City Map Viewer Zoning Guide

To switch on the zoning layers for the City Map and Zoning Viewer, follow the below steps:

1. Zoom into an area until you have a view distance of at least 0.3 km. You can view the map scale in the bottom left-hand corner. Alternatively, you can type the address you’re looking for into the search bar in the top left-hand corner.

2. On the right-hand side of the screen is the layer list menu.

3. Click on the grey arrow on the left of Themes to expand the selection.

4. Scroll down to the Land Administration layer and expand it.

5. Click the box next to Zoning Scheme to switch on the layer. You should now be able to view the zoning for your area.

6. For the zoning legend, expand any of the zoning related layers below Zoning Scheme.

The layer list menu
