HOLIDAY PROGRAMME
DECEMBER 2024 - JANUARY 2025

PLAY. LEARN. MOVE

PROGRAMME OVERVIEW

The Department's 2024-25 summer Holiday Recreation Programme is packed with lively and vibrant activities to ensure that the summer holidays are action-packed and full of fun for children and youth! The programme provides an opportunity to safely enjoy recreation activities, sports and outdoor games, while enhancing their skills and experiencing a unique recreational learning environment. While the focus is on fun and positive engagement, there may also be friendly, competitive activities.

The Holiday Programme is offered from **Thursday, 12 December to Tuesday 14 January 2025** at recreational venues across the City. The programme takes place at multiple recreation facilities, including community centres, sports grounds, play parks, green spaces, and other public facilities. The programme offers a variety of activities at these locations, tailored to the needs of the community and the creativity of the organizing staff. Daily activities will start at various times between 08:00 and may continue into the late afternoon.

PLEASE NOTE. Dates and times may vary per facility. The Holiday Programme will not be offered on 25, 26 and 31 December 2024, and 1 January 2025. The Programme Coordinator can be contacted should more information be required.

PROGRAMME OBJECTIVES

1. The primary aim of this programme is to provide a variety of customised and quality recreation and sport activities for school-aged children and youth to participate in during the summer school holiday period.
2. The programme intends to keep children and youth physically active¹ while also providing a safe space for them to participate in recreation and sport at Recreation and Parks Department facilities and public spaces.
3. Ensure the programme is accessible to the most vulnerable communities through Mobile units.
4. To promote the use of recreational spaces across the city by local residents.
5. In addition to providing recreational activities, this programme aims to enhance social and cultural awareness and cohesion.

¹ International guidelines recommend that children and adolescents aged 5-20 years achieve at least an average of one hour per day of moderate to high-intensity physical activity (mostly aerobic) across the week, or that high-intensity aerobic activities, as well as those that strengthen muscle and bone, should be included at least 3 days a week (WHO, 2020). While the holiday programme will consist of a variety of active and passive activities, the programme will also focus on keeping children and youth physically active by ensuring at least 45-60 minutes of moderate to vigorous intensity recreation activities is achieved on each day the programme is offered.
