Working **together** for a cleaner City

The City of Cape Town provides a weekly door-to-door waste collection service and a litter picking/illegal dumping removal service in informal areas throughout the city.

Once every week the contractor gives each household a minimum of two bags and the contractor collects the household's full bags at the same time.

Know what waste service is offered in your area.

WHAT TYPE OF SERVICE IS OFFERED TO ME?

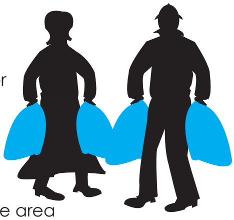
You have a door-to-door waste collection service.
A contractor gives each household two bags per week and also collects the household's full bags.

Please note that these bags are only intended for normal household waste.

WHAT HAPPENS TO THE BAG?

Every week the contractor gives you two bags and collects your full bags on the collection day.

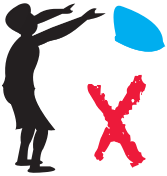
The contractor takes your full bags to the shipping container or waste storage area for removal.



WHAT HAPPENS IF I MISS THE CONTRACTOR'S COLLECTION DAY?

We appeal to residents not to dump their waste in canals or open areas.

Dumped waste is unsightly, causes health hazards and is expensive to remove.



WHAT SHOULD I DO THEN?

Take your full refuse bag to the shipping container or the waste storage area, the collection point for the contractor.
