations, and international cooperation. He later joined Accenture as a Consulting Executive, leading projects in strategy, change management, and digital transformation.

A sought-after speaker, Augustine represents Huawei at global summits, sharing insights on safe and smart cities, AI, big data, and digital government. He has also contributed to international law enforcement initiatives, including leadership roles at INTERPOL.

## Andrew Mason

### Co-founder of WorkplaceFundi

Andrew Mason is an experienced workplace and facilities management (FM) executive, consultant, and coach with extensive global experience across the UK, Africa, the Middle East, and Australia. He has held directorships in South Africa, Botswana, and Lesotho and has led major FM operations across multiple African countries.

As the founder of WorkplaceFundi, he provides strategic FM consultancy across Africa. A Chartered Building Surveyor (RICS) and Certified Institute of Workplace and Facilities Management (IWFM) member, he has also served as the Chairman of the South African Facilities Management Association (SAFMA) and South African Ambassador for Euro FM. He contributes to ISO's FM standards (ISO 41000) and frequently writes and speaks on FM strategy worldwide.

Andrew is known for his sharp strategic insight, problem-solving skills, and commitment to driving impactful change in **w**orkplace and **f**acilities **m**anagement.
