

CAPE TOWN, LEADING SANITATION

The South African constitution states that every single South African has the right to basic sanitation. **In Cape Town, we're proudly realising that right.**

CITY OF CAPE TOWN

The City of Cape Town has managed to provide

100%

adequate access to sanitation services in informal settlements.

**THE TOTAL NUMBER OF
TOILETS INSTALLED IN
INFORMAL SETTLEMENTS
2006 - 2014**

30 000

NATIONALLY

57%

of informal settlements have **NO access to sanitation services.**

43%

of informal settlements have **adequate access to sanitation services.**

INTO THE FUTURE

The City is committed to providing sanitation types best suited to conditions and prevailing infrastructure constraints in each area.

The majority of non-flush alternatives are cleaned **3 times a week.**

Over and above full flush toilets and other toilet types, the City is providing additional portable flush toilets, that are sealed, hygienic, water-based systems.
