2. CONSUMPTIVE TARIFFS AND CHARGES

Water, Sanitation, Electricity and Solid Waste Management attracts VAT at 15%.

2.1 WATER AND SANITATION

Five levels of tariffs are approved for the 2025/26 financial year. The approved tariffs align with projected sets of consumption levels. For the 2025/26 financial year steps has been taken to stabilise the tariff structure to absorb future shocks and uncertainties.

Reform to structural tariffs to treat users fairly and equitably includes: the refinement of the fixed basic charge for water, the implementation of a fixed basic charge for sanitation, increase to the proportion of the fixed basic charge as part of overall revenue, upward alignment of non-domestic fixed basic portion to that of domestic users, adjustment to the variable (volumetric) tariff to allow for the inclusion of the fixed basic charge as well as the differentiation of mechanisms to be used for fixed basic calculations between Domestic and Non-Domestic customers. In addition, step 3 and 4 tariffs has been adjusted upwards to further promote water conservation and water efficient practices.

The change in the tariff structure means that individual customer will experience variable impacts to their water and sanitation accounts. The main factors determining the impact includes current meter size, level of consumption and the value of the mechanism used for fixed basic calculations.

Similar trends will be experienced on the level water wise (no restriction), level 1, level 2, and level 3 restriction tariffs. The level emergency restriction tariffs will however be higher as upward adjustments were required to ensure a revenue-neutral position can be achieved under this volumetric set.

Tariff increases are predominantly due to the impact from water augmentation plans to ensure security of water supply, upgrades and extensions to the wastewater treatment plants, expansion of water and wastewater infrastructure to align with urbanization and densification trends, ensuring basic services to the informal settlements and poor households, adhering to compliance conditions and pollution control, water demand management initiatives, ensuring the management of assets at appropriate levels (including a specific focus on the sewer network and sewer pump stations), increases to operational cost, sustain and enhance the maintenance programs as well as supplying water and sanitation services at appropriate compliance, capacity, skills, service delivery and responsiveness levels. Allowance is also required to smooth the tariff increases once the additional operating cost for major new resource projects comes on line.

Below are the approved 2025/26 level water wise (no restriction) tariffs to be implemented from 1 July 2025 for Water:

Highlights of amendments for Water and Sanitation
Consumptive Tariffs:

- Implementation of a fixed basic charge for Sanitation.
- Refinement of the fixed basic charge for Water.
- Differentiation of mechanisms to be used for fixed basic charge calculations between Domestic and Non-Domestic customers.
- Increase to the proportion of the fixed charge as part of overall revenue.
- Adjustment to the variable (volumetric) tariff to allow for the inclusion of the fixed basic charges.
- Upward adjustment of non-domestic fixed basic charge to align with the proportion of domestic users.
- Upward adjustment of step 3 and 4 variable (volumetric) tariffs to further promote water conservation and water efficient practices.
- Higher increases implemented for Level Emergency restrictions tariffs to ensure a revenue-neutral position can be achieved under this volumetric set.

Miscellaneous Tariffs:

- Full cost recovery applied for tariff to shut off supply at stopcock
- Specific tariffs recommended for new connections (50mm and above) to eliminate delays experienced due to quotation methodology.
- Penalty of R5 0

Highlights of amendments

11- City-wide Cleaning

- The approved City-wide Cleaning tariff is embedded in the “polluter pays” principle, which is the cornerstone of the National Environmental Management Act, Act 107 of 1998, which amply specifies that all generators of waste (including businesses and households) are responsible for the costs of managing the waste generated. The range of services covered by the City-wide Cleaning tariff cannot be measured using a standard unit e.g. consumption or usage, as the specific benefit to each property or user category is difficult to determine. The City-wide Cleaning tariff is therefore not based on individual consumption but instead designed to provide a collective benefit, ensuring a reasonably clean and hygienic environment for all customers.

11.1 - Service categories

11.1.1 City-wide Cleaning tariff for residential properties (including sectional title units) and vacant land based on a fixed charge per property value band.

11.2 Billing categories

- 11.2.1 - In all instances the property owner will be billed and not the tenant;
- 11.2.2 - All property owners will automatically be billed for a City-wide Cleaning Fixed charge within the property bands

11.3 - Exemptions:

- Agricultural Properties;
- Properties owned by Public Benefit Organisations (PBOs) and used for specified public benefit activities;
- Properties owned by an organisation – not for profit:
 - used for animal welfare/shelters;
 - used as an early childhood development facility;
 - used for youth development;
 - used as accommodation for the vulnerable;
 - used as a local community museum;
 - used for an old age home;
 - used exclusively for amateur sport;
- Properties owned by a SHRA-accredited Social Housing Institutions or accredited Other Delivery Agents (ODA) and used for social housing;
- Properties owned by war veterans’ associations and used for the welfare of war veterans;
- Public Service Infrastructure (PSI);
- Cemeteries and Crematoria
- Nature conservation land
