

# RECYCLERS

## Connect to Cape Town's waste recycler app

Online visibility for Cape Town's accredited recyclers

### WHAT IS CAPE TOWN'S WASTE RECYCLER APP?

A free Cape Town website app allowing residents to:

- check whether the City's kerbside recycling programme, Think Twice, is offered in their area and to find contact details of the relevant service provider
- search for accredited recycling service providers in their suburb, including recycling drop-offs, buy-back centres or collectors and to find their contact details

### HOW TO JOIN THE APP

Request an application form by emailing [re.cycling@capetown.gov.za](mailto:re.cycling@capetown.gov.za)

Complete the form and return via the same email address

Include your accreditation reference number to be added to the app within a week and a confirmation SMS will be sent to you

### BENEFITS FOR YOU

Your company will be exposed to everyone in Cape Town visiting the City's website and looking for recycling solutions in the suburbs where you operate. Such visitors will be looking for either buy-back centres, drop-off centres or recycling collectors, thus providing you with business exposure opportunities.

**This service is offered free of charge to accredited recycling service providers.**
