Census 2022

Police Precinct: Atlantis

Policy and Strategy Department

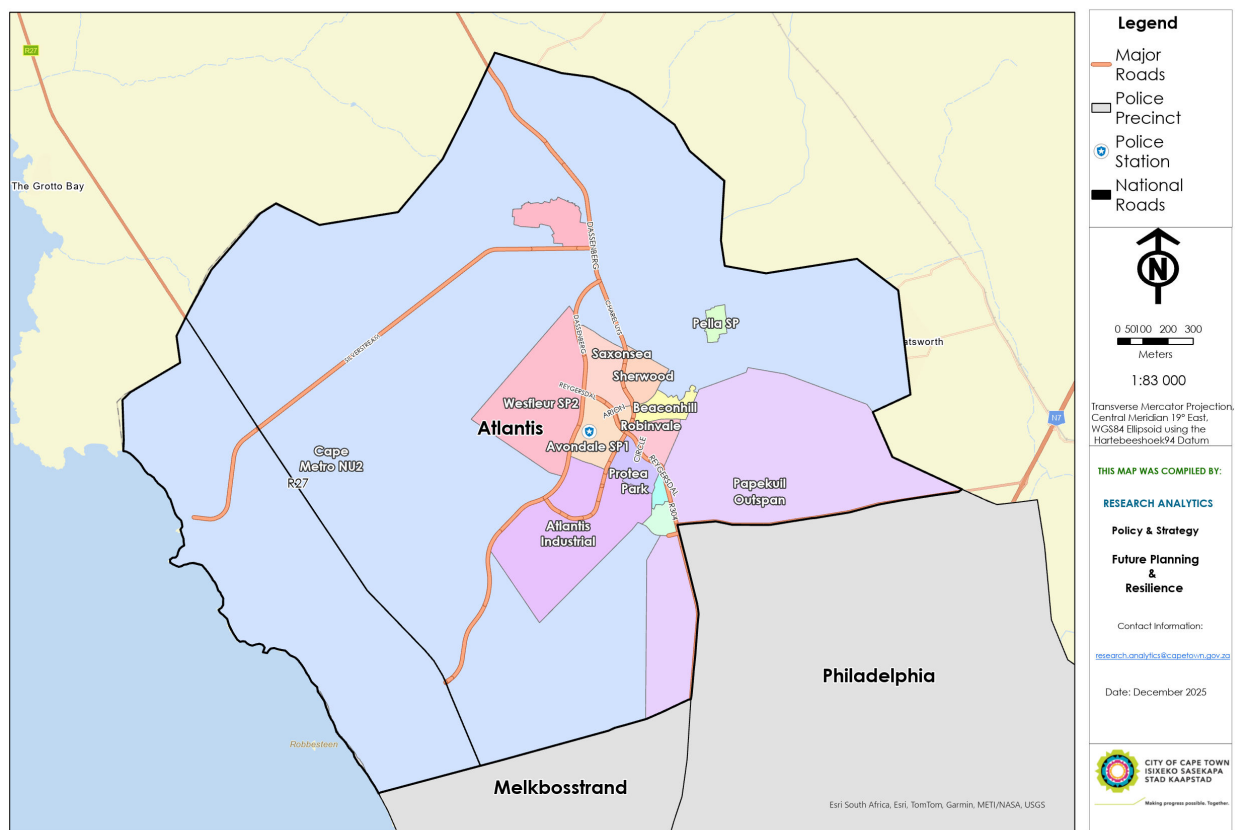

Research Analytics

City Of Cape Town

1. Introduction

This Police Precinct profile is compiled by Research Analytics, Policy and Strategy Department, City of Cape Town using 2022 Census data supplied by Statistics South Africa (based on information available at the time of compilation as released by Statistics South Africa). The dataset was extracted from SuperCROSS, the analytical software platform used by Statistics South Africa. The platform provides data in a tabular format, aggregated for each of the geographic boundaries released by Statistics South Africa.

2. 2022 Census Atlantis police precinct overview¹

¹Every effort has been made to ensure the accuracy of information in this map at the time of publication. The spatial data portrayed in this map is as current, accurate and complete as provided by the various line departments responsible for the maintenance of these datasets. The City of Cape Town accepts no responsibility for, and will not be liable for, any errors or omissions contained herein.

3. 2022 Census Atlantis police precinct overview²

- Population: 103 800
- Households³: 24 247
- Average Household size⁴: 4.3
- Number of sub-places⁵: Approximately 13 sub-places.

4. Summary of key Atlantis police precinct statistics

Population

- The population is predominantly Coloured (71.5%).
- The median age is 28 years old.

Education

- 30.9% of those aged 20 years and older have completed Grade 12 or higher.

Housing

- 88.4% of households live in formal dwellings.

Basic services

- 98.6% of households have access to piped water, either on the property or within 200m.
- 97.9% of households use electricity from the mains supply for lighting.
- 95.0% of households have access to a flush toilet, chemical toilet or a pit toilet with ventilation.
- 92.6% of households have refuse removed at least once a week.

²There are small variations in the total population and the number of households in the tables which follow. These occur as Statistics South Africa had to calculate the true population to correct omissions and double counts in the enumeration process. In addition when the data is extracted using the Statistics South Africa software, it randomly rounds off all cells to a base number 3, including the totals. These variations are not significant.

³A household is defined as a group of persons who live together, and provide themselves jointly with food or other essentials for living, or a single person who lives alone (Statistics South Africa).

⁴The Census districts where the population is categorised as living mainly in collective living quarters or is an industrial or commercial area, the average household size has been excluded as it is not applicable. There are some Census districts with an average household size that have a small percentage of the population living in collective living quarters within that Census districts, and this could artificially inflate the average household size.

⁵Sub-places are the second, lowest-level geographical units, representing suburbs, townships, wards, or villages used by Statistics South Africa for data collection. Some sub-places do not align perfectly with police precinct boundaries. This figure is based on the sub-places's centroid falling within a precinct.

5. Population

Population groups which constitute less than 5% excluded from labels

Occupied rent-free	1726	21.6%	1110	7.5%	5	1.4%	9	1.1%	22	5.9%	2872	11.8%
Do not know	8	0.1%	252	1.7%	0	0.0%	5	0.6%	5	1.3%	270	1.1%
Other	30	0.4%	283	1.9%	0	0.0%	5	0.6%	5	1.3%	323	1.3%
Unspecified	2413	30.3%	997	6.8%	306	86.2%	691	85.5%	8	2.1%	4415	18.2%
Total	7975	100.0%	14734	100.0%	355	100.0%	808	100.0%	375	100.0%	24247	100.0%

If the unspecified category under tenure type exceeds 20%, the data in the table should be interpreted and used with caution.

8. Basic Services

Figure 6: Summary of access to basic services by population group (%)

Definitions:

- **Access to energy** is the use of electricity from mains supply for lighting.
- **Access to water** is piped water, either on the property or within 200 m.
- **Access to sanitation** is a flush toilet, a chemical toilet or a pit toilet with ventilation.
- **Access to refuse removal** is a removal service at least once a week.

Table 4: Main source of energy for lighting

Lighting Source	Black African	Coloured	Indian/Asian	White	Other	Total
Electricity from mains	7 675 (96.3%)	14 547 (98.7%)	354 (100%)	802 (99.4%)	365 (97.3%)	23 743 (97.9%)
Other source of electricity (e.g. generator etc.)	26 (0.3%)	31 (0.2%)	0 (0%)	0 (0%)	0 (0%)	57 (0.2%)
Gas	12 (0.2%)	47 (0.3%)	0 (0%)	0 (0%)	8 (2.1%)	67 (0.3%)
Paraffin	110 (1.4%)	8 (0.1%)	0 (0%)	0 (0%)	0 (0%)	118 (0.5%)
Candles	94 (1.2%)	43 (0.3%)	0 (0%)	0 (0%)	2 (0.5%)	139 (0.6%)
Solar	2 (0%)	3 (0%)	0 (0%)	5 (0.6%)	0 (0%)	10 (0%)
